Teacher Manuscript - researched days

Each class lists its sources (VERIFIED = I opened the page; NOT OPENED = from memory or your document, please check; STANDARD KNOWLEDGE = common knowledge). Then the talk for each child or group, with the answer to say out loud in yellow, then the questions and the answer key at that level.

Day 1 — Tuesday, October 6

BIBLE - Who Is Jehovah? His Personal Name (Psalm 83:18; Exodus 3:14–15; Isaiah 42:8)

SOURCES AND VERIFICATION

YOUR DOCUMENT: The full lecture for Day 1 (hook, foundation, building, depth, application questions, answer key) is in your Teacher Lectures document and is reproduced in the app's Teacher Manual. This page adds the quiz questions that match it.

NOT OPENED: Psalm 83:18, Exodus 3:14–15, Isaiah 42:8 and Acts 17:22–31: I did not open these in the New World Translation. Read them from your own NWT.

FOR MYKAH — Mykah (4th grade) (about 196 words, 1.3 min aloud)

Hold up a flower or a leaf and say: look at this. Look at the color and the tiny lines. Did this make itself? Let Mykah shake his head no. Then say: something this beautiful was made by someone. The Someone who made everything you have ever seen, touched, tasted or heard has a name. His name is Jehovah.

Say it with me and clap the parts: JE – HO – VAH. A name matters because it tells us he is a real Person. You can know a person, talk to a person and love a person. Jehovah is not a faraway force. He wants us to know his name.

Here is a picture that helps. Jehovah is like the very best parent in the whole universe, a thousand times over. He knows what you need before you even ask, and he always has enough to give.

ANSWER 1 TO SAY OUT LOUD: So here is the first answer for Mykah. Jehovah is the name of the One who made the flower and everything we see.

ANSWER 2 TO SAY OUT LOUD: And the second answer. One thing Jehovah gives us that we need is food, a family, a home, or love. Any one of those is right.

Question 1 (Mykah): Can you say Jehovah's name? Who made the flower and everything else we can see?

TEACHER ANSWER KEY: Jehovah (say the name). Jehovah made the flower and everything we see.
Look for: their own words and the key points above. Do not require my exact wording.

Question 2 (Mykah): Tell one thing that Jehovah gives you because he knows what you need.

TEACHER ANSWER KEY: Any true answer: food, family, a home, love, friends, sunshine, a Bible, etc.
Look for: their own words and the key points above. Do not require my exact wording.

FOR ASHELYN — Ashelyn (8th grade) (about 253 words, 1.7 min aloud)

Turn to Exodus 3, verses 14 and 15. Moses asked God what to tell the people when they asked who sent him. In many Bibles the answer is written “I AM WHO I AM,” and in the New World Translation it is rendered “I Will Become What I Choose to Become,” which is the meaning of the name Jehovah, “He Causes to Become.” (Your Teacher Lecture uses a similar wording, “I Will Become What I Need to Become”; check the exact words in your own NWT.)

Think about what that means. When Israel was hungry, Jehovah became their Provider. When enemies chased them, he became their Protector. When they were heartbroken, he became their Comfort. Jehovah becomes exactly what his people need, exactly when they need it.

ANSWER 1 TO SAY OUT LOUD: Here is the answer to the first question. The name Jehovah means “He Causes to Become.” It matters that he has a personal name, not just a title like God or Lord, because a title describes a position, but a name belongs to a person. A name makes a relationship personal instead of keeping God at a distance.

Now read Isaiah 42:8 aloud: “I am Jehovah. That is my name.” Notice the second part: he does not give his glory to anyone else. He takes his name seriously, and we should also.

ANSWER 2 TO SAY OUT LOUD: So here is the second answer. When Israel needed food, he became their Provider. Jehovah becoming what his people need is an example of the meaning of his name, and it shows his love.

Question 1 (Ashelyn): What does the name Jehovah mean? Why does it matter that he has a personal name and not only a title like God or Lord?

TEACHER ANSWER KEY: “He Causes to Become.” A name makes a relationship personal; a title keeps God at a distance and only describes a role.
Look for: their own words and the key points above. Do not require my exact wording.

Question 2 (Ashelyn): Give one example of Jehovah becoming what his people needed (Exodus 3:14), and tell what it shows about him.

TEACHER ANSWER KEY: Provider (food), Protector/Warrior (enemies), or Comforter (heartbroken). It shows Jehovah is loving and meets exactly the need of each person at the right time.
Look for: their own words and the key points above. Do not require my exact wording.

FOR RYAN AND KAYLA — Kayla (11th) and Ryan (12th) (about 406 words, 2.7 min aloud)

Start with Psalm 83:18: “...you, whose name is Jehovah, you alone are the Most High over all the earth.” Titles like “God” and “Lord” describe a role, such as ruler, creator, owner. A name identifies a person. Psalm 83:18 states that Jehovah is a name, and Isaiah 42:8 says: “I am Jehovah. That is my name.”

ANSWER 1 TO SAY OUT LOUD: So here is the answer for Kayla’s question. If someone says God has no personal name, I would use Psalm 83:18, which says his name is Jehovah, and Isaiah 42:8, where he says “That is my name.” I would explain that titles describe roles while names identify persons.

Why do most people not know the name? In many Bible translations the divine name was replaced with “LORD” or “GOD” in capital letters. The reason usually given is a Jewish tradition of not pronouncing the name, which many translators followed. The name appears in the Hebrew text about 7,000 times. (Please check this figure and the number of times the New World Translation restores it in the Christian Greek Scriptures against Appendix A5 of the NWT on wol.jw.org. Your Teacher Lecture says the name was “removed over 6,000 times from the Christian Greek Scriptures alone,” which does not match what I remember; I believe the 6,000-plus figure belongs to the Hebrew Scriptures, and the NWT uses the name 237 times in the Greek Scriptures. I could not open the NWT to verify, so please check before you say that sentence aloud.)

Now Ryan's question. In Acts 17:22–31, Paul speaks in Athens before people who worshiped many gods. He starts from something they already accept: the altar "To an unknown god." He reasons that the God who made the world and everything in it does not live in hand-made temples, he gives life and breath to all, and people were made to look for him. Notice the three steps of his reasoning. First, creation needs a cause: a world and living things do not make themselves. Second, humans everywhere long for purpose and for something beyond themselves. Third, our conscience points to a moral standard. All three lead to a personal God.

ANSWER 2 TO SAY OUT LOUD: The answer to the second question: using Acts 17:24–28, I would argue that creation requires an intelligent cause, that humans universally long for purpose and for God, and that our conscience points to a moral lawgiver. Together these point to a personal God, and a person has a name: Jehovah.

Question 1 (Ryan and Kayla): If someone said "I don't think God has a personal name," what one scripture would you use and what would you say?

TEACHER ANSWER KEY: Psalm 83:18 ("you, whose name is Jehovah") and/or Isaiah 42:8. It is his personal name, not a title. Titles describe roles; names identify persons.
Look for: their own words and the key points above. Do not require my exact wording.

Question 2 (Ryan and Kayla): Using Acts 17:22–31 as a framework, how would you reason with someone who says there is no personal God? What is your strongest logical argument?

TEACHER ANSWER KEY: Acts 17:24–28: creation requires an intelligent cause; universal human longing for purpose points to a Creator; conscience reflects a moral lawgiver. All three point to a personal God with a name.
Look for: their own words and the key points above. Do not require my exact wording.

MULTIPLE CHOICE (circle one) — Mykah

Who made the flower and everything else we can see?
A. The wind
B. Jehovah
C. A scientist
D. Nobody

TEACHER ANSWER KEY: B. Jehovah made all things (Day 1 talk).

FLAG: Possible error in your Teacher Lecture: it says the name was "removed over 6,000 times from the Christian Greek Scriptures alone." Please check Appendix A5 in the NWT

before saying it. See the Kayla and Ryan section.

FLAG: Quiz questions for Day 1 now come straight from the application questions in your own lecture, and not from the earlier quiz.

SCIENCE - Day 1 science: three levels

SOURCES AND VERIFICATION

VERIFIED: Encyclopaedia Britannica, “The measurement problem” (philosophy of physics): standard quantum mechanics predicts superposition; the measurement problem; the “standard interpretation”; the vague line between measurement and ordinary processes; the brain-state discussion does not use the word consciousness.
Link: https://www.britannica.com/topic/philosophy-of-physics/The-measurement-problem

VERIFIED: MedlinePlus Genetics (U.S. National Library of Medicine), “Help Me Understand Genetics: The Basics”: cells are “the basic building blocks of all living things”; parts of a cell and their jobs.
Link: https://medlineplus.gov/download/genetics/understanding/basics.pdf

NOT OPENED: Many-Worlds: the Britannica page does not mention it. I describe it from general knowledge. Einstein’s “spooky action at a distance” and Hebrews 11:3 are not opened either.

FOR RYAN AND KAYLA — Ryan and Kayla: Quantum mechanics and what it can and cannot tell us (about 629 words, 4.2 min aloud)

Today’s question is big: what does the strange world of the very small tell us? Let me start with what quantum mechanics is. It is the physics that describes atoms and the particles inside them. It is one of the best-tested theories in science, and it explains how computers, lasers and medical scanners work. It is also strange, so we need to be careful to say what it really says and what it does not.

First idea: superposition. According to the Britannica article I used, a particle’s wave function, the mathematical description of it, can be nonzero in several places at once. Picture an electron sent through a device that has two possible paths. The math says it is in a combination of both paths until something measures it. When we measure it, we find it in one place only.

That leads to the measurement problem. The same Britannica article explains it like this. The basic equations are smooth and predictable for a system left alone. But when you apply them to a measuring device, they predict the device itself ends up in a combination of two readings, even though in real life a device always shows one reading. The article calls this the most important challenge in quantum mechanics since the 1970s.

The usual answer, often called the Copenhagen or standard interpretation, is that measuring changes the wave function so it ends up in one place, with a certain probability for each result. Here is an honest note: the article says the line between a “measurement” and an ordinary physical process is vague. So physicists really do argue about this. Another idea, called Many-Worlds, says nothing ever collapses and every result happens in a branching set of worlds. The Britannica page I opened does not cover Many-Worlds, so I am giving you that from general knowledge, and you should double-check it.

ANSWER 1 TO SAY OUT LOUD: So here is the first answer in a clear form. Superposition means that before measurement, quantum mathematics describes a particle as a combination of several possible states. The measurement problem is that we do not agree how, or why, a measurement produces just one result. Copenhagen says the wave function changes at measurement; Many-Worlds says all results happen.

Now I must correct two things people often say, and that older versions of this lesson said. People say “cause and effect breaks down” at the quantum level. That is not accurate. The equations of quantum mechanics are deterministic for a system left alone. What is random is the result of an individual measurement. And people say particles are in many states “until observed,” as if a person’s mind must look. The article describes observers as physical systems, and it does not say that human consciousness is required. Most physicists use “measurement” to mean a physical interaction.

So what are the philosophical implications? Quantum mechanics does show that the world at the smallest scale does not match our everyday picture of little hard balls. That is humbling. But it is a physical theory, and it does not by itself prove or disprove God. Hebrews 11:3 says that what is seen has come into existence from things that are not visible. That is a statement of faith in Jehovah as Creator, and the way we use physics well is to say what the science says first, then say what we believe, and keep the two separate. I could not open the NWT, so please read Hebrews 11:3 in your Bible.

ANSWER 2 TO SAY OUT LOUD: So the second answer is this. Quantum mechanics cannot prove or disprove God, because it is a theory about how matter behaves. Its strangeness shows that science has limits

and that our everyday picture is incomplete. Hebrews 11:3 is a statement of faith that we state separately from the science.

Question 1 (Ryan and Kayla): Explain superposition and the measurement problem in your own words.

TEACHER ANSWER KEY: Superposition: before measurement, the math describes a particle as a combination of several possible states or places. Measurement problem: when measured we see only one result, and physicists disagree about how or why (Copenhagen: the wave function changes at measurement; Many-Worlds: all results happen). Do not require that a conscious observer is needed.
Look for: their own words and the key points above. Do not require my exact wording.

Question 2 (Ryan and Kayla): Quantum mechanics is strange. Why can we not say it proves or disproves God, and how does Hebrews 11:3 relate to what science can say?

TEACHER ANSWER KEY: It is a physical theory about matter, so it describes how things behave and does not answer whether a Creator exists. Hebrews 11:3 expresses faith that the visible came from the invisible; keep science and belief separate.
Look for: their own words and the key points above. Do not require my exact wording.

FOR ASHELYN — Ashelyn: The cell, the basic building block of life (about 482 words, 3.2 min aloud)

Take a deep breath and look at your hand. Your hand is made of cells, tiny living units too small to see. The U.S. National Library of Medicine says cells are the basic building blocks of all living things, and the human body has trillions of them. Biologists often say the cell is the basic unit of life, which is the idea in the old lesson. The source I opened says “building blocks,” and the two phrases mean the same thing for us.

What do cells do? They give the body its structure, they take in food and turn it into energy, they carry out special jobs, they store the instructions for the body, and they can make copies of themselves.

Now let’s tour a cell. Imagine a small city. The plasma membrane is the outer wall. The source says it separates the cell from its surroundings and controls what moves in and out, like a gate with guards. The nucleus is city hall. The source calls it the cell’s command center: it holds the DNA, the instructions, and directs the cell to grow, divide, or die. The mitochondria are the power plants. They convert the energy from food into a form the cell can use. The ribosomes are factories that follow the instructions to build proteins. The

cytoplasm is the jelly-like fluid that fills the space and holds everything. The lysosomes are the recycling crew, breaking down worn-out parts and invaders.

ANSWER 1 TO SAY OUT LOUD: Here is the answer to the first question. A cell is the smallest living unit, the basic building block of all living things. Two parts: the nucleus directs the cell and holds its DNA, and the mitochondria convert food energy into energy the cell can use. The membrane controls what comes in and out.

Why is it called the basic unit of life? Because every living thing is made of one or more cells, and nothing smaller than a cell carries out all the functions of life on its own. You could remove a heart or a bone from the body and you would still find cells in it. A single cell may be tiny but it is organized with parts that cooperate.

What should this make us think? Psalm 139:14 says, “I praise you because I am awe-inspiringly and wonderfully made.” (From memory; check your NWT.) When we see that every one of the trillions of cells in our body has its own command center, power supply and recycling system, we are amazed. The source I used describes how it works and does not say who designed it. We add that conclusion ourselves, as people who believe in a Creator.

ANSWER 2 TO SAY OUT LOUD: The second answer: all living things are made of cells, and each cell has organized parts that work together, so the cell is the basic unit of life. The amazing design of a cell makes us respect Jehovah’s wisdom.

Question 1 (Ashelyn): Cell structure: explain what a cell is, name at least two parts of a cell and what each one does.

TEACHER ANSWER KEY: Smallest living unit; basic building block of all living things. Parts: nucleus (command center, holds DNA), mitochondria (convert food energy to usable energy), membrane (controls what goes in and out), ribosomes (build proteins), cytoplasm, lysosomes (recycling).
Look for: their own words and the key points above. Do not require my exact wording.

Question 2 (Ashelyn): Why is the cell called the basic unit of life, and what does the way a cell is built make you think about?

TEACHER ANSWER KEY: All living things are made of cells, and a cell carries out the functions of life with organized parts. Accept a reasoned conclusion about design and Jehovah's wisdom; the student should separate the science from the belief.
Look for: their own words and the key points above. Do not require my exact wording.

FOR MYKAH — Mykah: Jehovah made everything, and we are scientists (about 234 words, 1.6 min aloud)

Look out the window or at a nature picture. What do you see? Trees? Clouds? Birds? How many different things did Jehovah make? Let Mykah name them. Jehovah made all of it. Revelation 4:11 says he created all things. (Check in your Bible.)

Scientists are people who study the things Jehovah made. They do four simple things. They ask a question. They look carefully. They try something to find out. And they tell what happened. Today we are scientists!

Our question is: does a heavy thing fall faster than a light thing? Hold a pencil and an eraser at the same height. Drop them at the exact same moment. Watch and listen carefully. Which one hits the floor first? Try it twice. (Try it yourself first. They usually land at nearly the same time. If one lands a little first, that is okay, say what you see.)

ANSWER 1 TO SAY OUT LOUD: Say it with me. Jehovah made trees, animals, water, sky, people, and so many things we can see. Name any three.

ANSWER 2 TO SAY OUT LOUD: And for the second question, we did an experiment. We dropped a pencil and an eraser and watched which one landed first. We saw that they landed at about the same time, and that is what scientists do: ask, try it, look, and tell what they saw.

Great job. You asked a question, you tried something, and you told what happened. That is what scientists do.

Question 1 (Mykah): Name three things Jehovah made that you can see.

TEACHER ANSWER KEY: Any three true things (tree, bird, sun, water, people).
Look for: their own words and the key points above. Do not require my exact wording.

Question 2 (Mykah): We dropped a pencil and an eraser. What did we do to find out which one falls faster, and what did you see?

TEACHER ANSWER KEY: They asked a question, dropped both at the same time, watched and told what happened. Accept what the child actually observed (usually they land at about the same time).
Look for: their own words and the key points above. Do not require my exact wording.

MULTIPLE CHOICE (circle one) — Ryan and Kayla

According to the lesson, which statement about quantum mechanics is accurate?

A. Cause and effect completely stops working at small scales
B. The equations for an undisturbed system are deterministic, but an individual measurement result is only predicted as a probability
C. A human mind has to look at a particle for it to exist
D. Quantum mechanics proves that God does not exist

TEACHER ANSWER KEY: B. Britannica: the basic equations are deterministic for isolated systems; measurement gives one result with a probability. Choice A and C are the common misunderstandings corrected in the talk; D is not something science can show.

MULTIPLE CHOICE (circle one) — Ashelyn

Which cell part is called the "command center," because it holds the DNA and directs the cell?

A. Mitochondria
B. Plasma membrane
C. Nucleus
D. Lysosome

TEACHER ANSWER KEY: C. Nucleus (MedlinePlus: "the cell's command center"). Mitochondria make usable energy; the membrane controls what goes in and out; lysosomes recycle.

FLAG: Corrected the old lesson: "cause and effect breaks down" and "until observed" are misleading; the talk says what the source says.

FLAG: Revelation 4:11 and Psalm 139:14 are from memory; check your NWT.

FLAG: The pencil-and-eraser drop: try it first and accept what you actually see.

MATH - Day 1 math: three levels

SOURCES AND VERIFICATION

VERIFIED: Paul's Online Notes (Lamar University), "The Limit": limit meaning, notation, a limit can exist even when f(a) is undefined, and the value at the point does not change the limit.

Link: https://tutorial.math.lamar.edu/Classes/CalcI/TheLimit.aspx

STANDARD KNOWLEDGE: Integers, absolute value and place value are standard arithmetic. I checked every answer by computer. No outside source opened.

FOR RYAN AND KAYLA — Ryan and Kayla: Limits (about 448 words, 3.0 min aloud)

Imagine you are driving toward a stop sign. You get closer and closer, and at every moment you can say how far you are. A limit asks a similar question about a function: as the input gets closer and closer to a number, what number does the output get closer and closer to?

Here is the working definition from Paul's Online Notes. The limit of f of x as x approaches a equals L means we can make f of x as close to L as we want by taking x close enough to a, from both sides, without letting x equal a. We write it: the limit as x goes to a of f of x equals L.

Our example from the lesson: the limit as x approaches 2 of x squared minus 4, all divided by x minus 2. If you plug in 2, you get 0 over 0, which is undefined. But a limit does not care what happens at 2. It cares about what happens near 2. So factor the top: x squared minus 4 is x minus 2 times x plus 2. Cancel the x minus 2, which is allowed because x is near 2 but not equal to 2. What is left is x plus 2. As x approaches 2, x plus 2 approaches 4. So the limit is 4.

ANSWER 1 TO SAY OUT LOUD: So the answer to the first question is 4. The steps: the direct substitution gives 0 over 0, so factor the numerator into x minus 2 times x plus 2, cancel x minus 2, and evaluate x plus 2 at 2.

Here is the important idea, and it comes straight from Paul's Online Notes: a limit can exist even when the function is undefined at that point. The function in our example has no value at 2, yet the limit is 4. The notes also stress that if you change the function's value at the point, the limit does not change. Limits are about the neighborhood, not the point itself.

Why does this matter? Calculus uses limits to define the slope of a curve at a single instant, which is called a derivative, and the instantaneous rate of change. A speedometer tells you your speed at an instant, and that is a limit of

average speeds over shorter and shorter times. (That connection to speedometers and derivatives is standard calculus; it was not on the page I opened.)

ANSWER 2 TO SAY OUT LOUD: The second answer: the limit exists because it describes what the output approaches as x gets near 2, not the value at 2. The function is undefined at 2, but the outputs get closer to 4 from both sides, so the limit is 4.

Question 1 (Ryan and Kayla): Find the limit as x approaches 2 of $(x^2 - 4)/(x - 2)$. Show every step.

TEACHER ANSWER KEY: 4. Direct substitution gives 0/0; factor $(x-2)(x+2)$; cancel $(x-2)$; evaluate $x+2$ at $2 = 4$.
Look for: their own words and the key points above. Do not require my exact wording.

Question 2 (Ryan and Kayla): Explain why this limit exists even though the function is undefined at $x = 2$.

TEACHER ANSWER KEY: A limit describes what the outputs approach as x gets close to 2 (from both sides), not the value at 2. The outputs approach 4, so the limit is 4.
Look for: their own words and the key points above. Do not require my exact wording.

FOR ASHELYN — Ashelyn: Integers and absolute value (about 276 words, 1.8 min aloud)

Integers are the whole numbers and their opposites: …, −3, −2, −1, 0, 1, 2, 3, … Picture a number line. Zero is in the middle. Positive numbers go to the right and negative numbers go to the left.

Absolute value is how far a number is from zero on the number line, no matter which direction. We write it with two bars. The absolute value of negative 7 is 7, because negative 7 is 7 steps from zero. The absolute value of 7 is also 7. Distance is never negative. So the absolute value of negative 12 is 12 and the absolute value of 7 is 7.

ANSWER 1 TO SAY OUT LOUD: Here is the first answer. The absolute value of negative 12 is 12, the absolute value of 7 is 7, and 12 plus 7 equals 19.

Adding integers. If the signs are the same, add the numbers and keep the sign: negative 3 plus negative 4 is negative 7. If the signs are different, subtract the smaller from the larger and keep the sign of the larger: negative 6 plus 10 is 4,

because 10 is larger and positive. Subtracting means adding the opposite: 4 minus 9 is the same as 4 plus negative 9, which is negative 5.

Now our second problem: negative 6 plus 10 minus 9. Go left to right. Negative 6 plus 10 is 4. Then 4 minus 9 is negative 5.

ANSWER 2 TO SAY OUT LOUD: The answer to the second problem is negative 5. Check on a number line: start at negative 6, move right 10 to 4, then move left 9 to negative 5.

Remember to show each step and to check with the number line.

Question 1 (Ashelyn): Math (integers and absolute value): find |−12| + |7|. Show your steps.

TEACHER ANSWER KEY: 19 (|−12| = 12, |7| = 7, 12 + 7 = 19)
Look for: their own words and the key points above. Do not require my exact wording.

Question 2 (Ashelyn): Math: solve −6 + 10 − 9. Show your steps and check on a number line.

TEACHER ANSWER KEY: −5 (−6 + 10 = 4; 4 − 9 = −5)
Look for: their own words and the key points above. Do not require my exact wording.

FOR MYKAH — Mykah: Place value (about 159 words, 1.1 min aloud)

Every digit in a number sits in a place, just like every person has a place in the congregation. The places, from right to left, are ones, tens, hundreds and thousands.

Take the number 4,372. The 2 is in the ones place, so it is worth 2. The 7 is in the tens place, so it is worth 70. The 3 is in the hundreds place, so it is worth 300. The 4 is in the thousands place, so it is worth 4,000. Put them together: 4,000 plus 300 plus 70 plus 2 makes 4,372.

ANSWER 1 TO SAY OUT LOUD: What digit is in the hundreds place of 4,372? The answer is 3.

Now build a number. If I have 2 thousands, 5 hundreds, 3 tens and 1 one, I write 2,531.

ANSWER 2 TO SAY OUT LOUD: The second answer is 2,531.

One more example from the Kingdom Hall: if 1,000 people came to an assembly, and then 100 more, we write 1,100. One thousand, one hundred. Great job.

Question 1 (Mykah): What digit is in the hundreds place in 4,372?

TEACHER ANSWER KEY: 3
Look for: their own words and the key points above. Do not require my exact wording.

Question 2 (Mykah): Write the number: 2 thousands, 5 hundreds, 3 tens and 1 one.

TEACHER ANSWER KEY: 2,531
Look for: their own words and the key points above. Do not require my exact wording.

FLAG: Answers computed by program.

FLAG: Limits: the lesson's example $(x^2-4)/(x-2)$ is not the page's example, but the ideas match what the page says.

FLAG: The speedometer and derivative connection is not on the page I opened.

LANGUAGE ARTS - Day 1 language arts: three levels

SOURCES AND VERIFICATION

NOT OPENED: Sapir–Whorf (language shapes thought): I did not open a source. Researchers generally treat the strong version, where language determines thought, as not supported and the weak version, where language influences thought somewhat, as plausible. That is from my general knowledge and should be checked.
Link: https://plato.stanford.edu/

STANDARD KNOWLEDGE: Parts of speech and the letter-word-sentence chain are standard grammar. Scripture references (Genesis 1, 2:19–20, 11:1; John 11:11–14; 2 Corinthians 10:5) are from memory; read them in your NWT.

FOR RYAN AND KAYLA — Ryan and Kayla: Language and worldview (about 353 words, 2.4 min aloud)

Genesis chapter 1 shows Jehovah speaking and things coming into existence: "Let there be light." Language is part of how Jehovah works. And he gave humans the ability to speak and think in words. Today's question: do the words we use shape the way we think?

There is an idea called the Sapir–Whorf hypothesis. It says the language you speak influences how you see the world. The strong version says language determines thought, so people without a word for something cannot think of it. Most researchers say the strong version is not supported, because people can

think about things they have no single word for. The weak version says language can influence attention and memory a little. For example, a language with many words for shades of blue may make speakers faster at telling those shades apart. I have not opened a source for this, so treat it as general knowledge to be checked.

ANSWER 1 TO SAY OUT LOUD: So the first answer. The main idea is that the words we use can influence how we think and talk about things. The strong claim, that language fully controls thought, is generally rejected. The weak claim, that it influences thought, is reasonable.

Now the biblical angle. Second Corinthians 10:5 talks about bringing every thought into captivity to obey the Christ. Our thinking matters, and the words we choose both express and shape our thinking. Take death as an example. People say someone “passed on” or “is in a better place,” which suggests the person lives on. In John 11:11–14, Jesus said Lazarus “has fallen asleep,” and then said plainly that Lazarus had died. Jesus’ choice of the word sleep fits his promise that the dead can be awakened, and it shapes our view of death as a temporary condition rather than the end, which agrees with the resurrection hope.

ANSWER 2 TO SAY OUT LOUD: So the second answer. Jesus called death a sleep (John 11:11–14), and that wording shapes how we think about death: as an unconscious rest from which Jehovah can awaken people, unlike phrases that suggest the person moves on to another life. Words carry beliefs, so we should choose them carefully.

Question 1 (Ryan and Kayla): Language arts, language and worldview: explain the idea that words shape thought, and how strongly scholars believe it.

TEACHER ANSWER KEY: The words we use can influence how we think and see things. The strong version (language fully controls thought) is generally rejected; the weak version (language influences thought) is reasonable.
Look for: their own words and the key points above. Do not require my exact wording.

Question 2 (Ryan and Kayla): Give a scriptural example of how a word choice shapes how we think about something (John 11:11–14) and explain why it matters.

TEACHER ANSWER KEY: Jesus called death "sleep," which shapes our view of death as a temporary rest from which Jehovah can awaken people (resurrection hope). Word choices carry beliefs.
Look for: their own words and the key points above. Do not require my exact wording.

FOR ASHELYN — Ashelyn: Parts of speech review (about 250 words, 1.7 min aloud)

English words fall into eight groups, called parts of speech. A noun names a person, place, thing or idea: Jehovah, mountain, love. A pronoun takes the place of a noun: he, she, they. A verb shows action or being: lifted, is. An adjective describes a noun: tired, beautiful. An adverb describes a verb, an adjective or another adverb, and often tells how: gently, quickly. A preposition shows a relationship, usually of place or time: in, on, after. A conjunction joins words or sentences: and, but, or. An interjection shows sudden feeling: oh! wow!

Let's practice on Genesis 1:1: "In the beginning God created the heavens and the earth." "In" is a preposition. "The" is an article, which is a kind of adjective. "Beginning" is a noun. "God" is a noun. "Created" is a verb. "Heavens" is a noun. "And" is a conjunction. "Earth" is a noun.

ANSWER 1 TO SAY OUT LOUD: Here is the first answer. The eight parts of speech are noun, pronoun, verb, adjective, adverb, preposition, conjunction and interjection. Two examples: a noun names a person, place, thing or idea, like Jehovah; a verb shows action or being, like created.

Now we label a new sentence. "Jehovah gently lifted the tired sheep." Jehovah is a noun. Gently is an adverb, because it tells how he lifted. Lifted is a verb. The is an article. Tired is an adjective, because it describes the sheep. Sheep is a noun.

ANSWER 2 TO SAY OUT LOUD: The second answer is: Jehovah (noun), gently (adverb), lifted (verb), the (article), tired (adjective), sheep (noun).

Question 1 (Ashelyn): List the eight parts of speech and define two of them.

TEACHER ANSWER KEY: Noun, pronoun, verb, adjective, adverb, preposition, conjunction, interjection. Any two defined correctly.
Look for: their own words and the key points above. Do not require my exact wording.

Question 2 (Ashelyn): Label the part of speech of every word: “Jehovah gently lifted the tired sheep.”

TEACHER ANSWER KEY: Jehovah (noun), gently (adverb), lifted (verb), the (article/adjective), tired (adjective), sheep (noun).
Look for: their own words and the key points above. Do not require my exact wording.

FOR MYKAH — Mykah: Language is Jehovah’s gift (about 139 words, 0.9 min aloud)

Genesis 11:1 says that long ago all the earth had one language. Where did language come from? From Jehovah! He gave people the gift of speaking. In Genesis 2, Adam gave names to the animals. (Check Genesis 2:19–20 in your Bible.)

Hold up a book and say: every word is made of letters, and every sentence is made of words. We can build something big from small parts. First we have a letter, like B. Letters make a word, like Bible. Words make a sentence, like “Jehovah loves me.” Sentences make a paragraph. Paragraphs make a story.

ANSWER 1 TO SAY OUT LOUD: Here is the first answer, in order from smallest to biggest: letter, word, sentence, paragraph, story.

ANSWER 2 TO SAY OUT LOUD: And the second answer: Jehovah gave us language. We use it to talk, to read, to pray and to sing. Any one of those is right.

Question 1 (Mykah): Put these in order from smallest to biggest: sentence, letter, paragraph, word.

TEACHER ANSWER KEY: Letter, word, sentence, paragraph.
Look for: their own words and the key points above. Do not require my exact wording.

Question 2 (Mykah): Who gave us the gift of language, and what is one way you use it?

TEACHER ANSWER KEY: Jehovah. Talk, read, pray, sing, tell stories, etc.
Look for: their own words and the key points above. Do not require my exact wording.

FLAG: Sapir–Whorf is from general knowledge, not an opened source.

FLAG: Genesis and John references from memory.

HISTORY - Day 1 history: three levels

SOURCES AND VERIFICATION

VERIFIED: The Canadian Encyclopedia, “Historical Sources”: primary vs secondary sources; memoirs and interviews need careful handling; authors can reach different conclusions depending on their sources; “historiography” studies differing interpretations.
Link: https://www.thecanadianencyclopedia.ca/en/article/historical-sources

VERIFIED: History.com, “Mesopotamia”: location between the Tigris and Euphrates, Sumer, Uruk about 3200 B.C., cuneiform by about 2800 B.C., irrigation, Hammurabi.
Link: https://history.com/topics/ancient-middle-east/mesopotamia

NOT OPENED: The claim in the old lesson that the Bible is “the most documented, most archaeologically confirmed ancient document in history” is not something I could verify. Archaeology has confirmed many people and places named in the Bible, but I do not have a source for “most,” so I left it out. Psalm 46:8 is from memory.

FOR RYAN AND KAYLA — Ryan and Kayla: Historiography, how we know what we know (about 355 words, 2.4 min aloud)

When you pick up a history book, how do you know it is accurate? Ask four questions: who wrote it, when did they write it, why did they write it, and what did they use as evidence? That is the beginning of a field called historiography, which the Canadian Encyclopedia describes as the study of the different interpretations historians give to the same event.

Historians use two kinds of sources. Primary sources come from the time being studied: letters, diaries, newspapers, government records, speeches, songs, objects. Secondary sources are made by people who study the subject but did not live it, like books, articles and documentaries. The article adds that memoirs and interviews are treated as primary, but they must be handled with care, since memory can be changed by time and distance from the event.

ANSWER 1 TO SAY OUT LOUD: So here is the first answer. A primary source comes from the time studied, for example a diary or a letter. A secondary source interprets it later, like a textbook. It matters who wrote it and when because memory and viewpoint affect what a person reports.

Next, why do historians disagree? The article gives an example: an author who had no access to certain secret documents may reach a different conclusion from one who did. So the sources a historian has, and the question they are

asking, both shape what they conclude. That is why we compare accounts rather than trust one.

Where does the Bible fit? The Bible records its own history, and archaeology has matched many of its details, such as particular rulers and places. I could not verify the claim that it is “the most” confirmed ancient document, so we will say what we can support rather than overstating. As Jehovah’s Witnesses we trust the Bible because it is inspired, and we are also glad when outside evidence agrees.

ANSWER 2 TO SAY OUT LOUD: The second answer: historians can disagree about the same event because they have different sources, different access to documents, different viewpoints, and different questions. To evaluate an account we ask who wrote it, when, why, and what evidence it used, and we compare it with other sources.

Question 1 (Ryan and Kayla): History, historiography: explain the difference between a primary and a secondary source, give an example of each, and tell why it matters who wrote it and when.

TEACHER ANSWER KEY: Primary: made during the time studied (diary, letter, newspaper, record). Secondary: made later by someone who studied it (textbook, documentary). Memory, viewpoint and access affect what a writer reports.
Look for: their own words and the key points above. Do not require my exact wording.

Question 2 (Ryan and Kayla): Why can two historians reach different conclusions about the same event, and how can we evaluate an account?

TEACHER ANSWER KEY: Different sources, access to documents, viewpoints and questions. Evaluate: who wrote it, when, why, with what evidence; compare with other sources.
Look for: their own words and the key points above. Do not require my exact wording.

FOR ASHELYN — Ashelyn: Ancient Mesopotamia (about 330 words, 2.2 min aloud)

Find the region on a map. Mesopotamia was in southwest Asia, in the valleys of the Tigris and Euphrates rivers, in and around modern Iraq. The name means “land between the rivers.” It is the northern part of what is called the Fertile Crescent.

Why were the first cities here? The two rivers made the soil rich, and farmers learned to irrigate, to bring river water to their fields using canals and gates.

With enough food from the fields, not everyone had to farm, and people could become builders, traders, priests and scribes.

History.com tells us that the Sumerians controlled Mesopotamia by about 3000 B.C. and built city-states such as Ur, Uruk, Kish and Lagash. Uruk, from about 3200 B.C., is considered the first city. It was a walled, mud-brick city that may have held about 50,000 people at its height. The Sumerians also developed the earliest known writing, called cuneiform, by about 2800 B.C. At first it was pictures for keeping records of goods, and later it became symbols for words and sounds.

ANSWER 1 TO SAY OUT LOUD: Here is the first answer. Mesopotamia was in southwest Asia, between the Tigris and Euphrates rivers, in modern Iraq. It was a good place for the first cities because the rivers made the land fertile and the people could irrigate their crops and produce extra food.

A word of caution about dates. These dates are the estimates of secular historians. The Bible-based timeline taught in Jehovah's Witnesses' publications places the Flood earlier in the past than these dates seem to allow, so some of these numbers do not agree with ours. When you write, say "historians estimate," and remember that the Bible is our final authority. Also, the Bible mentions these two rivers: Genesis 2:14 names the Tigris and the Euphrates. (From memory; check it.)

ANSWER 2 TO SAY OUT LOUD: The second answer: two things the Sumerians developed were cuneiform writing, used first to keep records, and irrigation canals for farming. They also built the first walled cities such as Uruk.

Question 1 (Ashelyn): History, ancient Mesopotamia: where was it, and why was it a good place for the first cities?

TEACHER ANSWER KEY: Southwest Asia, between the Tigris and Euphrates rivers (modern Iraq). Fertile land and irrigation produced extra food, so cities could grow.
Look for: their own words and the key points above. Do not require my exact wording.

Question 2 (Ashelyn): Name two things the Sumerians developed and tell why each mattered.

TEACHER ANSWER KEY: Any two: cuneiform writing (records), irrigation canals (more food), walled cities such as Uruk, the potter's wheel.
Look for: their own words and the key points above. Do not require my exact wording.

FOR MYKAH — Mykah: Why we study history, HIS story (about 183 words, 1.2 min aloud)

Have you ever heard the saying "History is HIS story"? Here is what it means. When we study history, we are learning about what Jehovah has done. Psalm 46:8 says, "Come, see the works of Jehovah." That is history class! (Check Psalm 46:8 in your Bible.)

History tells us what happened long ago. We can put events in order on a timeline. First Jehovah made everything, which is Creation. Then came the Flood, when Noah built the ark. Then Abraham. Then Moses. Then King David. Then Jesus. And then today, now. Draw a line and put each one on it.

Years before Jesus were called B.C. and years after were called A.D. Some people today write B.C.E. and C.E. instead, which stands for before the Common Era and Common Era. The numbers are the same. You will see both.

ANSWER 1 TO SAY OUT LOUD: Here is the first answer. The order is Creation first, then the Flood, then Jesus.

ANSWER 2 TO SAY OUT LOUD: And the second answer. "History is HIS story" means history is the story of what Jehovah has done, and Psalm 46:8 invites us to come and see his works.

Question 1 (Mykah): Put in order from first to last: the Flood, Jesus, Creation.

TEACHER ANSWER KEY: Creation, the Flood, Jesus.
Look for: their own words and the key points above. Do not require my exact wording.

Question 2 (Mykah): What does "history is HIS story" mean?

TEACHER ANSWER KEY: History is the story of what Jehovah has done; we come and see his works (Psalm 46:8).
Look for: their own words and the key points above. Do not require my exact wording.

FLAG: The Mesopotamia dates come from secular historians; JW chronology differs, so teach them as estimates.

FLAG: BC/AD in your lecture: JW publications generally use B.C.E./C.E.; I included both in Mykah's talk.

FLAG: Left out "most archaeologically confirmed document" as I could not verify it.

WRITING - Day 1 writing: three levels

SOURCES AND VERIFICATION

VERIFIED: Lumen Learning, English Composition 1, "Academic Argument: Cheat Sheet": claim/thesis, evidence (STAR), reasoning, counterargument and rebuttal, logos/ethos/pathos/kairos.
Link: https://content.one.lumenlearning.com/englishcomp1/chapter/academic-argument-cheat-sheet/

VERIFIED: Purdue OWL, "Proofreading Suggestions": a paragraph needs a topic sentence and enough supporting sentences.
Link: https://owl.purdue.edu/owl/general_writing/the_writing_process/proofreading/proofreading_suggestions.html

NOT OPENED: Hebrews 11:1, Exodus 31:18, the "40 writers over 1,600 years" figure, and the five stages of writing in the lesson: from your lecture and memory; not opened.

FOR RYAN AND KAYLA — Ryan and Kayla: Argumentation (about 361 words, 2.4 min aloud)

Read Hebrews 11:1 together. Faith is the assured expectation of what is hoped for, the evident demonstration of realities not seen. Is that a logical argument or a rhetorical one? Can you prove faith the way you prove a math theorem? Today we learn how arguments are built, so that we can reason well.

The Lumen Learning cheat sheet lists the parts. First, the claim or thesis: the main point you want to prove. A good claim takes a clear position that someone could disagree with. Second, evidence: the facts and reasons that back the claim. Evidence should be sufficient, typical, accurate and relevant, which spells STAR. Third, reasoning: the link between the evidence and the claim. Fourth, counterargument and rebuttal: you state the other side fairly and respond to it. Qualifiers like "most" or "likely" keep you from overstating.

ANSWER 1 TO SAY OUT LOUD: So the first answer. The parts of an argument are the claim, the evidence, the reasoning that links them, and the response to counterarguments. A sample: Claim: sleep helps students learn. Evidence: students who sleep enough score higher on memory tests. Reasoning: sleep helps the brain store what it learned. Counterargument: some students do well on little sleep; rebuttal: they are the exception, so "most" students benefit.

There are also rhetorical appeals, which come from Aristotle. Logos is persuasion by logic, facts and sound reasoning. Ethos is persuasion by credibility: the speaker is trustworthy, expert and fair. Pathos is persuasion by emotion. And kairos is timing: saying the right thing at the right moment. The cheat sheet notes that emotion helps but should never replace evidence.

Examples. Logos: “The Bible record names these rulers, and records outside the Bible name them as well.” Ethos: “I read this article from a trusted source and I checked it against the original scripture.” Pathos: describing how hopeful the promise of the resurrection is to someone who is grieving. Notice that in our field service we use all three, with the scriptures as the foundation.

ANSWER 2 TO SAY OUT LOUD: The second answer. Logos appeals to logic and evidence, ethos to credibility and fairness, and pathos to emotion. A strong argument uses all three, with solid evidence as the foundation.

Question 1 (Ryan and Kayla): Argumentation: name the main parts of an argument and use them to write one claim with evidence and reasoning on any topic.

TEACHER ANSWER KEY: Claim/thesis; evidence (STAR: sufficient, typical, accurate, relevant); reasoning linking them; counterargument and rebuttal. Accept any well-built example.
Look for: their own words and the key points above. Do not require my exact wording.

Question 2 (Ryan and Kayla): Explain logos, ethos and pathos and give an example of each.

TEACHER ANSWER KEY: Logos = logic/facts; ethos = credibility/trust; pathos = emotion. Accept fitting examples. Strong arguments rest on evidence.
Look for: their own words and the key points above. Do not require my exact wording.

FOR ASHELYN — Ashelyn: The paragraph (about 225 words, 1.5 min aloud)

A paragraph is a group of sentences about one idea. Think of a sandwich. The top slice is the topic sentence. It tells the reader the main idea. The filling is the supporting sentences. They give details, facts or examples. The bottom slice is the concluding sentence. It wraps up the idea.

Purdue University’s writing lab tells writers to check each paragraph for a topic sentence and for enough support. A paragraph with no topic sentence leaves

the reader unsure what the point is, and a short paragraph with little support often means the idea is not fully developed.

Here is a model about prayer. Topic sentence: Prayer is a gift that lets me talk to Jehovah anytime. Support: I can pray out loud in the morning, I can pray quietly at school, and I can thank him at night. Concluding sentence: Because Jehovah listens, I never have to feel alone.

ANSWER 1 TO SAY OUT LOUD: So here is the first answer. A paragraph has a topic sentence that gives the main idea, supporting sentences with details or examples, and a concluding sentence that wraps it up.

ANSWER 2 TO SAY OUT LOUD: And the second answer is a short paragraph like the model above. It begins with a clear topic sentence, gives at least one detail, and ends with a closing sentence. Read it back to check that every sentence stays on the one idea.

Question 1 (Ashelyn): Name the three main parts of a paragraph and say what each does.

TEACHER ANSWER KEY: Topic sentence (main idea), supporting sentences (details/examples), concluding sentence (wraps up).
Look for: their own words and the key points above. Do not require my exact wording.

Question 2 (Ashelyn): Write a three-sentence paragraph on a topic you choose: a topic sentence, a supporting detail, and a closing sentence.

TEACHER ANSWER KEY: Rubric: clear topic sentence; at least one relevant detail; closing sentence; all sentences on one idea; capitals and end punctuation.
Look for: their own words and the key points above. Do not require my exact wording.

FOR MYKAH — Mykah: Why we write, Jehovah's example (about 186 words, 1.2 min aloud)

Did Jehovah ever write anything? Let Mykah guess. Yes! Exodus 31:18 says that Jehovah gave Moses two stone tablets written by God's finger. (Check the verse in your Bible.) And Jehovah had about forty different men write down the Bible over many years. Why did Jehovah want his words written down?

Think about it. If someone tells you a secret, you might forget it. But if it is written down, it stays the same. Writing lasts. It stays correct. And it can be shared with many people, even far away or long from now.

When we write, we follow five steps. We think about what to say, which is called planning. We write a first try. We read it and make it better. We fix the spelling and the capital letters. And we share it.

ANSWER 1 TO SAY OUT LOUD: Here is the first answer. Jehovah wanted his words written down so they would last, stay correct, and be shared with many people.

ANSWER 2 TO SAY OUT LOUD: And the second answer. Two steps of writing are planning what to say and writing a first try. Others are making it better, fixing mistakes and sharing it.

Question 1 (Mykah): Why did Jehovah want his words written down?

TEACHER ANSWER KEY: So they last, stay correct, and can be shared with many people.
Look for: their own words and the key points above. Do not require my exact wording.

Question 2 (Mykah): Name two steps we follow when we write.

TEACHER ANSWER KEY: Any two: plan, write a first try, make it better, fix mistakes, share it.
Look for: their own words and the key points above. Do not require my exact wording.

FLAG: Exodus 31:18 and “about forty writers” are from your lecture and memory; check your Bible. The lecture says “1,600 years”; I left it out of the talk.

Teacher Read-Aloud Book

Discovering Kids Academy · Days 2–16 (older version, not yet researched) — Day 1 and Days 17–19 are in the researched sections

How to use this book. Read the black text out loud, one class at a time. The children write notes while you read. When you finish, say the **yellow reminder**, then let them answer the quiz question from their notes. The green box under each question is your **answer key**: what a good answer says, what to look for, and where in the lesson they heard it.

If the teacher cannot read: the older three take turns. Each class shows a **Reader** name. The reader reads the black text aloud; the other two listen and take notes; then the reader says the yellow reminder. Readers: read only the black text and the yellow reminder, not the green answer-key box.

Day 2 — Wednesday, October 7

BIBLE — Setting Up Our Routine — Getting Organized (Reader: Ashelyn)

About 5.3 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open your Bible to: Gen 1:1-13; Ps 104:1-9

HOOK — OPENING ACTIVITY (3–5 MINUTES)

“Look around this room. Name one thing you can see.”

“Who made that?”

'But who made the materials that person used?'

'Jehovah made the raw material of everything. Let's see how He did it — step by step.'

FOUNDATION — LAYER 1 & 2 — ALL AGES (7–8 MINUTES)

“Genesis chapter 1 is one of the most beautiful chapters in the entire Bible — because it shows us a God who creates with purpose, order, and love. And after every single step, He looks at what He made and calls it GOOD. Let's find out what that means.”

“Day 1 — light. Before anything else, there was light. Why do you think light came first?”

“Because life cannot exist without light. Every other step depends on it. Jehovah's order is intentional — He is a God of wisdom, not randomness.”

BUILDING — Layer 3 — Scriptures & Discussion (10–12 minutes)

AFTER DAY 2:

“The sky and atmosphere — without it nothing can breathe. Jehovah prepared the environment before He put anything in it.' AFTER DAY 3:”

“This psalm was written thousands of years after Genesis — and it praises Jehovah for exactly what Genesis describes. Creation wasn't an accident. It was worship-worthy from the very beginning.”

DEPTH — LAYER 4 — RYAN & KAYLA (8–10 MINUTES)

“The Bible says Jehovah created in six creative days. But the Hebrew word for day — yom — can mean a 24-hour period OR a long period of time, an age, an epoch. In fact the Bible itself uses yom that way in other places. What the Bible insists on is the ORDER — and science actually confirms that order: light first, then atmosphere, then dry land, then vegetation. That order is exactly right. Jehovah's Word and the natural world agree. Ryan — your assignment is to research this further using the Creation articles on jw.org.”

APPLICATION QUESTIONS — ONE PER LEVEL

Ask in order youngest to oldest. Allow a full 30-60 seconds for each person to answer. Do not rush.

Mykah — 4th Grade • Level 1

What did Jehovah make on Day 1? What did He make on Day 3? Can you show me with your hands — grow like a plant!

Ashelyn — 8th Grade • Level 2-3

Why do you think Jehovah made things in a specific order instead of all at once? What does that tell you about His personality?

Kayla — 11th Grade • Level 4J

If someone said the Bible contradicts science because creation happened in six literal 24-hour days — how would you respond using what we just learned?

Ryan — 12th Grade • Level 4A

What is the Hebrew word for 'day' in Genesis 1? Research on wol.jw.org what Jehovah's organization says about the length of the creative periods. What is their conclusion?

ANSWER KEY — Teacher Reference Only

Mykah: Day 1: light. Day 3: land, seas, plants. Any movement activity is correct.

Ashelyn: Order shows wisdom — Jehovah is not random or careless; He prepared the environment before filling it; each step served a purpose for the next.

Kayla: The Hebrew yom can mean an age or epoch; the focus of Genesis 1 is the ORDER, not the duration; science confirms the sequence; our position is

that Jehovah created over long creative periods.

Ryan: Yom — the organization teaches that the creative days were long epochs, not 24-hour periods; this is consistent with both the Bible text and scientific observation of the natural world.

SAY THIS TO REMIND THEM: “Remember — Jehovah knows everything, sees everything and is the source of true wisdom. We can ask for his help and trust his guidance.”

WRITE IN YOUR NOTES

- Jehovah knows everything, sees everything and is the source of true wisdom.
- We can ask for his help and trust his guidance.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Job 28:23-24 teaches that God understands the way to wisdom. Explain what “Jehovah knows” means and how trusting that Jehovah knows what is best helps you when learning something hard.

Younger-student wording: Job 28:23-24 says Jehovah “knows the way to wisdom.” What does it mean that Jehovah knows? How can that help us when we do our schoolwork?

TEACHER ANSWER KEY (do not read aloud): Jehovah knows everything, sees everything and is the source of true wisdom. We can ask for his help and trust his guidance.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Which quality of Jehovah does this lesson show (theme: “Jehovah Knows”)? Give one detail from the account and one way you can imitate him this week.

Younger-student wording: What quality of Jehovah do you see in this lesson (“Jehovah Knows”)? How can you copy it this week?

TEACHER ANSWER KEY (do not read aloud): A quality such as love, justice, patience, faithfulness or wisdom — the lesson theme is “Jehovah Knows”, backed by one detail from the scripture, and one specific way to imitate Jehovah.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

SCIENCE — What is science? Faith and evidence (Reader: Ryan)

About 1.6 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let's begin with Ps 19:1 — The heavens declare Jehovah's glory — science is the study of His handiwork.

Let's review What is science? Faith and evidence. Science studies the natural world through observation and experiment; faith and evidence work together (Ps 19:1; Rom 1:20).

Ask you: "State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans." Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: "Remember — Science studies the natural world through observation and experiment; faith and evidence work together (Ps 19:1; Rom 1:20)."

WRITE IN YOUR NOTES

- Science studies the natural world through observation and experiment; faith and evidence work together (Ps 19:1; Rom 1:20).

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Science — "What is science? Faith and evidence." Explain how faith and evidence work together. Give one example of evidence that supports believing in a Creator.

Younger-student wording: Science: People can see clues that something was made. What are clues, or "evidence," and how do clues help us believe something is true?

TEACHER ANSWER KEY (do not read aloud): Science studies evidence; faith in a Creator is reasonable, based on evidence (Heb 11:1, Rom 1:20), not blind belief. Example: design, order, information in creation.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Science — "What is science? Faith and evidence". Explain the main idea in your own words.

Younger-student wording: Science — "What is science? Faith and evidence". In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): Science studies the natural world through observation and experiment; faith and evidence work together (Ps 19:1; Rom 1:20).
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

MATH — Place value review (Reader: Kayla)

About 2.0 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let's begin with Prov 11:1. Jehovah is a God of order — numbers and patterns reflect His perfect design.

Quick recap of yesterday's idea (Place value review): Place value: each digit's value depends on its position (ones, tens, hundreds…). In 3,482 the 4 is worth 400.

Let's try some together:

- In 236,324,028, what is the value of the digit 3 in the ten-millions place? → 30,000,000
- In 689,057,583, what is the value of the digit 6 in the hundred-millions place? → 600,000,000

Ask you: "State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans." Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: "Remember — Place value: each digit's value depends on its position (ones, tens, hundreds…). In 3,482 the 4 is worth 400."

WRITE IN YOUR NOTES

- Place value: each digit's value depends on its position (ones, tens, hundreds…).
- In 3,482 the 4 is worth 400.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Math (Place value review) — solve and show your steps: In 671,206,659, what is the value of the digit 2 in the hundred-thousands place?

Younger-student wording: Math (Place value review) — solve and show your steps: In 73,338, what is the value of the digit 8 in the ones place?

TEACHER ANSWER KEY (do not read aloud): 200,000
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Math (Place value review) — solve and show your steps: In 6,349,020, what is the value of the digit 0 in the hundreds place?

Younger-student wording: Math (Place value review) — solve and show your steps: In 88,071, what is the value of the digit 8 in the thousands place?

TEACHER ANSWER KEY (do not read aloud): 0
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

LANGUAGE ARTS — Syntax and Semantics — The Architecture of Meaning (Reader: Ashelyn)

About 1.8 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: "The man saw the woman with the telescope." Ask you: "How many meanings does this have?" (Two). This is structural ambiguity — syntax (arrangement of words) vs semantics (meaning of words). Bible translators wrestle with both — one Greek or Hebrew word can carry layered meanings English can't capture in a single word.

QUIZ QUESTIONS — these are the same two questions in the review quiz and Google Form:

1. Language arts — “Syntax and Semantics — The Architecture of Meaning”. Explain the main idea in your own words.

2. Language arts — “Syntax and Semantics — The Architecture of Meaning”. Give one example (from Scripture, the lesson, or daily life) and explain why it matters.

SAY THIS TO REMIND THEM: “Remember — Syntax — word arrangement rules — determines meaning as much as word choice does.”

WRITE IN YOUR NOTES

- Syntax — word arrangement rules — determines meaning as much as word choice does.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Language arts — “Syntax and Semantics — The Architecture of Meaning”. Explain the main idea in your own words.

Younger-student wording: Language arts — “Nouns — Naming Everything in Creation”. In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): Syntax is the arrangement of words; semantics is the study of meaning. Both are critical to accurate communication. Bible translation requires mastery of both because ancient languages have different syntactic structures and richer semantic ranges than modern English.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Language arts — “Syntax and Semantics — The Architecture of Meaning”. Give one example (from Scripture, the lesson, or daily life) and explain why it matters.

Younger-student wording: Language arts: tell one example of “Nouns — Naming Everything in Creation”.

TEACHER ANSWER KEY (do not read aloud): Any accurate example that fits the idea (Syntax is the arrangement of words; semantics is the study of meaning. Both are critical to accurate communication. Bible translation requires mastery of both because ancient languages have different syntactic structures and richer semantic ranges than modern English.); why it matters: syntax (arrangement of words) vs semantics (meaning of words). Bible translators wrestle with both — one Greek or Hebrew word can carry layered meanings English can't capture in a single word.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

HISTORY — What is history? Why does it matter? (Reader: Ryan)

About 1.6 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let’s begin with Isa 46:9-10 — History is HIS story — Jehovah has directed events from the beginning.

Let’s review What is history? Why does it matter?. History is the record of past events; the Bible is accurate history and shows Jehovah’s hand in human affairs (Isa 46:9-10).

Ask you: “State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans.” Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: “Remember — History is the record of past events; the Bible is accurate history and shows Jehovah’s hand in human affairs (Isa 46:9-10).”

WRITE IN YOUR NOTES

- History is the record of past events; the Bible is accurate history and shows Jehovah’s hand in human affairs (Isa 46:9-10).

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

History — “What is history? Why does it matter?”. Explain the main idea in your own words.

Younger-student wording: History — “What is history? Why does it matter?”. In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): History is the record of past events; the Bible is accurate history and shows Jehovah’s hand in human affairs (Isa 46:9-10).
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

History — “What is history? Why does it matter?”. Give one example (from Scripture, the lesson, or daily life) and explain why it matters.

Younger-student wording: History: tell one example of “What is history? Why does it matter?”.

TEACHER ANSWER KEY (do not read aloud): Any accurate example that fits the idea (History is the record of past events; the Bible is accurate history and shows Jehovah’s hand in human affairs (Isa 46:9-10).); why it matters: History is HIS story — Jehovah has directed events from the beginning.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

WRITING — Why we write — Jehovah's example (Reader: Kayla)

About 1.5 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let’s begin with Rev 1:19 — Jehovah communicated His will through written words — writing is a sacred skill.

Let’s review Why we write — Jehovah's example. We write because Jehovah communicates in writing (Rev 1:19; 2 Tim 3:16); good writing records, teaches and encourages.

Ask you: “State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans.” Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: “Remember — We write because Jehovah communicates in writing (Rev 1:19; 2 Tim 3:16); good writing records, teaches and encourages.”

WRITE IN YOUR NOTES

- We write because Jehovah communicates in writing (Rev 1:19; 2 Tim 3:16); good writing records, teaches and encourages.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Writing — “Why we write — Jehovah's example”. Explain the main idea in your own words.

Younger-student wording: Writing — “Why we write — Jehovah's example”. In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): We write because Jehovah communicates in writing (Rev 1:19; 2 Tim 3:16); good writing records, teaches and encourages.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Writing — “Why we write — Jehovah's example”. Give one example (from Scripture, the lesson, or daily life) and explain why it matters.

Younger-student wording: Writing: tell one example of “Why we write — Jehovah's example”.

TEACHER ANSWER KEY (do not read aloud): Any accurate example that fits the idea (We write because Jehovah communicates in writing (Rev 1:19; 2 Tim 3:16); good writing records, teaches and encourages.); why it matters: Jehovah communicated His will through written words — writing is a sacred skill.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

Day 3 — Thursday, October 8

BIBLE — First Light Lesson — Who Is Jehovah? (Reader: Ryan)

About 5.7 minutes to read aloud

Open your Bible to: Gen 1:14-25; Job 38:4-13,31-33

HOOK — OPENING ACTIVITY (3–5 MINUTES)

“Tell me — what is the most amazing animal you have ever seen in real life or in a video?”

“Who designed that animal? Where did its instincts come from? Who told the salmon to swim upstream against the current — every time, without fail? Nobody taught it. It just knows.”

“Today we meet the One who designed every creature on this planet.”

FOUNDATION — LAYER 1 & 2 — ALL AGES (7–8 MINUTES)

“Day 4 — the sun, moon, and stars were made to serve humanity. For seasons. For years. For signs. Every star you see at night is there to help Jehovah's people mark time. Then look at Day 5 — fish and birds. Day 6 — land animals. And finally, human beings.”

“After each step, Jehovah says GOOD. Not just that He liked it. It means each thing was perfectly suited to its purpose. Nothing Jehovah made was careless or accidental.”

BUILDING — Layer 3 — Scriptures & Discussion (10–12 minutes)

“Now we are going to read something remarkable. This is Jehovah speaking directly to a man named Job. Listen carefully to the questions He asks.”

“Why is Jehovah asking Job these questions? Is He being harsh?”

“No — He is showing Job how much wisdom and power exist in the creation Job has been taking for granted every single day. Look — Jehovah designed the stars (Job 38:31-33). He set the boundaries of the sea. He controls the weather. He designed animal instincts. One chapter of Job covers what scientists spend entire careers studying.”

DEPTH — LAYER 4 — RYAN & KAYLA (8–10 MINUTES)

“Job 38-39 covers astronomy, weather patterns, ocean boundaries, and animal instinct. Ryan — choose one of those domains. Research on jw.org how the

complexity in that one area alone points to an intelligent Designer. Write about it. Kayla — I want you to look up the word intelligent design in the Research Guide on wol.jw.org and find one article on how creation points to Jehovah."

APPLICATION QUESTIONS — ONE PER LEVEL

Ask in order youngest to oldest. Allow a full 30-60 seconds for each person to answer. Do not rush.

Mykah — 4th Grade • Level 1

Point to something in the room and say: Jehovah made the materials for THAT! Can you tell me the names of three animals Jehovah made?

Ashelyn — 8th Grade • Level 2-3

Job 38 asks: 'Where were you when I laid the foundation of the earth?' What is Jehovah communicating through these questions? What should our response be?

Kayla — 11th Grade • Level 4J

Pick one animal from Day 5 or Day 6. Research its design on jw.org. What is one design feature of that animal that points to an intelligent Creator?

Ryan — 12th Grade • Level 4A

Write 5-7 sentences responding to the argument that life could arise from nonliving chemicals without a Creator. Use at least two scriptures and one jw.org source.

ANSWER KEY — Teacher Reference Only

Mykah: All oral answers correct.

Ashelyn: Jehovah is communicating that His wisdom and power infinitely exceed human understanding — our response should be humility, not shame or defensiveness, and trust in the One who designed everything.

Kayla: Accept any well-researched animal — key quality: specificity. Mykah did not design his own eyes, so Someone did.

Ryan: The complexity of even one protein or one cell requires more information than random chance can produce; Ps 19:1 says the heavens declare Jehovah's glory; Heb 3:4 — every house is built by someone, and the one who built all things is Jehovah.

SAY THIS TO REMIND THEM: “Remember — God is a person with a name, not a title only; he wants us to know and use it. Ex 3:14 shows he becomes whatever is needed to fulfil his purpose.”

WRITE IN YOUR NOTES

- God is a person with a name, not a title only; he wants us to know and use it.
- Ex 3:14 shows he becomes whatever is needed to fulfil his purpose.
- Knowing the name helps us draw close to him.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Psalm 83:18 and Exodus 3:14-15 teach that God has a personal name. Explain why it matters that Jehovah has a name, what “I Will Become What I Will Become” tells us about him, and how knowing his name changes your relationship with him.

Younger-student wording: Psalm 83:18 tells us Jehovah’s name. Why does it matter that God has a personal name? How does knowing his name make you feel about him?

TEACHER ANSWER KEY (do not read aloud): God is a person with a name, not a title only; he wants us to know and use it. Ex 3:14 shows he becomes whatever is needed to fulfil his purpose. Knowing the name helps us draw close to him.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Which quality of Jehovah does this lesson show (theme: “Jehovah Is Your Name”)? Give one detail from the account and one way you can imitate him this week.

Younger-student wording: What quality of Jehovah do you see in this lesson (“Jehovah Is Your Name”)? How can you copy it this week?

TEACHER ANSWER KEY (do not read aloud): A quality such as love, justice, patience, faithfulness or wisdom — the lesson theme is “Jehovah Is Your Name”, backed by one detail from Ps 83:18; Ex 3:14-15, and one specific way to imitate Jehovah.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

SCIENCE — The scientific method (Reader: Kayla)

About 1.5 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let's begin with Ps 19:1 — The heavens declare Jehovah's glory — science is the study of His handiwork.

Today's lesson is The scientific method. The scientific method: question, research, hypothesis, experiment, observe, conclude, share; change one variable at a time.

Ask you: "State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans." Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: "Remember — The scientific method: question, research, hypothesis, experiment, observe, conclude, share; change one variable at a time."

WRITE IN YOUR NOTES

- The scientific method: question, research, hypothesis, experiment, observe, conclude, share; change one variable at a time.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Science — The scientific method: list the steps in order, then describe a simple experiment you could do (for example, which melts ice fastest) using each step.

Younger-student wording: Science: What are the steps scientists use to test an idea? Tell about a test you could do in the kitchen.

TEACHER ANSWER KEY (do not read aloud): Ask a question, research, hypothesis, experiment, observe/record data, conclusion, share results. Example uses a fair test with one thing changed.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Science — "The scientific method". Explain the main idea in your own words.

Younger-student wording: Science — "The scientific method". In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): The scientific method: question, research, hypothesis, experiment, observe, conclude, share; change one variable at a time.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

MATH — Place value review (Reader: Ashelyn)

About 2.0 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let's begin with Prov 11:1. Jehovah is a God of order — numbers and patterns reflect His perfect design.

Quick recap of yesterday's idea (Place value review): Place value: each digit's value depends on its position (ones, tens, hundreds…). In 3,482 the 4 is worth 400.

Let's try some together:

- In 70,835,113, what is the value of the digit 1 in the hundreds place? → 100
- In 354,656,856, what is the value of the digit 5 in the tens place? → 50

Ask you: "State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans." Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: "Remember — Place value: each digit's value depends on its position (ones, tens, hundreds…). In 3,482 the 4 is worth 400."

WRITE IN YOUR NOTES

- Place value: each digit's value depends on its position (ones, tens, hundreds…).
- In 3,482 the 4 is worth 400.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Math (Place value review) — solve and show your steps: In 173,396,956, what is the value of the digit 6 in the thousands place?

Younger-student wording: Math (Place value review) — solve and show your steps: In 14,157, what is the value of the digit 5 in the tens place?

TEACHER ANSWER KEY (do not read aloud): 6,000
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Math (Place value review) — solve and show your steps: In 583,069,632, what is the value of the digit 0 in the hundred-thousands place?

Younger-student wording: Math (Place value review) — solve and show your steps: In 24,785, what is the value of the digit 2 in the ten-thousands place?

TEACHER ANSWER KEY (do not read aloud): 0
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

LANGUAGE ARTS — What is language? (Genesis and the gift of speech) (Reader: Ryan)

About 1.9 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let's begin with Heb 4:12 — Jehovah authored the most important written communication in history.

Let's review What is language? (Genesis and the gift of speech). Language is Jehovah's gift: He spoke to Adam (Gen 2:16-17) and Adam named the animals (Gen 2:19-20); communication is how we know Him and each other.

Remind you how today's idea connects to a real task or to Jehovah's wisdom.

Ask you: "State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans." Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: "Remember — Language is Jehovah's gift: He spoke to Adam (Gen 2:16-17) and Adam named the animals (Gen 2:19-20); communication is how we know Him and each other."

WRITE IN YOUR NOTES

- Language is Jehovah's gift: He spoke to Adam (Gen 2:16-17) and Adam named the animals (Gen 2:19-20); communication is how we know Him and each other.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Language arts — “What is language? (Genesis and the gift of speech)”. Explain the main idea in your own words.

Younger-student wording: Language arts — “What is language? (Genesis and the gift of speech)”. In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): Language is Jehovah’s gift: He spoke to Adam (Gen 2:16-17) and Adam named the animals (Gen 2:19-20); communication is how we know Him and each other.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Language arts — “What is language? (Genesis and the gift of speech)”. Give one example (from Scripture, the lesson, or daily life) and explain why it matters.

Younger-student wording: Language arts: tell one example of “What is language? (Genesis and the gift of speech)”.

TEACHER ANSWER KEY (do not read aloud): Any accurate example that fits the idea (Language is Jehovah’s gift: He spoke to Adam (Gen 2:16-17) and Adam named the animals (Gen 2:19-20); communication is how we know Him and each other.); why it matters: Jehovah authored the most important written communication in history.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

HISTORY — Ancient Middle East — cradle of civilization

(Reader: Kayla)

About 1.8 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let’s begin with Isa 46:9-10 — History is HIS story — Jehovah has directed events from the beginning.

Today’s lesson is Ancient Middle East — cradle of civilization. The ancient Middle East (the ‘Fertile Crescent’) between the Tigris and Euphrates saw the rise of cities, writing and farming; the Bible places Eden and the early nations here.

Ask you: “State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans.” Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: “Remember — The ancient Middle East (the ‘Fertile Crescent’) between the Tigris and Euphrates saw the

rise of cities, writing and farming; the Bible places Eden and the early nations here.”

WRITE IN YOUR NOTES

- The ancient Middle East (the ‘Fertile Crescent’) between the Tigris and Euphrates saw the rise of cities, writing and farming; the Bible places Eden and the early nations here.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

History — “Ancient Middle East — cradle of civilization”. Explain the main idea in your own words.

Younger-student wording: History — “Ancient Middle East — cradle of civilization”. In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): The ancient Middle East (the ‘Fertile Crescent’) between the Tigris and Euphrates saw the rise of cities, writing and farming; the Bible places Eden and the early nations here.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

History — “Ancient Middle East — cradle of civilization”. Give one example (from Scripture, the lesson, or daily life) and explain why it matters.

Younger-student wording: History: tell one example of “Ancient Middle East — cradle of civilization”.

TEACHER ANSWER KEY (do not read aloud): Any accurate example that fits the idea (The ancient Middle East (the ‘Fertile Crescent’) between the Tigris and Euphrates saw the rise of cities, writing and farming; the Bible places Eden and the early nations here.); why it matters: History is HIS story — Jehovah has directed events from the beginning.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

WRITING — Why we write — Jehovah's example (Reader: Ashelyn)

About 1.6 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let's begin with Rev 1:19 — Jehovah communicated His will through written words — writing is a sacred skill.

Let's review Why we write — Jehovah's example. We write because Jehovah communicates in writing (Rev 1:19; 2 Tim 3:16); good writing records, teaches and encourages.

Remind you how today's idea connects to a real task or to Jehovah's wisdom.

Ask you: "State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans." Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: "Remember — We write because Jehovah communicates in writing (Rev 1:19; 2 Tim 3:16); good writing records, teaches and encourages."

WRITE IN YOUR NOTES

- We write because Jehovah communicates in writing (Rev 1:19; 2 Tim 3:16); good writing records, teaches and encourages.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Writing — "Why we write — Jehovah's example". Explain the main idea in your own words.

Younger-student wording: Writing — "Why we write — Jehovah's example". In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): We write because Jehovah communicates in writing (Rev 1:19; 2 Tim 3:16); good writing records, teaches and encourages.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Writing — "Why we write — Jehovah's example". Give one example (from Scripture, the lesson, or daily life) and explain why it matters.

Younger-student wording: Writing: tell one example of "Why we write — Jehovah's example".

TEACHER ANSWER KEY (do not read aloud): Any accurate example that fits the idea (We write because Jehovah communicates in writing (Rev 1:19; 2 Tim 3:16); good writing records, teaches and encourages.); why it matters: Jehovah communicated His will through written words — writing is a sacred skill.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

Day 4 — Friday, October 9

BIBLE — Digging Deeper into Worship — Daily Text & Songs

(Reader: Kayla)

About 5.8 minutes to read aloud

Open your Bible to: Gen 1:26-2:25; Ps 8:3-5; Ps 37:29; Is 45:18; Rev 21:3-4

HOOK — OPENING ACTIVITY (3–5 MINUTES)

“Look at your hand. Look at the fingerprint on your fingertip. No one in the history of the entire human race has the exact same fingerprint as you. Not one. Not ever. Seven billion people on earth today and not one fingerprint is identical to yours. Who made you that way — and why?”

FOUNDATION — LAYER 1 & 2 — ALL AGES (7–8 MINUTES)

“In God's image. Not the animals. Not the angels. Human beings are made in the image of Jehovah God Himself. That means we share some of Jehovah's qualities — the ability to love deeply, to think creatively, to make moral choices, to appreciate beauty, to reason, to plan. No animal can do all of those things.”

“Jehovah breathed life directly into Adam. That is different from how He made everything else. Adam received the breath of life personally from Jehovah. Every human being is uniquely loved by the God who made them.”

BUILDING — Layer 3 — Scriptures & Discussion (10–12 minutes)

“Jehovah didn't put Adam in a bare empty world. He put him in a beautiful garden — the Garden of Eden. And He gave Adam meaningful work: cultivate and guard it. Work in Jehovah's plan is not a punishment. Even in paradise, humans were meant to have purpose and responsibility.”

“Jehovah noticed that Adam was alone — and He cared. He made Eve not from dust like the animals, not from Adam's head like his superior or his foot like his inferior, but from his rib — his side. His equal and his partner.”

DEPTH — LAYER 4 — RYAN & KAYLA (8–10 MINUTES)

“Here is something beautiful. Look at Psalm 37:29, Isaiah 45:18, and Revelation 21:3-4.”

“What do these three scriptures have in common? Paradise earth. Righteous will inherit the earth. Jehovah formed the earth to be inhabited. Jehovah will

dwell with humans. What does this mean? It means paradise earth is not plan B — it was never a backup plan. It was always Jehovah's original and eternal purpose for this planet. Satan's rebellion did not derail the plan. Jehovah simply implemented a rescue operation through Jesus."

APPLICATION QUESTIONS — ONE PER LEVEL

Ask in order youngest to oldest. Allow a full 30-60 seconds for each person to answer. Do not rush.

Mykah — 4th Grade • Level 1

Look at yourself. Jehovah made YOU and He loves you. Can you say: 'Jehovah made me and I am special to Him'?

Ashelyn — 8th Grade • Level 2-3

What does 'made in God's image' mean? Name three specific qualities that humans share with Jehovah that animals do not have.

Kayla — 11th Grade • Level 4J

Connect Psalm 37:29, Isaiah 45:18, and Revelation 21:3-4 in two or three sentences. What do they tell us together about Jehovah's original and ultimate purpose for the earth?

Ryan — 12th Grade • Level 4A

Jehovah gave Adam meaningful work in paradise even before sin entered. What does this teach us about the purpose of human activity? Write a short essay connecting this to our lives today.

ANSWER KEY — Teacher Reference Only

Mykah: Any sincere response — celebrate it warmly.

Ashelyn: Ability to love and form deep relationships; ability to make moral choices and understand right from wrong; creative thinking and artistic expression; ability to know and relate to Jehovah personally.

Kayla: Paradise earth is Jehovah's original and ultimate purpose — Ps 37:29 (righteous inherit the earth) + Is 45:18 (earth formed to be inhabited) + Rev 21:3-4 (Jehovah will dwell with humans). It was never plan B.

Ryan: Work gives purpose, satisfaction, and reflection of Jehovah's own creative nature; even in a perfect world humans needed meaningful activity;

today our ministry, family responsibilities, and craftsmanship all reflect this design.

SAY THIS TO REMIND THEM: “Remember — Daily Text — gives a scripture to think about today; song — praises Jehovah, helps us remember; prayer — talking to Jehovah personally. Worship builds friendship with him; rushing makes it a routine.”

WRITE IN YOUR NOTES

- Daily Text — gives a scripture to think about today; song — praises Jehovah, helps us remember; prayer — talking to Jehovah personally.
- Worship builds friendship with him; rushing makes it a routine.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

This day was about worship rhythm. Describe the parts of our daily worship (Daily Text, song, prayer), what each does for you spiritually, and why Jehovah’s servants take time instead of rushing.

Younger-student wording: Our family worship has the Daily Text, a song, and prayer. Name what each one does for us, and tell why we should not rush through them.

TEACHER ANSWER KEY (do not read aloud): Daily Text — gives a scripture to think about today; song — praises Jehovah, helps us remember; prayer — talking to Jehovah personally. Worship builds friendship with him; rushing makes it a routine.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Which quality of Jehovah does this lesson show (theme: “Jehovah Is Your Name”)? Give one detail from the account and one way you can imitate him this week.

Younger-student wording: What quality of Jehovah do you see in this lesson (“Jehovah Is Your Name”)? How can you copy it this week?

TEACHER ANSWER KEY (do not read aloud): A quality such as love, justice, patience, faithfulness or wisdom — the lesson theme is “Jehovah Is Your Name”, backed by one detail from the scripture, and one specific way to imitate Jehovah.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

SCIENCE — Origins: creation vs evolution (Reader: Ashelyn)

About 1.5 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let's begin with Ps 19:1 — The heavens declare Jehovah's glory — science is the study of His handiwork.

Today's lesson is Origins: creation vs evolution. Creation or chance? Compare the evidence: complex order points to a designer (Heb 3:4).

Ask you: "State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans." Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: "Remember — Creation or chance? Compare the evidence: complex order points to a designer (Heb 3:4)."

WRITE IN YOUR NOTES

- Creation or chance?
- Compare the evidence: complex order points to a designer (Heb 3:4).

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Science — Origins: give two reasons that support believing in creation rather than evolution, and explain how one of them shows evidence of design.

Younger-student wording: Science: Some people say living things made themselves, and some say Jehovah created them. Give one reason a person can believe things were made on purpose.

TEACHER ANSWER KEY (do not read aloud): Examples: complex information in DNA, fully formed complex organs, fossil record gaps, fine-tuned conditions. Design implies a designer.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Science — "Origins: creation vs evolution". Explain the main idea in your own words.

Younger-student wording: Science — "Origins: creation vs evolution". In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): Creation or chance? Compare the evidence: complex order points to a designer (Heb 3:4).
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

MATH — Addition and subtraction (Reader: Ryan)

About 1.5 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let's begin with Prov 11:1. Jehovah is a God of order — numbers and patterns reflect His perfect design.

Today's lesson is Addition and subtraction. Addition combines; subtraction finds the difference. Line up place values, regroup (carry/borrow) and check with the inverse operation.

Let's try some together:

- 8974071 − 6024851 → 2949220
- 7850667 + 2525596 → 10376263

Ask you: "State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans." Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: "Remember — Addition combines; subtraction finds the difference. Line up place values, regroup (carry/borrow) and check with the inverse operation."

WRITE IN YOUR NOTES

- Addition combines; subtraction finds the difference.
- Line up place values, regroup (carry/borrow) and check with the inverse operation.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Math (Addition and subtraction) — solve and show your steps: 2897356 − 2323144

Younger-student wording: Math (Addition and subtraction) — solve and show your steps: 711 − 576

TEACHER ANSWER KEY (do not read aloud): 574212
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Math (Addition and subtraction) — solve and show your steps: 5656553 − 5110916

Younger-student wording: Math (Addition and subtraction) — solve and show your steps: 138 + 280

TEACHER ANSWER KEY (do not read aloud): 545637
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

LANGUAGE ARTS — Parts of speech — nouns and pronouns in Scripture (Reader: Kayla)

About 1.7 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let's begin with Heb 4:12 — Jehovah authored the most important written communication in history.

Today's lesson is Parts of speech — nouns and pronouns in Scripture. Nouns name people, places, things or ideas; pronouns replace nouns (he, she, it, they). In Gen 1:1 'God', 'heavens' and 'earth' are nouns.

Ask you: "State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans." Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: "Remember — Nouns name people, places, things or ideas; pronouns replace nouns (he, she, it, they). In Gen 1:1 'God', 'heavens' and 'earth' are nouns."

WRITE IN YOUR NOTES

- Nouns name people, places, things or ideas; pronouns replace nouns (he, she, it, they).
- In Gen 1:1 'God', 'heavens' and 'earth' are nouns.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Language arts — "Parts of speech — nouns and pronouns in Scripture". Explain the main idea in your own words.

Younger-student wording: Language arts — "Parts of speech — nouns and pronouns in Scripture". In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): Nouns name people, places, things or ideas; pronouns replace nouns (he, she, it, they). In Gen 1:1 'God', 'heavens' and 'earth' are nouns.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Language arts — "Parts of speech — nouns and pronouns in Scripture". Give one example (from Scripture, the lesson, or daily life) and explain why it matters.

Younger-student wording: Language arts: tell one example of "Parts of speech — nouns and pronouns in Scripture".

TEACHER ANSWER KEY (do not read aloud): Any accurate example that fits the idea (Nouns name people, places, things or ideas; pronouns replace nouns (he, she, it, they). In Gen 1:1 'God', 'heavens' and 'earth' are nouns.); why it matters: Jehovah authored the most important written communication in history.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

HISTORY — Ancient Middle East — cradle of civilization

(Reader: Ashelyn)

About 1.8 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let's begin with Isa 46:9-10 — History is HIS story — Jehovah has directed events from the beginning.

Let's review Ancient Middle East — cradle of civilization. The ancient Middle East (the 'Fertile Crescent') between the Tigris and Euphrates saw the rise of cities, writing and farming; the Bible places Eden and the early nations here.

Ask you: "State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans." Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: "Remember — The ancient Middle East (the 'Fertile Crescent') between the Tigris and Euphrates saw the rise of cities, writing and farming; the Bible places Eden and the early nations here."

WRITE IN YOUR NOTES

- The ancient Middle East (the 'Fertile Crescent') between the Tigris and Euphrates saw the rise of cities, writing and farming; the Bible places Eden and

the early nations here.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

History — “Ancient Middle East — cradle of civilization”. Explain the main idea in your own words.

Younger-student wording: History — “Ancient Middle East — cradle of civilization”. In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): The ancient Middle East (the ‘Fertile Crescent’) between the Tigris and Euphrates saw the rise of cities, writing and farming; the Bible places Eden and the early nations here.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

History — “Ancient Middle East — cradle of civilization”. Give one example (from Scripture, the lesson, or daily life) and explain why it matters.

Younger-student wording: History: tell one example of “Ancient Middle East — cradle of civilization”.

TEACHER ANSWER KEY (do not read aloud): Any accurate example that fits the idea (The ancient Middle East (the ‘Fertile Crescent’) between the Tigris and Euphrates saw the rise of cities, writing and farming; the Bible places Eden and the early nations here.); why it matters: History is HIS story — Jehovah has directed events from the beginning.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

WRITING — The writing process: prewrite, draft, revise, edit, publish (Reader: Ryan)

About 1.5 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let’s begin with Rev 1:19 — Jehovah communicated His will through written words — writing is a sacred skill.

Today’s lesson is The writing process: prewrite, draft, revise, edit, publish. The writing process: prewrite (plan), draft, revise (ideas), edit (mechanics), publish. Do not skip stages.

Ask you: “State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans.” Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: “Remember — The writing process: prewrite (plan), draft, revise (ideas), edit (mechanics), publish. Do not skip stages.”

WRITE IN YOUR NOTES

- The writing process: prewrite (plan), draft, revise (ideas), edit (mechanics), publish.
- Do not skip stages.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Writing — “The writing process: prewrite, draft, revise, edit, publish”. Explain the main idea in your own words.

Younger-student wording: Writing — “The writing process: prewrite, draft, revise, edit, publish”. In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): The writing process: prewrite (plan), draft, revise (ideas), edit (mechanics), publish. Do not skip stages.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Writing — “The writing process: prewrite, draft, revise, edit, publish”. Give one example (from Scripture, the lesson, or daily life) and explain why it matters.

Younger-student wording: Writing: tell one example of “The writing process: prewrite, draft, revise, edit, publish”.

TEACHER ANSWER KEY (do not read aloud): Any accurate example that fits the idea (The writing process: prewrite (plan), draft, revise (ideas), edit (mechanics), publish. Do not skip stages.); why it matters: Jehovah communicated His will through written words — writing is a sacred skill.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

Day 5 — Monday, October 12

BIBLE — Week 1 Celebration — Routine Check & Instrument Demo (Reader: Ashelyn)

About 3.5 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open your Bible to: Review: Ps 83:18; Gen 1-2; Job 38

HOOK — OPENING ACTIVITY (3–5 MINUTES)

“Today belongs to you. You have spent four days learning about the greatest Person in the universe — who He is, what He made, and why He made it. Now it's your turn to tell ME what you learned. We are going to hear from every single person in this room today.”

FOUNDATION — LAYER 1 & 2 — ALL AGES (7–8 MINUTES)

'1. What is Jehovah's personal name? 2. What does His name mean in Hebrew? 3. How many creative periods did He use to prepare the earth? 4. What does made in God's image mean? 5. What did Jehovah give Adam and Eve their first day — hint: starts with P.'

BUILDING — Layer 3 — Scriptures & Discussion (10–12 minutes)

DEPTH — LAYER 4 — RYAN & KAYLA (8–10 MINUTES)

“What is the ONE thing about Jehovah that you want to remember from this week — even 10 years from now?”

APPLICATION QUESTIONS — ONE PER LEVEL

Ask in order youngest to oldest. Allow a full 30-60 seconds for each person to answer. Do not rush.

Mykah — 4th Grade • Level 1

Share your drawings! Tell us what Jehovah made in each one.

Ashelyn — 8th Grade • Level 2-3

Read your best written sentence from this week. Then tell us: what surprised you most in your research?

Kayla — 11th Grade • Level 4J

What scripture from this week do you want to memorize? Say it from memory as far as you can.

Ryan — 12th Grade • Level 4A

Present your Portrait of Jehovah. Tell us: which scripture was hardest to explain in your own words — and why?

ANSWER KEY — Teacher Reference Only

Mykah: All sharing responses correct and celebrated.

Ashelyn: Accept any genuine reflection.

Kayla: Accept any sincere scripture attempt — encourage them no matter how much they remember.

Ryan: Portfolio check: 8 scriptures, 2 sentences each, entirely in own words, MLA header.

SAY THIS TO REMIND THEM: “Remember — Honest reflection plus one specific application of a Daily Text thought.”

WRITE IN YOUR NOTES

- Honest reflection plus one specific application of a Daily Text thought.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Reflect on week 1. What went well, what was hardest, and what is one thing from the Daily Text this week that you plan to apply? Explain how you will apply it.

Younger-student wording: It was the end of our first week. What was the best part of the week? What was hard? What is one thing you learned from the Daily Text this week?

TEACHER ANSWER KEY (do not read aloud): Honest reflection plus one specific application of a Daily Text thought.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Which quality of Jehovah does this lesson show (theme: “Child's Choice”)? Give one detail from the account and one way you can imitate him this week.

Younger-student wording: What quality of Jehovah do you see in this lesson (“Child's Choice”)? How can you copy it this week?

TEACHER ANSWER KEY (do not read aloud): A quality such as love, justice, patience, faithfulness or wisdom — the lesson theme is “Child's Choice”, backed by one detail from the scripture, and one specific way to imitate Jehovah.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

SCIENCE — DNA — information demands a designer (Reader: Ryan)

About 1.6 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let’s begin with Ps 19:1 — The heavens declare Jehovah's glory — science is the study of His handiwork.

Today’s lesson is DNA — information demands a designer. DNA stores coded information; information always comes from an intelligent source (Ps 139:16).

Ask you: “State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans.” Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: “Remember — DNA stores coded information; information always comes from an intelligent source (Ps 139:16).”

WRITE IN YOUR NOTES

- DNA stores coded information; information always comes from an intelligent source (Ps 139:16).

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Science — DNA: explain why information, like the code in DNA, points to a designer. Compare it to something people make (a book, a computer program).

Younger-student wording: Science: DNA is like a tiny instruction book inside every cell. What do you think it means that there is a “code” inside you? Who made the code?

TEACHER ANSWER KEY (do not read aloud): DNA stores coded information (four letters). Information always comes from an intelligent source in our experience; a book or program has an author, so DNA points to an Author.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Science — “DNA — information demands a designer”. Explain the main idea in your own words.

Younger-student wording: Science — “DNA — information demands a designer”. In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): DNA stores coded information; information always comes from an intelligent source (Ps 139:16).
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

MATH — Addition and subtraction (Reader: Kayla)

About 1.5 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let’s begin with Prov 11:1. Jehovah is a God of order — numbers and patterns reflect His perfect design.

Quick recap of yesterday’s idea (Addition and subtraction): Addition combines; subtraction finds the difference. Line up place values, regroup (carry/borrow) and check with the inverse operation.

Let’s try some together:

- 9678298 + 6308211 → 15986509
- 5839014 + 8840986 → 14680000

Ask you: “State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans.” Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: “Remember — Addition combines; subtraction finds the difference. Line up place values, regroup (carry/borrow) and check with the inverse operation.”

WRITE IN YOUR NOTES

- Addition combines; subtraction finds the difference.
- Line up place values, regroup (carry/borrow) and check with the inverse operation.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Math (Addition and subtraction) — solve and show your steps: 9668633 − 6767793

Younger-student wording: Math (Addition and subtraction) — solve and show your steps: 669 − 540

TEACHER ANSWER KEY (do not read aloud): 2900840
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Math (Addition and subtraction) — solve and show your steps: 8980625 + 1980154

Younger-student wording: Math (Addition and subtraction) — solve and show your steps: 764 − 156

TEACHER ANSWER KEY (do not read aloud): 10960779
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

LANGUAGE ARTS — Parts of speech — nouns and pronouns in Scripture (Reader: Ashelyn)

About 1.7 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let's begin with Heb 4:12 — Jehovah authored the most important written communication in history.

Let's review Parts of speech — nouns and pronouns in Scripture. Nouns name people, places, things or ideas; pronouns replace nouns (he, she, it, they). In Gen 1:1 'God', 'heavens' and 'earth' are nouns.

Ask you: "State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans." Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: "Remember — Nouns name people, places, things or ideas; pronouns replace nouns (he, she, it, they). In Gen 1:1 'God', 'heavens' and 'earth' are nouns."

WRITE IN YOUR NOTES

- Nouns name people, places, things or ideas; pronouns replace nouns (he, she, it, they).
- In Gen 1:1 'God', 'heavens' and 'earth' are nouns.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Language arts — “Parts of speech — nouns and pronouns in Scripture”. Explain the main idea in your own words.

Younger-student wording: Language arts — “Parts of speech — nouns and pronouns in Scripture”. In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): Nouns name people, places, things or ideas; pronouns replace nouns (he, she, it, they). In Gen 1:1 ‘God’, ‘heavens’ and ‘earth’ are nouns.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Language arts — “Parts of speech — nouns and pronouns in Scripture”. Give one example (from Scripture, the lesson, or daily life) and explain why it matters.

Younger-student wording: Language arts: tell one example of “Parts of speech — nouns and pronouns in Scripture”.

TEACHER ANSWER KEY (do not read aloud): Any accurate example that fits the idea (Nouns name people, places, things or ideas; pronouns replace nouns (he, she, it, they). In Gen 1:1 ‘God’, ‘heavens’ and ‘earth’ are nouns.); why it matters: Jehovah authored the most important written communication in history.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

HISTORY — Mesopotamia: Babylon and Bible prophecy

(Reader: Ryan)

About 1.5 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let’s begin with Isa 46:9-10 — History is HIS story — Jehovah has directed events from the beginning.

Today’s lesson is Mesopotamia: Babylon and Bible prophecy. Mesopotamia: Babylon began with Nimrod (Gen 10:8-10); its rulers and its fall were foretold (Isa 13:19-22; Jer 51).

Ask you: “State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans.” Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: “Remember — Mesopotamia: Babylon began with Nimrod (Gen 10:8-10); its rulers and its fall were foretold (Isa 13:19-22; Jer 51).”

WRITE IN YOUR NOTES

- Mesopotamia: Babylon began with Nimrod (Gen 10:8-10); its rulers and its fall were foretold (Isa 13:19-22; Jer 51).

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

History — "Mesopotamia: Babylon and Bible prophecy". Explain the main idea in your own words.

Younger-student wording: History — "Mesopotamia: Babylon and Bible prophecy". In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): Mesopotamia: Babylon began with Nimrod (Gen 10:8-10); its rulers and its fall were foretold (Isa 13:19-22; Jer 51).
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

History — "Mesopotamia: Babylon and Bible prophecy". Give one example (from Scripture, the lesson, or daily life) and explain why it matters.

Younger-student wording: History: tell one example of "Mesopotamia: Babylon and Bible prophecy".

TEACHER ANSWER KEY (do not read aloud): Any accurate example that fits the idea (Mesopotamia: Babylon began with Nimrod (Gen 10:8-10); its rulers and its fall were foretold (Isa 13:19-22; Jer 51).); why it matters: History is HIS story — Jehovah has directed events from the beginning.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

WRITING — The writing process: prewrite, draft, revise, edit, publish (Reader: Kayla)

About 1.5 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let's begin with Rev 1:19 — Jehovah communicated His will through written words — writing is a sacred skill.

Let's review The writing process: prewrite, draft, revise, edit, publish. The writing process: prewrite (plan), draft, revise (ideas), edit (mechanics), publish. Do not skip stages.

Ask you: "State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans." Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: “Remember — The writing process: prewrite (plan), draft, revise (ideas), edit (mechanics), publish. Do not skip stages.”

WRITE IN YOUR NOTES

- The writing process: prewrite (plan), draft, revise (ideas), edit (mechanics), publish.
- Do not skip stages.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Writing — “The writing process: prewrite, draft, revise, edit, publish”. Explain the main idea in your own words.

Younger-student wording: Writing — “The writing process: prewrite, draft, revise, edit, publish”. In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): The writing process: prewrite (plan), draft, revise (ideas), edit (mechanics), publish. Do not skip stages.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Writing — “The writing process: prewrite, draft, revise, edit, publish”. Give one example (from Scripture, the lesson, or daily life) and explain why it matters.

Younger-student wording: Writing: tell one example of “The writing process: prewrite, draft, revise, edit, publish”.

TEACHER ANSWER KEY (do not read aloud): Any accurate example that fits the idea (The writing process: prewrite (plan), draft, revise (ideas), edit (mechanics), publish. Do not skip stages.); why it matters: Jehovah communicated His will through written words — writing is a sacred skill.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

Day 6 — Tuesday, October 13

BIBLE — The Garden of Eden — Jehovah's Perfect Design

(Reader: Ryan)

About 4.8 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open your Bible to: Gen 2:8-17; Ps 37:29; Is 45:18

HOOK — OPENING ACTIVITY (3–5 MINUTES)

“If Jehovah said to you right now — I am going to design your perfect home. What would it have?”

“Jehovah already designed exactly that. And He put it right here on this earth. Today we find out what it looked like.”

FOUNDATION — LAYER 1 & 2 — ALL AGES (7–8 MINUTES)

“Four rivers flowing from one river. A garden that watered itself. Gold, precious stones, lush trees, every kind of fruit. This was not a simple park — this was a masterpiece. Jehovah designed it specifically for the people He loved.”

'What does this tell you about what Jehovah thinks of human beings?'

BUILDING — Layer 3 — Scriptures & Discussion (10–12 minutes)

“One restriction. Just one. Out of an entire paradise — one tree. And Jehovah explained the reason: eating from it would bring death. This was not a harsh rule. It was a loving warning from a Father who knew what would happen.”

'Why do good parents set boundaries even in a happy home?'

DEPTH — LAYER 4 — RYAN & KAYLA (8–10 MINUTES)

“Jehovah's arrangement from the beginning was that humans would care for and develop the earth — forever. The original purpose was never for humans to go to heaven. Psalm 37:29 and Isaiah 45:18 both confirm: the earth is humanity's home, and righteousness will fill it. Paradise is the plan — not the backup plan.”

APPLICATION QUESTIONS — ONE PER LEVEL

Ask in order youngest to oldest. Allow a full 30-60 seconds for each person to answer. Do not rush.

Mykah — 4th Grade • Level 1

What are three things that were in the Garden of Eden? Which one would you love most?

Ashelyn — 8th Grade • Level 2-3

Why did Jehovah give Adam and Eve meaningful work in paradise? What does that tell us about what life in the new world will be like?

Kayla — 11th Grade • Level 4J

Connect Genesis 2:15 (cultivate and guard) with Revelation 21:3-4 (no more death or pain). What will work look like in paradise?

Ryan — 12th Grade • Level 4A

Research on jw.org: What is Jehovah's stated purpose for the earth in Isaiah 45:18? How does the ransom make the fulfillment of that purpose possible?

ANSWER KEY — Teacher Reference Only

Mykah: Trees, fruit, animals, rivers, gold — any three are correct.

Ashelyn: Meaningful work gives purpose and dignity; paradise will not be idleness but joyful, productive activity without pain or futility.

Kayla: Work in paradise will be purposeful, creative, and fulfilling — maintaining a beautiful planet without curse, pain, or failure.

Ryan: Is 45:18 — formed earth to be inhabited, not in vain; the ransom removes the penalty of sin that was the barrier to paradise; Jesus' death makes it possible for Jehovah's original purpose to be fully realized.

SAY THIS TO REMIND THEM: “Remember — Rivers, gold, trees and food; Adam to work and care for it. The restriction protected life (“you will surely die”) and tested loving obedience and trust.”

WRITE IN YOUR NOTES

- Rivers, gold, trees and food; Adam to work and care for it.
- The restriction protected life (“you will surely die”) and tested loving obedience and trust.
- Is 45:18 — the earth was formed to be lived on; Ps 37:29 — the righteous will live forever on it.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Describe the Garden of Eden (Gen 2:8-17) and explain why Jehovah's one restriction was a loving warning, not a harsh rule. Use Isaiah 45:18 to explain what Jehovah's purpose was for the earth.

Younger-student wording: Genesis 2:8-17 tells about the Garden of Eden. What was in the garden? Jehovah gave Adam one rule about a tree. Why was it a loving rule?

TEACHER ANSWER KEY (do not read aloud): Rivers, gold, trees and food; Adam to work and care for it. The restriction protected life ("you will surely die") and tested loving obedience and trust. Is 45:18 — the earth was formed to be lived on; Ps 37:29 — the righteous will live forever on it.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Which quality of Jehovah does this lesson show (theme: "Great God, Jehovah")? Give one detail from the account and one way you can imitate him this week.

Younger-student wording: What quality of Jehovah do you see in this lesson ("Great God, Jehovah")? How can you copy it this week?

TEACHER ANSWER KEY (do not read aloud): A quality such as love, justice, patience, faithfulness or wisdom — the lesson theme is "Great God, Jehovah", backed by one detail from Gen 2:8-17; Ps 37:29, and one specific way to imitate Jehovah.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

SCIENCE — DNA — information demands a designer (Reader: Kayla)

About 1.4 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let's begin with Ps 19:1 — The heavens declare Jehovah's glory — science is the study of His handiwork.

Let's review DNA — information demands a designer. DNA stores coded information; information always comes from an intelligent source (Ps 139:16).

Ask you: "State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans." Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: "Remember — DNA stores coded information; information always comes from an intelligent source

([Ps 139:16](#)).”

WRITE IN YOUR NOTES

- DNA stores coded information; information always comes from an intelligent source (Ps 139:16).

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Science — “DNA — information demands a designer”. Explain the main idea in your own words.

Younger-student wording: Science — “DNA — information demands a designer”. In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): DNA stores coded information; information always comes from an intelligent source (Ps 139:16).
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Science — “DNA — information demands a designer”. Give one example (from Scripture, the lesson, or daily life) and explain why it matters.

Younger-student wording: Science: tell one example of “DNA — information demands a designer”.

TEACHER ANSWER KEY (do not read aloud): Any accurate example that fits the idea (DNA stores coded information; information always comes from an intelligent source (Ps 139:16).); why it matters: The heavens declare Jehovah's glory — science is the study of His handiwork.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

MATH — Multiplication facts (Reader: Ashelyn)

About 1.7 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let’s begin with Prov 11:1. Jehovah is a God of order — numbers and patterns reflect His perfect design.

Today’s lesson is Multiplication facts. Multiplication is repeated addition: 6 × 4 = 6 + 6 + 6 + 6. Know facts and use patterns (×9 digits sum to 9; ×5 ends in 0 or 5).

Let’s try some together:

- 609 × 95 → 57855

- 198 × 82 → 16236

Ask you: “State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans.” Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: “Remember — Multiplication is repeated addition: 6 × 4 = 6 + 6 + 6 + 6. Know facts and use patterns (×9 digits sum to 9; ×5 ends in 0 or 5).”

WRITE IN YOUR NOTES

- Multiplication is repeated addition: 6 × 4 = 6 + 6 + 6 + 6.
- Know facts and use patterns (×9 digits sum to 9; ×5 ends in 0 or 5).

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Math (Multiplication facts) — solve and show your steps: 550 × 45

Younger-student wording: Math (Multiplication facts) — solve and show your steps: 3 × 3

TEACHER ANSWER KEY (do not read aloud): 24750
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Math (Multiplication facts) — solve and show your steps: 438 × 17

Younger-student wording: Math (Multiplication facts) — solve and show your steps: 8 × 11

TEACHER ANSWER KEY (do not read aloud): 7446
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

LANGUAGE ARTS — Verbs: action and state of being in Biblical context (Reader: Ryan)

About 1.8 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let’s begin with Heb 4:12 — Jehovah authored the most important written communication in history.

Today’s lesson is Verbs: action and state of being in Biblical context. Action verbs show what someone does (‘created’); linking/being verbs connect a subject to a description (‘was’, ‘is’). Gen 1:2 uses ‘was’; Gen 1:3 uses ‘said’.

Ask you: “State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans.” Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: “Remember — Action verbs show what someone does (‘created’); linking/being verbs connect a subject to a description (‘was’, ‘is’). Gen 1:2 uses ‘was’; Gen 1:3 uses ‘said’.”

WRITE IN YOUR NOTES

- Action verbs show what someone does (‘created’); linking/being verbs connect a subject to a description (‘was’, ‘is’).
- Gen 1:2 uses ‘was’; Gen 1:3 uses ‘said’.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Language arts — “Verbs: action and state of being in Biblical context”. Explain the main idea in your own words.

Younger-student wording: Language arts — “Verbs: action and state of being in Biblical context”. In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): Action verbs show what someone does (‘created’); linking/being verbs connect a subject to a description (‘was’, ‘is’). Gen 1:2 uses ‘was’; Gen 1:3 uses ‘said’.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Language arts — “Verbs: action and state of being in Biblical context”. Give one example (from Scripture, the lesson, or daily life) and explain why it matters.

Younger-student wording: Language arts: tell one example of “Verbs: action and state of being in Biblical context”.

TEACHER ANSWER KEY (do not read aloud): Any accurate example that fits the idea (Action verbs show what someone does (‘created’); linking/being verbs connect a subject to a description (‘was’, ‘is’). Gen 1:2 uses ‘was’; Gen 1:3 uses ‘said’.); why it matters: Jehovah authored the most important written communication in history.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

HISTORY — Egypt: the Exodus (Reader: Kayla)

About 1.5 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let's begin with Isa 46:9-10 — History is HIS story — Jehovah has directed events from the beginning.

Today's lesson is Egypt: the Exodus. Egypt: Joseph's rise and the Exodus; Egyptian monuments and records illustrate the setting of the Bible account.

Ask you: "State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans." Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: "Remember — Egypt: Joseph's rise and the Exodus; Egyptian monuments and records illustrate the setting of the Bible account."

WRITE IN YOUR NOTES

- Egypt: Joseph's rise and the Exodus; Egyptian monuments and records illustrate the setting of the Bible account.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

History — Egypt and the Exodus: explain what happened in the Exodus and what it shows about Jehovah's power and his promises. Give one detail about Egypt or the plagues.

Younger-student wording: History: Who was Moses? How did Jehovah save his people when they left Egypt (the Exodus)?

TEACHER ANSWER KEY (do not read aloud): Israelites were slaves; ten plagues; Passover; Red Sea parted; Jehovah fulfilled his promise to Abraham and showed he is stronger than the gods of Egypt.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

History — "Egypt: the Exodus". Explain the main idea in your own words.

Younger-student wording: History — "Egypt: the Exodus". In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): Egypt: Joseph's rise and the Exodus; Egyptian monuments and records illustrate the setting of the Bible account.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

WRITING — Audience and purpose (Reader: Ashelyn)

About 1.4 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let's begin with Rev 1:19 — Jehovah communicated His will through written words — writing is a sacred skill.

Today's lesson is Audience and purpose. Audience is who will read; purpose is why you write (inform, persuade, entertain). Both shape tone and words.

Ask you: "State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans." Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: "Remember — Audience is who will read; purpose is why you write (inform, persuade, entertain). Both shape tone and words."

WRITE IN YOUR NOTES

- Audience is who will read; purpose is why you write (inform, persuade, entertain).
- Both shape tone and words.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Writing — "Audience and purpose". Explain the main idea in your own words.

Younger-student wording: Writing — "Audience and purpose". In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): Audience is who will read; purpose is why you write (inform, persuade, entertain). Both shape tone and words.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Writing — "Audience and purpose". Give one example (from Scripture, the lesson, or daily life) and explain why it matters.

Younger-student wording: Writing: tell one example of "Audience and purpose".

TEACHER ANSWER KEY (do not read aloud): Any accurate example that fits the idea (Audience is who will read; purpose is why you write (inform, persuade, entertain). Both shape tone and words.); why it matters: Jehovah communicated His will through written words — writing is a sacred skill.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

Day 7 — Wednesday, October 14

BIBLE — Angels — Jehovah's Heavenly Family (Reader: Kayla)

About 4.9 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open your Bible to: Job 1:6; Heb 1:7,14; Rev 12:7-9; Dan 7:10

HOOK — OPENING ACTIVITY (3–5 MINUTES)

"Before any human being existed — before Adam, before the Garden — Jehovah was not alone. He had a family. And that family was enormous."

"Today we meet the angels — Jehovah's heavenly sons."

FOUNDATION — LAYER 1 & 2 — ALL AGES (7–8 MINUTES)

"Angels are spirit creatures — beings made by Jehovah before the physical creation. They are called sons of God in the Hebrew scriptures. They are real persons with names, personalities, and feelings. They are not chubby babies with wings. They are powerful, intelligent beings who love Jehovah and serve Him."

BUILDING — Layer 3 — Scriptures & Discussion (10–12 minutes)

"A hundred million angels standing before Jehovah's throne. And Hebrews 1:14 says they are sent out to serve people who will inherit salvation. That means angels are involved in YOUR life right now."

"Michael the archangel leads Jehovah's heavenly forces. When war broke out in heaven — Jehovah's side won. That is the world we live in now — a world where Jehovah's sovereignty is the central issue."

DEPTH — LAYER 4 — RYAN & KAYLA (8–10 MINUTES)

"Here is a deep question: why did Jehovah create beings who have free will and could rebel? Why not just create loyal, obedience-only robots?"

"Because love requires freedom. Loyalty that is forced is not loyalty — it is compulsion. Jehovah wants genuine love and service from His creatures. This is why both angels and humans were given the freedom to choose. And it is why our choice to serve Jehovah means something real."

APPLICATION QUESTIONS — ONE PER LEVEL

Ask in order youngest to oldest. Allow a full 30-60 seconds for each person to answer. Do not rush.

Mykah — 4th Grade • Level 1

How many angels does the Bible say are near Jehovah? Point to a big number! What is one thing angels do to help us?

Ashelyn — 8th Grade • Level 2-3

Why are angels called 'spirits' and what does that mean? What is one way angels interact with human beings according to the Bible?

Kayla — 11th Grade • Level 4J

Why did Jehovah give angels free will if He knew some would rebel? What does this tell us about the kind of love and worship Jehovah wants from us?

Ryan — 12th Grade • Level 4A

Research on wol.jw.org: What is the difference between Michael the archangel and other angels? What scriptures identify Michael? Write a paragraph.

ANSWER KEY — Teacher Reference Only

Mykah: 100 million — very many; angels protect us and help Jehovah's people.

Ashelyn: Spirit beings have no physical body; angels can take on physical form temporarily (Gen 18); they deliver messages, protect, serve.

Kayla: Love requires genuine freedom; forced loyalty has no value; Jehovah wants love that comes from understanding His qualities and choosing Him — this is why our service is precious to Him.

Ryan: Michael appears in Dan 10:13,21; 12:1; Jude 9; Rev 12:7 — identified as a prominent angel, archangel means chief angel; the organization teaches Michael is the pre-human Jesus.

SAY THIS TO REMIND THEM: “Remember — Spirit creatures created before humans, real persons with free will, numbering in the hundreds of millions. Heb 1:14 — they are sent out to minister to those who will inherit salvation.”

WRITE IN YOUR NOTES

- Spirit creatures created before humans, real persons with free will, numbering in the hundreds of millions.
- Heb 1:14 — they are sent out to minister to those who will inherit salvation.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Explain who the angels are (Job 1:6; Heb 1:7, 14; Dan 7:10). How many are there, what are they like, and what does Jehovah use them to do for people?

Younger-student wording: Angels are Jehovah's spirit family. Who are angels, and what does Hebrews 1:14 say they do?

TEACHER ANSWER KEY (do not read aloud): Spirit creatures created before humans, real persons with free will, numbering in the hundreds of millions. Heb 1:14 — they are sent out to minister to those who will inherit salvation.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Which quality of Jehovah does this lesson show (theme: "Jehovah's Attributes")? Give one detail from the account and one way you can imitate him this week.

Younger-student wording: What quality of Jehovah do you see in this lesson ("Jehovah's Attributes")? How can you copy it this week?

TEACHER ANSWER KEY (do not read aloud): A quality such as love, justice, patience, faithfulness or wisdom — the lesson theme is "Jehovah's Attributes", backed by one detail from Job 1:6; Heb 1:7,14; Rev 12:7, and one specific way to imitate Jehovah.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

SCIENCE — The cell — irreducible complexity (Reader: Ashelyn)

About 1.5 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let's begin with Ps 19:1 — The heavens declare Jehovah's glory — science is the study of His handiwork.

Today's lesson is The cell — irreducible complexity. The cell contains machines (ribosomes, mitochondria); parts depend on each other, which challenges gradual-chance explanations.

Ask you: "State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans." Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: "Remember — The cell contains machines (ribosomes, mitochondria); parts depend on each other, which challenges gradual-chance explanations."

WRITE IN YOUR NOTES

- The cell contains machines (ribosomes, mitochondria); parts depend on each other, which challenges gradual-chance explanations.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Science — “The cell and irreducible complexity”: explain in your own words what irreducible complexity means and use the cell to give an example.

Younger-student wording: Science: A cell has lots of tiny parts that all have to work together. Why do you think that shows careful planning?

TEACHER ANSWER KEY (do not read aloud): A system with many parts all needed together for it to work; if one part is missing the system fails, so it could not have developed one tiny step at a time. Cell parts work together to survive.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Science — “The cell — irreducible complexity”. Explain the main idea in your own words.

Younger-student wording: Science — “The cell — irreducible complexity”. In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): The cell contains machines (ribosomes, mitochondria); parts depend on each other, which challenges gradual-chance explanations.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

MATH — Multiplication facts (Reader: Ryan)

About 1.8 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let’s begin with Prov 11:1. Jehovah is a God of order — numbers and patterns reflect His perfect design.

Quick recap of yesterday’s idea (Multiplication facts): Multiplication is repeated addition: 6 × 4 = 6 + 6 + 6 + 6. Know facts and use patterns (×9 digits sum to 9; ×5 ends in 0 or 5).

Let’s try some together:

- 461 × 22 → 10142
- 432 × 49 → 21168

Ask you: “State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans.” Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: “Remember — Multiplication is repeated addition: 6 × 4 = 6 + 6 + 6 + 6. Know facts and use patterns (×9 digits sum to 9; ×5 ends in 0 or 5).”

WRITE IN YOUR NOTES

- Multiplication is repeated addition: 6 × 4 = 6 + 6 + 6 + 6.
- Know facts and use patterns (×9 digits sum to 9; ×5 ends in 0 or 5).

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Math (Multiplication facts) — solve and show your steps: 585 × 98

Younger-student wording: Math (Multiplication facts) — solve and show your steps: 6 × 9

TEACHER ANSWER KEY (do not read aloud): 57330
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Math (Multiplication facts) — solve and show your steps: 750 × 99

Younger-student wording: Math (Multiplication facts) — solve and show your steps: 7 × 9

TEACHER ANSWER KEY (do not read aloud): 74250
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

LANGUAGE ARTS — Verbs: action and state of being in Biblical context (Reader: Kayla)

About 1.8 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let’s begin with Heb 4:12 — Jehovah authored the most important written communication in history.

Let’s review Verbs: action and state of being in Biblical context. Action verbs show what someone does (‘created’); linking/being verbs connect a subject to a description (‘was’, ‘is’). Gen 1:2 uses ‘was’; Gen 1:3 uses ‘said’.

Ask you: “State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans.” Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: “Remember — Action verbs show what someone does (‘created’); linking/being verbs connect a subject to a description (‘was’, ‘is’). Gen 1:2 uses ‘was’; Gen 1:3 uses ‘said’.”

WRITE IN YOUR NOTES

- Action verbs show what someone does (‘created’); linking/being verbs connect a subject to a description (‘was’, ‘is’).
- Gen 1:2 uses ‘was’; Gen 1:3 uses ‘said’.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Language arts — “Verbs: action and state of being in Biblical context”. Explain the main idea in your own words.

Younger-student wording: Language arts — “Verbs: action and state of being in Biblical context”. In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): Action verbs show what someone does (‘created’); linking/being verbs connect a subject to a description (‘was’, ‘is’). Gen 1:2 uses ‘was’; Gen 1:3 uses ‘said’.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Language arts — “Verbs: action and state of being in Biblical context”. Give one example (from Scripture, the lesson, or daily life) and explain why it matters.

Younger-student wording: Language arts: tell one example of “Verbs: action and state of being in Biblical context”.

TEACHER ANSWER KEY (do not read aloud): Any accurate example that fits the idea (Action verbs show what someone does (‘created’); linking/being verbs connect a subject to a description (‘was’, ‘is’). Gen 1:2 uses ‘was’; Gen 1:3 uses ‘said’.); why it matters: Jehovah authored the most important written communication in history.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

HISTORY — Egypt: the Exodus (Reader: Ashelyn)

About 1.4 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let's begin with Isa 46:9-10 — History is HIS story — Jehovah has directed events from the beginning.

Let's review Egypt: the Exodus. Egypt: Joseph's rise and the Exodus; Egyptian monuments and records illustrate the setting of the Bible account.

Ask you: "State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans." Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: "Remember — Egypt: Joseph's rise and the Exodus; Egyptian monuments and records illustrate the setting of the Bible account."

WRITE IN YOUR NOTES

- Egypt: Joseph's rise and the Exodus; Egyptian monuments and records illustrate the setting of the Bible account.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

History — "Egypt: the Exodus". Explain the main idea in your own words.

Younger-student wording: History — "Egypt: the Exodus". In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): Egypt: Joseph's rise and the Exodus; Egyptian monuments and records illustrate the setting of the Bible account.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

History — "Egypt: the Exodus". Give one example (from Scripture, the lesson, or daily life) and explain why it matters.

Younger-student wording: History: tell one example of "Egypt: the Exodus".

TEACHER ANSWER KEY (do not read aloud): Any accurate example that fits the idea (Egypt: Joseph's rise and the Exodus; Egyptian monuments and records illustrate the setting of the Bible account.); why it matters: History is HIS story — Jehovah has directed events from the beginning.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

WRITING — Audience and purpose (Reader: Ryan)

About 1.4 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let's begin with Rev 1:19 — Jehovah communicated His will through written words — writing is a sacred skill.

Let's review Audience and purpose. Audience is who will read; purpose is why you write (inform, persuade, entertain). Both shape tone and words.

Ask you: "State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans." Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: "Remember — Audience is who will read; purpose is why you write (inform, persuade, entertain). Both shape tone and words."

WRITE IN YOUR NOTES

- Audience is who will read; purpose is why you write (inform, persuade, entertain).
- Both shape tone and words.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Writing — "Audience and purpose". Explain the main idea in your own words.

Younger-student wording: Writing — "Audience and purpose". In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): Audience is who will read; purpose is why you write (inform, persuade, entertain). Both shape tone and words.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Writing — "Audience and purpose". Give one example (from Scripture, the lesson, or daily life) and explain why it matters.

Younger-student wording: Writing: tell one example of "Audience and purpose".

TEACHER ANSWER KEY (do not read aloud): Any accurate example that fits the idea (Audience is who will read; purpose is why you write (inform, persuade, entertain). Both shape tone and words.); why it matters: Jehovah communicated His will through written words — writing is a sacred skill.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

Day 8 — Thursday, October 15

BIBLE — Satan — How Rebellion Began in Heaven (Reader: Ashelyn)

About 5.2 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open your Bible to: Rev 12:9; John 8:44; Ezek 28:12-17; Is 14:12-15

HOOK — OPENING ACTIVITY (3–5 MINUTES)

“Has anyone ever been lied to by someone you trusted? How did it feel?”

“The very first lie ever told was told by the most intelligent creature Jehovah had created up to that point. Today we find out who that creature was — and how he became Jehovah's enemy.”

FOUNDATION — LAYER 1 & 2 — ALL AGES (7–8 MINUTES)

“Ezekiel is describing a spirit creature who was originally perfect — full of wisdom, beautiful, in Jehovah's garden. This was an angelic son of Jehovah who had everything.”

“What happened? He became proud. He began to look at his own beauty and wisdom and began to desire worship for himself instead of giving worship to Jehovah.”

“I will make myself like the Most High. He wanted to replace Jehovah.”

BUILDING — Layer 3 — Scriptures & Discussion (10–12 minutes)

“Jesus himself identifies this creature as a liar — and says he did not stand in the truth. He walked away from the truth of who Jehovah is and what He deserves. And then he brought his rebellion to earth.”

“The one called Satan — a word that means Resister — and Devil — which means Slanderer — is the same one who was once a perfect angel. Pride, covetousness, and deception are the pattern of his fall — and they are the pattern of temptation he still uses today.”

DEPTH — LAYER 4 — RYAN & KAYLA (8–10 MINUTES)

“Why didn't Jehovah immediately destroy Satan? Because a lie had been raised: that Jehovah's rulership was unnecessary and that humans could successfully run their own lives without Him. That was the issue in Eden.

Destroying Satan immediately would not prove the lie wrong — it would look like silencing an opponent. Instead, Jehovah allowed time for human history to show whether life outside His guidance leads to blessing or ruin. Look at history. Look at today's world. The answer is clear."

APPLICATION QUESTIONS — ONE PER LEVEL

Ask in order youngest to oldest. Allow a full 30-60 seconds for each person to answer. Do not rush.

Mykah — 4th Grade • Level 1

Who is Satan? He was first an angel who became... what? What did he want?

Ashelyn — 8th Grade • Level 2-3

What three steps led to Satan's rebellion? (Hint: look at Isaiah 14 and Ezekiel 28.)

Kayla — 11th Grade • Level 4J

Why didn't Jehovah immediately destroy Satan after he rebelled? What important issue had to be settled first?

Ryan — 12th Grade • Level 4A

Research on jw.org: What is the 'issue of universal sovereignty'? How does this explain why human suffering has been permitted for thousands of years? Write a paragraph.

ANSWER KEY — Teacher Reference Only

Mykah: Satan was an angel who wanted people to worship him instead of Jehovah.

Ashelyn: 1. Pride (looked at own beauty/wisdom). 2. Covetousness (desired worship). 3. Deception (lied to Eve to get followers).

Kayla: The lie Satan raised was that Jehovah's sovereignty was not necessary — that life without Him could be successful. This had to be tested and proven false over time — destroying Satan immediately would not settle the question.

Ryan: Universal sovereignty issue: Satan's challenge was whether Jehovah has the right to rule and whether His subjects truly need His guidance; human history is demonstrating the answer; Jehovah's kingdom will vindicate His name and sovereignty permanently.

SAY THIS TO REMIND THEM: “Remember — Pride and wanting worship that belongs to Jehovah; he did not stand in the truth, became a liar. We take Jehovah’s side by staying loyal, truthful and humble.”

WRITE IN YOUR NOTES

- Pride and wanting worship that belongs to Jehovah; he did not stand in the truth, became a liar.
- We take Jehovah’s side by staying loyal, truthful and humble.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Using Ezekiel 28:12-17, Isaiah 14:13-14 and John 8:44, explain how a perfect angel became Satan. What was the root cause, and how can we take Jehovah’s side?

Younger-student wording: Satan was once a good angel. What wrong thing did he want that began his rebellion? What can we do to take Jehovah’s side?

TEACHER ANSWER KEY (do not read aloud): Pride and wanting worship that belongs to Jehovah; he did not stand in the truth, became a liar. We take Jehovah’s side by staying loyal, truthful and humble.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Which quality of Jehovah does this lesson show (theme: “Take Sides With Jehovah!”)? Give one detail from the account and one way you can imitate him this week.

Younger-student wording: What quality of Jehovah do you see in this lesson (“Take Sides With Jehovah!”)? How can you copy it this week?

TEACHER ANSWER KEY (do not read aloud): A quality such as love, justice, patience, faithfulness or wisdom — the lesson theme is “Take Sides With Jehovah!”, backed by one detail from Rev 12:9; John 8:44; Ezek 28:12-17, and one specific way to imitate Jehovah.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

SCIENCE — Animal design — adaptation and intelligence

(Reader: Ryan)

About 1.5 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let's begin with Ps 19:1 — The heavens declare Jehovah's glory — science is the study of His handiwork.

Today's lesson is Animal design — adaptation and intelligence. Animal design: adaptations such as camouflage, hibernation and migration show purposeful planning.

Ask you: "State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans." Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: "Remember — Animal design: adaptations such as camouflage, hibernation and migration show purposeful planning."

WRITE IN YOUR NOTES

- Animal design: adaptations such as camouflage, hibernation and migration show purposeful planning.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Science — Animal design: choose one animal and explain a specific adaptation, how it helps the animal survive, and what it teaches about its Designer.

Younger-student wording: Science: Pick an animal. Tell how its body or the way it lives is made just right for where it lives.

TEACHER ANSWER KEY (do not read aloud): Specific example (camel, bat echolocation, bird wing...) with how the design helps survival and shows wisdom. **Look for:** the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Science — "Animal design — adaptation and intelligence". Explain the main idea in your own words.

Younger-student wording: Science — "Animal design — adaptation and intelligence". In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): Animal design: adaptations such as camouflage, hibernation and migration show purposeful planning.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

MATH — Division — fair shares (Reader: Kayla)

About 1.7 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let's begin with Prov 11:1. Jehovah is a God of order — numbers and patterns reflect His perfect design.

Today's lesson is Division — fair shares. Division is fair sharing or repeated subtraction: 24 ÷ 4 asks 'how many fours in 24?' Check by multiplying the quotient by the divisor.

Let's try some together:

- 561 ÷ 11 → 51
- 1265 ÷ 23 → 55

Ask you: "State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans." Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: "Remember — Division is fair sharing or repeated subtraction: 24 ÷ 4 asks 'how many fours in 24?' Check by multiplying the quotient by the divisor."

WRITE IN YOUR NOTES

- Division is fair sharing or repeated subtraction: 24 ÷ 4 asks 'how many fours in 24?' Check by multiplying the quotient by the divisor.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Math (Division — fair shares) — solve and show your steps: 966 ÷ 23

Younger-student wording: Math (Division — fair shares) — solve and show your steps: 12 ÷ 3

TEACHER ANSWER KEY (do not read aloud): 42
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Math (Division — fair shares) — solve and show your steps: 396 ÷ 18

Younger-student wording: Math (Division — fair shares) — solve and show your steps: 56 ÷ 8

TEACHER ANSWER KEY (do not read aloud): 22
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

LANGUAGE ARTS — Adjectives and adverbs — descriptive language in the Psalms (Reader: Ashelyn)

About 1.8 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let's begin with Heb 4:12 — Jehovah authored the most important written communication in history.

Today's lesson is Adjectives and adverbs — descriptive language in the Psalms. Adjectives describe nouns and adverbs describe verbs, adjectives or other adverbs. Ps 23 uses 'green pastures' (adjective) and 'He leads me beside' (adverb of place).

Ask you: "State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans." Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: "Remember — Adjectives describe nouns and adverbs describe verbs, adjectives or other adverbs. Ps 23 uses 'green pastures' (adjective) and 'He leads me beside' (adverb of place)."

WRITE IN YOUR NOTES

- Adjectives describe nouns and adverbs describe verbs, adjectives or other adverbs.
- Ps 23 uses 'green pastures' (adjective) and 'He leads me beside' (adverb of place).

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Language arts — "Adjectives and adverbs — descriptive language in the Psalms". Explain the main idea in your own words.

Younger-student wording: Language arts — "Adjectives and adverbs — descriptive language in the Psalms". In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): Adjectives describe nouns and adverbs describe verbs, adjectives or other adverbs. Ps 23 uses ‘green pastures’ (adjective) and ‘He leads me beside’ (adverb of place).
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Language arts — “Adjectives and adverbs — descriptive language in the Psalms”. Give one example (from Scripture, the lesson, or daily life) and explain why it matters.

Younger-student wording: Language arts: tell one example of “Adjectives and adverbs — descriptive language in the Psalms”.

TEACHER ANSWER KEY (do not read aloud): Any accurate example that fits the idea (Adjectives describe nouns and adverbs describe verbs, adjectives or other adverbs. Ps 23 uses ‘green pastures’ (adjective) and ‘He leads me beside’ (adverb of place).); why it matters: Jehovah authored the most important written communication in history.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

HISTORY — The Israelite kingdoms (Reader: Ryan)

About 1.5 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let’s begin with Isa 46:9-10 — History is HIS story — Jehovah has directed events from the beginning.

Today’s lesson is The Israelite kingdoms. The Israelite kingdoms: Saul, David and Solomon united the tribes; after Solomon the kingdom split into Israel (north) and Judah (south).

Ask you: “State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans.” Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: “Remember — The Israelite kingdoms: Saul, David and Solomon united the tribes; after Solomon the kingdom split into Israel (north) and Judah (south).”

WRITE IN YOUR NOTES

- The Israelite kingdoms: Saul, David and Solomon united the tribes; after Solomon the kingdom split into Israel (north) and Judah (south).

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

History — “The Israelite kingdoms”. Explain the main idea in your own words.

Younger-student wording: History — “The Israelite kingdoms”. In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): The Israelite kingdoms: Saul, David and Solomon united the tribes; after Solomon the kingdom split into Israel (north) and Judah (south).
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

History — “The Israelite kingdoms”. Give one example (from Scripture, the lesson, or daily life) and explain why it matters.

Younger-student wording: History: tell one example of “The Israelite kingdoms”.

TEACHER ANSWER KEY (do not read aloud): Any accurate example that fits the idea (The Israelite kingdoms: Saul, David and Solomon united the tribes; after Solomon the kingdom split into Israel (north) and Judah (south).); why it matters: History is HIS story — Jehovah has directed events from the beginning.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

WRITING — Paragraph structure (Reader: Kayla)

About 1.3 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let’s begin with Rev 1:19 — Jehovah communicated His will through written words — writing is a sacred skill.

Today’s lesson is Paragraph structure. A paragraph has a topic sentence, details and a closing sentence; one main idea per paragraph.

Ask you: “State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans.” Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: “Remember — A paragraph has a topic sentence, details and a closing sentence; one main idea per paragraph.”

WRITE IN YOUR NOTES

- A paragraph has a topic sentence, details and a closing sentence; one main idea per paragraph.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Writing — “Paragraph structure”. Explain the main idea in your own words.

Younger-student wording: Writing — “Paragraph structure”. In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): A paragraph has a topic sentence, details and a closing sentence; one main idea per paragraph.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Writing — “Paragraph structure”. Give one example (from Scripture, the lesson, or daily life) and explain why it matters.

Younger-student wording: Writing: tell one example of “Paragraph structure”.

TEACHER ANSWER KEY (do not read aloud): Any accurate example that fits the idea (A paragraph has a topic sentence, details and a closing sentence; one main idea per paragraph.); why it matters: Jehovah communicated His will through written words — writing is a sacred skill.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

Day 9 — Friday, October 16

BIBLE — The Temptation and the Fall (Reader: Ryan)

About 5.8 minutes to read aloud

Open your Bible to: Gen 3:1-7; 2 Cor 11:3; Rom 5:12; 1 Tim 2:13-14

HOOK — OPENING ACTIVITY (3–5 MINUTES)

“Has anyone ever been told something that wasn't true — and believed it at first? Maybe an advertisement that promised something amazing but the product was terrible? Or a friend who said something was safe when it wasn't?”

“Today we are going to study the most effective deception in human history. Three lies. Six words. And it changed everything.”

FOUNDATION — LAYER 1 & 2 — ALL AGES (7–8 MINUTES)

“Notice the serpent's first move — he distorts what Jehovah actually said. Jehovah said do not eat from ONE tree. The serpent made it sound like the restriction was much larger than it was. This is the first tactic: exaggerate the restriction to make the Lawgiver look unreasonable.”

“You will certainly not die. This is the second tactic: directly deny what Jehovah said. This is where lying was born.”

“Jehovah knows that when you eat it your eyes will be opened. The third tactic: suggest Jehovah is withholding something good. Make the restriction look selfish instead of loving.”

BUILDING — Layer 3 — Scriptures & Discussion (10–12 minutes)

“Eve saw, she desired, she took, she ate, she gave. Five verbs in rapid succession. What started as deception ended in action. And then her eyes were opened — but not the way Satan promised. They were opened to their own exposure, their own guilt, their own need to hide from Jehovah.”

“Through one man — Adam — sin entered the world. And death through sin. Every human being born since then has been born imperfect. This was not Jehovah's fault. But it became His greatest project to fix.”

DEPTH — LAYER 4 — RYAN & KAYLA (8–10 MINUTES)

“Notice what Eve did not do: she did not go to Jehovah and ask Him to explain the restriction. She went to a conversation with someone who contradicted

Jehovah and entertained it. This is the model Satan still uses — he creates doubt first, then denial, then an alternative truth that sounds better. Today his tactics come through entertainment, education systems, and peer pressure. The defense is the same: go directly to Jehovah first, not to those who contradict Him."

APPLICATION QUESTIONS — ONE PER LEVEL

Ask in order youngest to oldest. Allow a full 30-60 seconds for each person to answer. Do not rush.

Mykah — 4th Grade • Level 1

What three things did the snake say to trick Eve? Can you remember even one?

Ashelyn — 8th Grade • Level 2-3

What were the three tactics Satan used in his temptation of Eve? Give an example of how each one is used in the world today.

Kayla — 11th Grade • Level 4J

Eve 'saw that the tree was good for food, delightful to look at, and desirable to gain understanding.' Compare this to 1 John 2:16. What principle does this reveal?

Ryan — 12th Grade • Level 4A

Research: How does 2 Corinthians 11:3 and Revelation 12:9 identify the serpent in Eden? What method does Satan still use? Write a response connecting the Eden account to a modern example.

ANSWER KEY — Teacher Reference Only

Mykah: Any recollection of one tactic correct — celebrate.

Ashelyn: 1. Exaggerate the restriction. 2. Directly deny Jehovah's word. 3. Suggest Jehovah is withholding something good. Modern examples: many valid — media, peer pressure, academic arguments against the Bible.

Kayla: The desire of the flesh, the desire of the eyes, and the showy display of one's means of life — 1 John 2:16 matches the three things that attracted Eve exactly.

Ryan: 2 Cor 11:3 — the serpent led Eve astray; Rev 12:9 — the great serpent = Satan; his method is still: cast doubt, deny Jehovah's word, offer an alternative that appeals to selfishness.

SAY THIS TO REMIND THEM: "Remember — Doubt — "Did God really say…?"; denial — "You will certainly not die"; distortion — God is holding back something good. Today: peer pressure, lies on social media. 1 John 2:16: craving of flesh, eyes, showy life."

WRITE IN YOUR NOTES

- Doubt — "Did God really say…?"; denial — "You will certainly not die"; distortion — God is holding back something good.
- Today: peer pressure, lies on social media. 1 John 2:16: craving of flesh, eyes, showy life.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Satan used three tactics on Eve: doubt, denial and distortion (Gen 3:1-5). Explain each tactic, and give a modern example of how Satan might use one today. Connect to Genesis 3:6 and 1 John 2:16.

Younger-student wording: Genesis 3: A serpent spoke to Eve. What did he say that was not true? What should we do when someone tells us something false about Jehovah?

TEACHER ANSWER KEY (do not read aloud): Doubt — "Did God really say…?"; denial — "You will certainly not die"; distortion — God is holding back something good. Today: peer pressure, lies on social media. 1 John 2:16: craving of flesh, eyes, showy life.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Which quality of Jehovah does this lesson show (theme: "We Guard Our Hearts")? Give one detail from the account and one way you can imitate him this week.

Younger-student wording: What quality of Jehovah do you see in this lesson ("We Guard Our Hearts")? How can you copy it this week?

TEACHER ANSWER KEY (do not read aloud): A quality such as love, justice, patience, faithfulness or wisdom — the lesson theme is "We Guard Our Hearts", backed by one detail from Gen 3:1-7; Rom 5:12, and one specific way to imitate Jehovah.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

SCIENCE — The human body — fearfully and wonderfully made (Reader: Kayla)

About 1.6 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let's begin with Ps 19:1 — The heavens declare Jehovah's glory — science is the study of His handiwork.

Today's lesson is The human body — fearfully and wonderfully made. The human body has trillions of cells working together; 'fearfully and wonderfully made' (Ps 139:14).

Ask you: "State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans." Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: "Remember — The human body has trillions of cells working together; 'fearfully and wonderfully made' (Ps 139:14)."

WRITE IN YOUR NOTES

- The human body has trillions of cells working together; 'fearfully and wonderfully made' (Ps 139:14).

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Science — The human body: choose a body system or organ (eye, heart, brain, immune system) and explain how its design works and why it makes you appreciate the Designer (Ps 139:14).

Younger-student wording: Science: Psalm 139:14 says we are "fearfully and wonderfully made." Pick one part of your body and tell how it is made so well.

TEACHER ANSWER KEY (do not read aloud): A specific explanation of how the part works and reflection on the Designer; connects to Ps 139:14.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Science — "The human body — fearfully and wonderfully made". Explain the main idea in your own words.

Younger-student wording: Science — "The human body — fearfully and wonderfully made". In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): The human body has trillions of cells working together; ‘fearfully and wonderfully made’ (Ps 139:14).
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

MATH — Division — fair shares (Reader: Ashelyn)

About 1.7 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let’s begin with Prov 11:1. Jehovah is a God of order — numbers and patterns reflect His perfect design.

Quick recap of yesterday’s idea (Division — fair shares): Division is fair sharing or repeated subtraction: 24 ÷ 4 asks ‘how many fours in 24?’ Check by multiplying the quotient by the divisor.

Let’s try some together:

- 286 ÷ 13 → 22
- 91 ÷ 7 → 13

Ask you: “State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans.” Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: “Remember — Division is fair sharing or repeated subtraction: 24 ÷ 4 asks ‘how many fours in 24?’ Check by multiplying the quotient by the divisor.”

WRITE IN YOUR NOTES

- Division is fair sharing or repeated subtraction: 24 ÷ 4 asks ‘how many fours in 24?’ Check by multiplying the quotient by the divisor.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Math (Division — fair shares) — solve and show your steps: 532 ÷ 19

Younger-student wording: Math (Division — fair shares) — solve and show your steps: 30 ÷ 6

TEACHER ANSWER KEY (do not read aloud): 28
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Math (Division — fair shares) — solve and show your steps: 512 ÷ 8

Younger-student wording: Math (Division — fair shares) — solve and show your steps: 63 ÷ 7

TEACHER ANSWER KEY (do not read aloud): 64
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

LANGUAGE ARTS — Adjectives and adverbs — descriptive language in the Psalms (Reader: Ryan)

About 1.8 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let's begin with Heb 4:12 — Jehovah authored the most important written communication in history.

Let's review Adjectives and adverbs — descriptive language in the Psalms. Adjectives describe nouns and adverbs describe verbs, adjectives or other adverbs. Ps 23 uses 'green pastures' (adjective) and 'He leads me beside' (adverb of place).

Ask you: "State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans." Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: "Remember — Adjectives describe nouns and adverbs describe verbs, adjectives or other adverbs. Ps 23 uses 'green pastures' (adjective) and 'He leads me beside' (adverb of place)."

WRITE IN YOUR NOTES

- Adjectives describe nouns and adverbs describe verbs, adjectives or other adverbs.
- Ps 23 uses 'green pastures' (adjective) and 'He leads me beside' (adverb of place).

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Language arts — "Adjectives and adverbs — descriptive language in the Psalms". Explain the main idea in your own words.

Younger-student wording: Language arts — "Adjectives and adverbs — descriptive language in the Psalms". In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): Adjectives describe nouns and adverbs describe verbs, adjectives or other adverbs. Ps 23 uses ‘green pastures’ (adjective) and ‘He leads me beside’ (adverb of place).
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Language arts — “Adjectives and adverbs — descriptive language in the Psalms”. Give one example (from Scripture, the lesson, or daily life) and explain why it matters.

Younger-student wording: Language arts: tell one example of “Adjectives and adverbs — descriptive language in the Psalms”.

TEACHER ANSWER KEY (do not read aloud): Any accurate example that fits the idea (Adjectives describe nouns and adverbs describe verbs, adjectives or other adverbs. Ps 23 uses ‘green pastures’ (adjective) and ‘He leads me beside’ (adverb of place).); why it matters: Jehovah authored the most important written communication in history.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

HISTORY — Assyrian Empire — fulfilled prophecy (Reader: Kayla)

About 1.6 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let’s begin with Isa 46:9-10 — History is HIS story — Jehovah has directed events from the beginning.

Today’s lesson is Assyrian Empire — fulfilled prophecy. Assyria, the world power of Isaiah’s day, conquered the ten-tribe kingdom of Israel; Samaria fell in 740 BCE, as prophesied (Isa 8:4; 2 Ki 17:5-6).

Ask you: “State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans.” Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: “Remember — Assyria, the world power of Isaiah’s day, conquered the ten-tribe kingdom of Israel; Samaria fell in 740 BCE, as prophesied (Isa 8:4; 2 Ki 17:5-6).”

WRITE IN YOUR NOTES

- Assyria, the world power of Isaiah’s day, conquered the ten-tribe kingdom of Israel; Samaria fell in 740 BCE, as prophesied (Isa 8:4; 2 Ki 17:5-6).

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

History — “Assyrian Empire — fulfilled prophecy”. Explain the main idea in your own words.

Younger-student wording: History — “Assyrian Empire — fulfilled prophecy”. In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): Assyria, the world power of Isaiah’s day, conquered the ten-tribe kingdom of Israel; Samaria fell in 740 BCE, as prophesied (Isa 8:4; 2 Ki 17:5-6).
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

History — “Assyrian Empire — fulfilled prophecy”. Give one example (from Scripture, the lesson, or daily life) and explain why it matters.

Younger-student wording: History: tell one example of “Assyrian Empire — fulfilled prophecy”.

TEACHER ANSWER KEY (do not read aloud): Any accurate example that fits the idea (Assyria, the world power of Isaiah’s day, conquered the ten-tribe kingdom of Israel; Samaria fell in 740 BCE, as prophesied (Isa 8:4; 2 Ki 17:5-6).); why it matters: History is HIS story — Jehovah has directed events from the beginning.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

WRITING — Paragraph structure (Reader: Ashelyn)

About 1.3 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let’s begin with Rev 1:19 — Jehovah communicated His will through written words — writing is a sacred skill.

Let’s review Paragraph structure. A paragraph has a topic sentence, details and a closing sentence; one main idea per paragraph.

Ask you: “State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans.” Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: “Remember — A paragraph has a topic sentence, details and a closing sentence; one main idea per paragraph.”

WRITE IN YOUR NOTES

- A paragraph has a topic sentence, details and a closing sentence; one main idea per paragraph.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Writing — “Paragraph structure”. Explain the main idea in your own words.

Younger-student wording: Writing — “Paragraph structure”. In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): A paragraph has a topic sentence, details and a closing sentence; one main idea per paragraph.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Writing — “Paragraph structure”. Give one example (from Scripture, the lesson, or daily life) and explain why it matters.

Younger-student wording: Writing: tell one example of “Paragraph structure”.

TEACHER ANSWER KEY (do not read aloud): Any accurate example that fits the idea (A paragraph has a topic sentence, details and a closing sentence; one main idea per paragraph.); why it matters: Jehovah communicated His will through written words — writing is a sacred skill.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

Day 10 — Monday, October 19

BIBLE — Week 2 Review + The Seed Promise Gen 3:15

(Reader: Kayla)

About 4.9 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open your Bible to: Gen 3:8-24; Gen 3:15; Gal 3:16; Rev 12:17

HOOK — OPENING ACTIVITY (3–5 MINUTES)

"In the middle of the worst moment in human history — when Adam and Eve had just thrown away everything Jehovah had given them — Jehovah gave them something they didn't deserve and couldn't have expected. He gave them hope. Today we find out what that hope was."

FOUNDATION — LAYER 1 & 2 — ALL AGES (7–8 MINUTES)

"This is the very first prophecy in the entire Bible. A seed that would crush the serpent's head. Jehovah made this promise the same day sin entered the world. Before He pronounced any consequences — He gave them hope. That is who Jehovah is."

BUILDING — Layer 3 — Scriptures & Discussion (10–12 minutes)

"Paul identifies this seed as Jesus Christ. The promise made in the garden — Genesis 3:15 — was fulfilled 4,000 years later through Jesus. The Bible is one story with one Author. Every piece connects."

"The war between the serpent's offspring and the woman's seed — that war is still happening. And we are in the middle of it. We are part of the woman's offspring."

DEPTH — LAYER 4 — RYAN & KAYLA (8–10 MINUTES)

"Genesis 3:15 is the seed from which the entire rest of the Bible grows. Every covenant, every prophecy, every event in the Hebrew scriptures points toward this seed. Isaiah 53, Daniel 9:25, Micah 5:2 — they all zoom in on exactly who this seed would be and how he would fulfill the promise. Ryan and Kayla — your assignment is to trace this prophecy. Find three scriptures between Genesis 3:15 and the Gospels that point to Jesus. Due Friday."

APPLICATION QUESTIONS — ONE PER LEVEL

Ask in order youngest to oldest. Allow a full 30-60 seconds for each person to answer. Do not rush.

Mykah — 4th Grade • Level 1

Who is the Seed that Jehovah promised would crush the serpent? His name starts with J!

Ashelyn — 8th Grade • Level 2-3

What did Jehovah promise in Genesis 3:15? How do we know it refers to Jesus? Find one New Testament scripture that confirms it.

Kayla — 11th Grade • Level 4J

Trace the Seed Promise: Gen 3:15 → Gal 3:16 → Rev 12:17. Write two sentences explaining the full arc of what Jehovah promised and how it will be fulfilled.

Ryan — 12th Grade • Level 4A

Build a research chain: Gen 3:15 → Insight on the Scriptures: 'Seed' entry → three messianic prophecies in Isaiah and Micah → NT fulfillment. Write one paragraph on what you find.

ANSWER KEY — Teacher Reference Only

Mykah: Jesus!

Ashelyn: Seed = the promised one who would crush Satan's power; Gal 3:16 confirms it is Christ specifically.

Kayla: In Eden Jehovah promised a future seed who would undo the damage of Satan's rebellion; Gal 3:16 identifies that seed as Jesus; Rev 12:17 shows the war is ongoing and we are participants.

Ryan: Insight 'Seed' entry discusses the line of promise; Is 53, Is 9:6, Mic 5:2 — accept well-sourced research.

SAY THIS TO REMIND THEM: “Remember — First prophecy: Jehovah promised a Seed who would crush the serpent’s head. Gal 3:16 — the seed is Christ; Rev 12:17 — the war continues against the rest of her offspring (anointed).”

WRITE IN YOUR NOTES

- First prophecy: Jehovah promised a Seed who would crush the serpent’s head.

- Gal 3:16 — the seed is Christ; Rev 12:17 — the war continues against the rest of her offspring (anointed).
- Gives hope that Jehovah will undo the harm of Satan.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Explain the promise in Genesis 3:15: who is the "seed," who is the serpent, and what hope does it give? Use Galatians 3:16 and Revelation 12:17 in your answer.

Younger-student wording: After Adam and Eve sinned, Jehovah gave a promise of hope in Genesis 3:15. What was the promise?

TEACHER ANSWER KEY (do not read aloud): First prophecy: Jehovah promised a Seed who would crush the serpent's head. Gal 3:16 — the seed is Christ; Rev 12:17 — the war continues against the rest of her offspring (anointed). Gives hope that Jehovah will undo the harm of Satan.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Which quality of Jehovah does this lesson show (theme: "My Father, My God and Friend")? Give one detail from the account and one way you can imitate him this week.

Younger-student wording: What quality of Jehovah do you see in this lesson ("My Father, My God and Friend")? How can you copy it this week?

TEACHER ANSWER KEY (do not read aloud): A quality such as love, justice, patience, faithfulness or wisdom — the lesson theme is "My Father, My God and Friend", backed by one detail from Gen 3:8-24; Gen 3:15; Gal 3:16, and one specific way to imitate Jehovah.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

SCIENCE — Physics of the universe — fine-tuned constants

(Reader: Ashelyn)

About 1.6 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let's begin with Ps 19:1 — The heavens declare Jehovah's glory — science is the study of His handiwork.

Today's lesson is Physics of the universe — fine-tuned constants. Fine-tuned constants of physics, such as gravity and the strength of the nuclear forces, allow life.

Ask you: “State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans.” Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: “Remember — Fine-tuned constants of physics, such as gravity and the strength of the nuclear forces, allow life.”

WRITE IN YOUR NOTES

- Fine-tuned constants of physics, such as gravity and the strength of the nuclear forces, allow life.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Science — Physics: explain what “fine-tuned constants” means. Give one example and explain why scientists find it hard to believe it happened by chance.

Younger-student wording: Science: Our universe has rules that are “just right” for life, like gravity. Why do you think a universe like this points to a Maker?

TEACHER ANSWER KEY (do not read aloud): Constants (gravity, strength of nuclear force, etc.) must be within very narrow ranges for stars and life to exist; precision points to design.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Science — “Physics of the universe — fine-tuned constants”. Explain the main idea in your own words.

Younger-student wording: Science — “Physics of the universe — fine-tuned constants”. In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): Fine-tuned constants of physics, such as gravity and the strength of the nuclear forces, allow life.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

MATH — Order of operations (Reader: Ryan)

About 1.6 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let's begin with Prov 11:1. Jehovah is a God of order — numbers and patterns reflect His perfect design.

Today's lesson is Order of operations. Order of operations: parentheses, exponents, multiplication/division (left to right), then addition/subtraction (left to right).

Let's try some together:

- $6 + 6^2 \times 4 - (8 + 6) \rightarrow 136$
- $5 + 7^2 \times 5 - (6 + 5) \rightarrow 239$

Ask you: "State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans." Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: "Remember — Order of operations: parentheses, exponents, multiplication/division (left to right), then addition/subtraction (left to right)."

WRITE IN YOUR NOTES

- Order of operations: parentheses, exponents, multiplication/division (left to right), then addition/subtraction (left to right).

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Math (Order of operations) — solve and show your steps: $5 + 8^2 \times 7 - (6 + 5)$

Younger-student wording: Math (Order of operations) — solve and show your steps: $7 + 3 \times 4$

TEACHER ANSWER KEY (do not read aloud): 442
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Math (Order of operations) — solve and show your steps: $9 + 3^2 \times 8 - (3 + 9)$

Younger-student wording: Math (Order of operations) — solve and show your steps: $6 + 4 \times 6$

TEACHER ANSWER KEY (do not read aloud): 69
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

LANGUAGE ARTS — Sentence structure — simple sentences from the Bible (Reader: Kayla)

About 1.6 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let's begin with Heb 4:12 — Jehovah authored the most important written communication in history.

Today's lesson is Sentence structure — simple sentences from the Bible. A simple sentence has one subject and one predicate and expresses a complete thought: 'Jehovah is my Shepherd.'

Ask you: "State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans." Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: "Remember — A simple sentence has one subject and one predicate and expresses a complete thought: 'Jehovah is my Shepherd.'"

WRITE IN YOUR NOTES

- A simple sentence has one subject and one predicate and expresses a complete thought: 'Jehovah is my Shepherd.'

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Language arts — "Sentence structure — simple sentences from the Bible". Explain the main idea in your own words.

Younger-student wording: Language arts — "Sentence structure — simple sentences from the Bible". In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): A simple sentence has one subject and one predicate and expresses a complete thought: 'Jehovah is my Shepherd.'
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Language arts — "Sentence structure — simple sentences from the Bible". Give one example (from Scripture, the lesson, or daily life) and explain why it matters.

Younger-student wording: Language arts: tell one example of “Sentence structure — simple sentences from the Bible”.

TEACHER ANSWER KEY (do not read aloud): Any accurate example that fits the idea (A simple sentence has one subject and one predicate and expresses a complete thought: ‘Jehovah is my Shepherd.’); why it matters: Jehovah authored the most important written communication in history.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

HISTORY — Assyrian Empire — fulfilled prophecy (Reader: Ashelyn)

About 1.6 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let’s begin with Isa 46:9-10 — History is HIS story — Jehovah has directed events from the beginning.

Let’s review Assyrian Empire — fulfilled prophecy. Assyria, the world power of Isaiah’s day, conquered the ten-tribe kingdom of Israel; Samaria fell in 740 BCE, as prophesied (Isa 8:4; 2 Ki 17:5-6).

Ask you: “State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans.” Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: “Remember — Assyria, the world power of Isaiah’s day, conquered the ten-tribe kingdom of Israel; Samaria fell in 740 BCE, as prophesied (Isa 8:4; 2 Ki 17:5-6).”

WRITE IN YOUR NOTES

- Assyria, the world power of Isaiah’s day, conquered the ten-tribe kingdom of Israel; Samaria fell in 740 BCE, as prophesied (Isa 8:4; 2 Ki 17:5-6).

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

History — “Assyrian Empire — fulfilled prophecy”. Explain the main idea in your own words.

Younger-student wording: History — “Assyrian Empire — fulfilled prophecy”. In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): Assyria, the world power of Isaiah's day, conquered the ten-tribe kingdom of Israel; Samaria fell in 740 BCE, as prophesied (Isa 8:4; 2 Ki 17:5-6).
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

History — "Assyrian Empire — fulfilled prophecy". Give one example (from Scripture, the lesson, or daily life) and explain why it matters.

Younger-student wording: History: tell one example of "Assyrian Empire — fulfilled prophecy".

TEACHER ANSWER KEY (do not read aloud): Any accurate example that fits the idea (Assyria, the world power of Isaiah's day, conquered the ten-tribe kingdom of Israel; Samaria fell in 740 BCE, as prophesied (Isa 8:4; 2 Ki 17:5-6).); why it matters: History is HIS story — Jehovah has directed events from the beginning.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

WRITING — Transition words and flow (Reader: Ryan)

About 1.3 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let's begin with Rev 1:19 — Jehovah communicated His will through written words — writing is a sacred skill.

Today's lesson is Transition words and flow. Transition words (first, however, therefore, for example) link ideas smoothly.

Ask you: "State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans." Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: "Remember — Transition words (first, however, therefore, for example) link ideas smoothly."

WRITE IN YOUR NOTES

- Transition words (first, however, therefore, for example) link ideas smoothly.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Writing — "Transition words and flow". Explain the main idea in your own words.

Younger-student wording: Writing — "Transition words and flow". In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): Transition words (first, however, therefore, for example) link ideas smoothly.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Writing — “Transition words and flow”. Give one example (from Scripture, the lesson, or daily life) and explain why it matters.

Younger-student wording: Writing: tell one example of “Transition words and flow”.

TEACHER ANSWER KEY (do not read aloud): Any accurate example that fits the idea (Transition words (first, however, therefore, for example) link ideas smoothly.); why it matters: Jehovah communicated His will through written words — writing is a sacred skill.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

Day 11 — Tuesday, October 20

BIBLE — Jehovah's Judgment and First Consequences (Reader: Ashelyn)

About 3.8 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open your Bible to: Gen 3:8-24; Rom 8:20-22

HOOK

Say: 'Have you ever done something wrong and tried to hide it? What happened when the truth came out?' **Teach:** Read Gen 3:8-13. Adam hid, Eve blamed the serpent. Consequences followed — not as revenge but as natural outcomes of sin. The ground cursed = toil. Childbirth painful = physical toll. Death = sin's wage. None of this was cruel — it was honest. **Say:** 'Jehovah warned Adam. The warning was loving. The consequence was real. That is what truth and love look like together.'

FOUNDATION + BUILDING + DEPTH

Key points: 1. Jehovah sought Adam out — 'Where are you?' Jehovah initiates even after sin. 2. Each received a specific consequence tied to their specific action. 3. Jehovah made garments of skin — the first sacrifice, foreshadowing the ransom. 4. Banishment from the garden was protective — if they ate from the tree of life in their sinful state they would live forever in misery.

APPLICATION QUESTIONS

Mykah: What did Jehovah make to cover Adam and Eve? Who helped them?

Ashelyn: What three consequences did Jehovah give — one for the serpent, one for Eve, one for Adam? What was the purpose of each?

Kayla: Why did Jehovah banish Adam and Eve from the garden? Was it cruel or was it protective? Explain with a scripture.

Ryan: How does Gen 3:21 (garments of skin) connect to Heb 9:22 and the ransom? Write a 5-sentence theological explanation.

KEY

Mykah: Garments of skin — Jehovah made them.

Ashelyn: Serpent: crawl on belly, enmity with woman's seed. Eve: pain in childbirth, desire for husband. Adam: toil, thorns, return to dust. Each tied to their action.

Kayla: Banishment was protective — eating from the tree of life in a sinful state would mean living forever in an imperfect condition; Gen 3:22-24 supports this — Jehovah was not punishing them but protecting them from a worse outcome.

Ryan: Garments = first animal death; blood shed to cover shame; Heb 9:22 — no forgiveness without blood; this was a shadow pointing forward to Jesus' ransom.

SAY THIS TO REMIND THEM: “Remember — Consequences were outcomes of sin, not revenge. Jehovah made them clothes of skins (foreshadowing the ransom) and gave hope; creation was subjected to futility but will be set free (Rom 8:20-22).”

WRITE IN YOUR NOTES

- Consequences were outcomes of sin, not revenge.
- Jehovah made them clothes of skins (foreshadowing the ransom) and gave hope; creation was subjected to futility but will be set free (Rom 8:20-22).

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Explain the consequences in Genesis 3:8-24. Were they revenge or the natural outcome of sin? What did Jehovah’s actions in Gen 3:21 and Rom 8:20-22 show about his love and hope?

Younger-student wording: When Adam and Eve disobeyed, Jehovah told them what would happen. Were those consequences punishment from anger or the results of sin? What loving thing did Jehovah do in Genesis 3:21?

TEACHER ANSWER KEY (do not read aloud): Consequences were outcomes of sin, not revenge. Jehovah made them clothes of skins (foreshadowing the ransom) and gave hope; creation was subjected to futility but will be set free (Rom 8:20-22).
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Which quality of Jehovah does this lesson show (theme: “Be Forgiving”)? Give one detail from the account and one way you can imitate him this week.

Younger-student wording: What quality of Jehovah do you see in this lesson (“Be Forgiving”)? How can you copy it this week?

TEACHER ANSWER KEY (do not read aloud): A quality such as love, justice, patience, faithfulness or wisdom — the lesson theme is “Be Forgiving”, backed by one detail from Gen 3:8-24; Rom 8:20-22, and one specific way to imitate Jehovah.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

SCIENCE — Physics of the universe — fine-tuned constants

(Reader: Ryan)

About 1.5 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let’s begin with Ps 19:1 — The heavens declare Jehovah's glory — science is the study of His handiwork.

Let’s review Physics of the universe — fine-tuned constants. Fine-tuned constants of physics, such as gravity and the strength of the nuclear forces, allow life.

Ask you: “State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans.” Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: “Remember — Fine-tuned constants of physics, such as gravity and the strength of the nuclear forces, allow life.”

WRITE IN YOUR NOTES

- Fine-tuned constants of physics, such as gravity and the strength of the nuclear forces, allow life.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Science — “Physics of the universe — fine-tuned constants”. Explain the main idea in your own words.

Younger-student wording: Science — “Physics of the universe — fine-tuned constants”. In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): Fine-tuned constants of physics, such as gravity and the strength of the nuclear forces, allow life.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Science — “Physics of the universe — fine-tuned constants”. Give one example (from Scripture, the lesson, or daily life) and explain why it matters.

Younger-student wording: Science: tell one example of “Physics of the universe — fine-tuned constants”.

TEACHER ANSWER KEY (do not read aloud): Any accurate example that fits the idea (Fine-tuned constants of physics, such as gravity and the strength of the nuclear forces, allow life.); why it matters: The heavens declare Jehovah's glory — science is the study of His handiwork.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

MATH — Order of operations (Reader: Kayla)

About 1.7 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let’s begin with Prov 11:1. Jehovah is a God of order — numbers and patterns reflect His perfect design.

Quick recap of yesterday’s idea (Order of operations): Order of operations: parentheses, exponents, multiplication/division (left to right), then addition/subtraction (left to right).

Let’s try some together:

- $3 + 6^2 \times 5 - (9 + 3) \rightarrow 171$
- $7 + 9^2 \times 3 - (9 + 7) \rightarrow 234$

Ask you: “State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans.” Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: “Remember — Order of operations: parentheses, exponents, multiplication/division (left to right), then addition/subtraction (left to right).”

WRITE IN YOUR NOTES

- Order of operations: parentheses, exponents, multiplication/division (left to right), then addition/subtraction (left to right).

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Math — Order of operations: solve $3 + 6^2 \times 5 - (9 + 3)$ showing every step, and explain the order you used and why.

Younger-student wording: Math: Solve 3 + 4 × 2 and show your steps. Why is the answer not 14?

TEACHER ANSWER KEY (do not read aloud): Younger: 4 × 2 = 8 first, then 3 + 8 = 11 (multiply before add). Older: parentheses 12; exponent 36; multiply 180; 3 + 180 − 12 = 171. Order: parentheses, exponents, multiplication/division, addition/subtraction.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Math (Order of operations) — solve and show your steps: $4 + 7^2 \times 6 - (9 + 4)$

Younger-student wording: Math (Order of operations) — solve and show your steps: 2 + 5 × 4

TEACHER ANSWER KEY (do not read aloud): 285
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

LANGUAGE ARTS — Sentence structure — simple sentences from the Bible (Reader: Ashelyn)

About 1.6 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let's begin with Heb 4:12 — Jehovah authored the most important written communication in history.

Let's review Sentence structure — simple sentences from the Bible. A simple sentence has one subject and one predicate and expresses a complete thought: 'Jehovah is my Shepherd.'

Ask you: "State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans." Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: "Remember — A simple sentence has one subject and one predicate and expresses a complete thought: 'Jehovah is my Shepherd.'"

WRITE IN YOUR NOTES

- A simple sentence has one subject and one predicate and expresses a complete thought: 'Jehovah is my Shepherd.'

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Language arts — “Sentence structure — simple sentences from the Bible”. Explain the main idea in your own words.

Younger-student wording: Language arts — “Sentence structure — simple sentences from the Bible”. In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): A simple sentence has one subject and one predicate and expresses a complete thought: ‘Jehovah is my Shepherd.’
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Language arts — “Sentence structure — simple sentences from the Bible”. Give one example (from Scripture, the lesson, or daily life) and explain why it matters.

Younger-student wording: Language arts: tell one example of “Sentence structure — simple sentences from the Bible”.

TEACHER ANSWER KEY (do not read aloud): Any accurate example that fits the idea (A simple sentence has one subject and one predicate and expresses a complete thought: ‘Jehovah is my Shepherd.’); why it matters: Jehovah authored the most important written communication in history.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

HISTORY — Babylonian Empire — Daniel's prophecy (Reader: Ryan)

About 1.4 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let’s begin with Isa 46:9-10 — History is HIS story — Jehovah has directed events from the beginning.

Today’s lesson is Babylonian Empire — Daniel's prophecy. Babylon destroyed Jerusalem in 607 BCE and exiled Judah, fulfilling Jeremiah’s warnings; Daniel lived in Babylon.

Ask you: “State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans.” Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: “Remember — Babylon destroyed Jerusalem in 607 BCE and exiled Judah, fulfilling Jeremiah’s warnings; Daniel lived in Babylon.”

WRITE IN YOUR NOTES

- Babylon destroyed Jerusalem in 607 BCE and exiled Judah, fulfilling Jeremiah’s warnings; Daniel lived in Babylon.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

History — “Babylonian Empire — Daniel's prophecy”. Explain the main idea in your own words.

Younger-student wording: History — “Babylonian Empire — Daniel's prophecy”. In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): Babylon destroyed Jerusalem in 607 BCE and exiled Judah, fulfilling Jeremiah’s warnings; Daniel lived in Babylon.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

History — “Babylonian Empire — Daniel's prophecy”. Give one example (from Scripture, the lesson, or daily life) and explain why it matters.

Younger-student wording: History: tell one example of “Babylonian Empire — Daniel's prophecy”.

TEACHER ANSWER KEY (do not read aloud): Any accurate example that fits the idea (Babylon destroyed Jerusalem in 607 BCE and exiled Judah, fulfilling Jeremiah’s warnings; Daniel lived in Babylon.); why it matters: History is HIS story — Jehovah has directed events from the beginning.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

WRITING — Transition words and flow (Reader: Kayla)

About 1.3 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let’s begin with Rev 1:19 — Jehovah communicated His will through written words — writing is a sacred skill.

Let’s review Transition words and flow. Transition words (first, however, therefore, for example) link ideas smoothly.

Ask you: “State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans.” Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: “Remember — Transition words (first, however, therefore, for example) link ideas smoothly.”

WRITE IN YOUR NOTES

- Transition words (first, however, therefore, for example) link ideas smoothly.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Writing — “Transition words and flow”. Explain the main idea in your own words.

Younger-student wording: Writing — “Transition words and flow”. In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): Transition words (first, however, therefore, for example) link ideas smoothly.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Writing — “Transition words and flow”. Give one example (from Scripture, the lesson, or daily life) and explain why it matters.

Younger-student wording: Writing: tell one example of “Transition words and flow”.

TEACHER ANSWER KEY (do not read aloud): Any accurate example that fits the idea (Transition words (first, however, therefore, for example) link ideas smoothly.); why it matters: Jehovah communicated His will through written words — writing is a sacred skill.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

Day 12 — Wednesday, October 21

BIBLE — Cain and Abel — Two Kinds of Worship (Reader: Ryan)

About 4.0 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open your Bible to: Gen 4:1-16; Heb 11:4; 1 John 3:12

HOOK

Say: 'Has anyone ever worked hard at something and felt like it wasn't appreciated — while someone else got more recognition? How did that feel?' **Teach:** Cain and Abel both brought offerings. One was accepted — one wasn't. The difference was not the TYPE of offering alone — it was the FAITH behind it (Heb 11:4) and likely the QUALITY (Abel brought firstlings — the best). **Ask them:** What does it mean to give Jehovah your BEST vs. what is convenient?

FOUNDATION + BUILDING + DEPTH

Key points: 1. Cain knew what was right — Jehovah warned him in Gen 4:6-7. 2. The anger came before the act — Jehovah gave him a chance to redirect it. 3. 'Sin is crouching at the door' — sin is not just action; it starts as a feeling we can still choose how to handle. 4. Cain asked 'Am I my brother's guardian?' — contrasting with true love which DOES look out for others.

APPLICATION QUESTIONS

Mykah: What did Cain do that was wrong? What could he have done instead?

Ashelyn: What was the difference between Cain's offering and Abel's? What made Abel's offering more acceptable according to Hebrews 11:4?

Kayla: What warning did Jehovah give Cain before the murder? What does 'sin is crouching at the door' mean in practical terms for us today?

Ryan: Research on wol.jw.org: What was the mark Jehovah put on Cain? What does this reveal about Jehovah's character even in judgment?

KEY

Mykah: He killed his brother instead of doing better — he could have improved his offering.

Ashelyn: Abel brought firstlings of his flock and fat portions — the best; Heb 11:4 says Abel offered by FAITH — the quality reflected the faith behind it.

Kayla: Warning: sin is crouching at the door; you can still master it. Practical: when anger or jealousy rises, we must recognize it before it leads to action.

Ryan: Mark was a sign of protection — Jehovah showed mercy even to a murderer; connects to Ex 34:6 — slow to anger, merciful, loyal love.

UNITS 2-9 — WEEKS 5-36: ALL REMAINING LECTURES

Days 21–180 • Complete Teaching Outlines with Full Application Questions

SAY THIS TO REMIND THEM: “Remember — Abel offered with faith and a right heart; Cain’s heart was wrong (1 John 3:12). Jehovah warned Cain kindly, “sin is crouching at the door… you must master it.” Cain refused and murdered Abel.”

WRITE IN YOUR NOTES

- Abel offered with faith and a right heart; Cain’s heart was wrong (1 John 3:12).
- Jehovah warned Cain kindly, “sin is crouching at the door… you must master it.” Cain refused and murdered Abel.
- True worship is from the heart.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Genesis 4:1-16 and Hebrews 11:4: explain why Jehovah approved Abel’s worship but not Cain’s. What does Jehovah’s warning to Cain at Genesis 4:6-7 teach about controlling anger and sin?

Younger-student wording: Cain and Abel both brought gifts to Jehovah (Genesis 4). Why was Abel’s gift accepted and Cain’s was not? What did Jehovah tell Cain to do about his anger?

TEACHER ANSWER KEY (do not read aloud): Abel offered with faith and a right heart; Cain’s heart was wrong (1 John 3:12). Jehovah warned Cain kindly, “sin is crouching at the door… you must master it.” Cain refused and murdered Abel. True worship is from the heart.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Which quality of Jehovah does this lesson show (theme: “God's Loyal Love”)? Give one detail from the account and one way you can imitate him this week.

Younger-student wording: What quality of Jehovah do you see in this lesson (“God's Loyal Love”)? How can you copy it this week?

TEACHER ANSWER KEY (do not read aloud): A quality such as love, justice, patience, faithfulness or wisdom — the lesson theme is “God's Loyal Love”, backed by one detail from Gen 4:1-16; Heb 11:4, and one specific way to imitate Jehovah.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

SCIENCE — Age of the earth — examining both sides (Reader: Kayla)

About 1.8 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let’s begin with Ps 19:1 — The heavens declare Jehovah's glory — science is the study of His handiwork.

Today’s lesson is Age of the earth — examining both sides. Examine both sides of the age of the earth: the Bible’s ‘days’ are long periods, not 24-hour days (Gen 2:4).

Ask you: “State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans.” Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: “Remember — Examine both sides of the age of the earth: the Bible’s ‘days’ are long periods, not 24-hour days (Gen 2:4).”

WRITE IN YOUR NOTES

- Examine both sides of the age of the earth: the Bible’s ‘days’ are long periods, not 24-hour days (Gen 2:4).

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Science — Age of the earth: explain why the Bible’s creative “days” can be understood as long periods rather than 24-hour days. Use Genesis 2:4 and give one reason scientists and the Bible do not have to be in conflict.

Younger-student wording: Science: Genesis calls each creation step a “day.” Some people think the “days” were very long periods of time. Why might that make sense?

TEACHER ANSWER KEY (do not read aloud): Hebrew “yom” can mean a long period; Gen 2:4 calls the whole creative period “the day.” The Bible does not state the earth’s age, so there is no conflict with evidence of an old earth.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Science — “Age of the earth — examining both sides”. Explain the main idea in your own words.

Younger-student wording: Science — “Age of the earth — examining both sides”. In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): Examine both sides of the age of the earth: the Bible’s ‘days’ are long periods, not 24-hour days (Gen 2:4).
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

MATH — Factors and multiples (Reader: Ashelyn)

About 1.8 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let’s begin with Prov 11:1. Jehovah is a God of order — numbers and patterns reflect His perfect design.

Today’s lesson is Factors and multiples. Factors are numbers that multiply to give a product; multiples are the products you get by multiplying by 1, 2, 3…

Let’s try some together:

- List all the factors of 20. → 1, 2, 4, 5, 10, 20
- List all the factors of 40. → 1, 2, 4, 5, 8, 10, 20, 40

Ask you: “State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans.” Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: “Remember — Factors are numbers that multiply to give a product; multiples are the products you get by multiplying by 1, 2, 3…”

WRITE IN YOUR NOTES

- Factors are numbers that multiply to give a product; multiples are the products you get by multiplying by 1, 2, 3…

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Math (Factors and multiples) — solve and show your steps: List all the factors of 30.

Younger-student wording: Math (Factors and multiples) — solve and show your steps: List all the factors of 20.

TEACHER ANSWER KEY (do not read aloud): 1, 2, 3, 5, 6, 10, 15, 30
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Math (Factors and multiples) — solve and show your steps: List all the factors of 28.

Younger-student wording: Math (Factors and multiples) — solve and show your steps: List all the factors of 60.

TEACHER ANSWER KEY (do not read aloud): 1, 2, 4, 7, 14, 28
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

LANGUAGE ARTS — Compound sentences — connecting ideas (Reader: Ryan)

About 1.6 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let's begin with Heb 4:12 — Jehovah authored the most important written communication in history.

Today's lesson is Compound sentences — connecting ideas. A compound sentence joins two independent clauses with a comma and conjunction (for, and, nor, but, or, yet, so): 'Jehovah spoke, and the light appeared.'

Ask you: "State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans." Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: "Remember — A compound sentence joins two independent clauses with a comma and conjunction (for, and, nor, but, or, yet, so): 'Jehovah spoke, and the light appeared.'"

WRITE IN YOUR NOTES

- A compound sentence joins two independent clauses with a comma and conjunction (for, and, nor, but, or, yet, so): ‘Jehovah spoke, and the light appeared.’

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Language arts — “Compound sentences — connecting ideas”. Explain the main idea in your own words.

Younger-student wording: Language arts — “Compound sentences — connecting ideas”. In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): A compound sentence joins two independent clauses with a comma and conjunction (for, and, nor, but, or, yet, so): ‘Jehovah spoke, and the light appeared.’
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Language arts — “Compound sentences — connecting ideas”. Give one example (from Scripture, the lesson, or daily life) and explain why it matters.

Younger-student wording: Language arts: tell one example of “Compound sentences — connecting ideas”.

TEACHER ANSWER KEY (do not read aloud): Any accurate example that fits the idea (A compound sentence joins two independent clauses with a comma and conjunction (for, and, nor, but, or, yet, so): ‘Jehovah spoke, and the light appeared.’); why it matters: Jehovah authored the most important written communication in history.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

HISTORY — Babylonian Empire — Daniel's prophecy (Reader: Kayla)

About 1.4 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let’s begin with Isa 46:9-10 — History is HIS story — Jehovah has directed events from the beginning.

Let’s review Babylonian Empire — Daniel's prophecy. Babylon destroyed Jerusalem in 607 BCE and exiled Judah, fulfilling Jeremiah’s warnings; Daniel lived in Babylon.

Ask you: “State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans.” Look for depth, evidence

and clear writing.

SAY THIS TO REMIND THEM: “Remember — Babylon destroyed Jerusalem in 607 BCE and exiled Judah, fulfilling Jeremiah’s warnings; Daniel lived in Babylon.”

WRITE IN YOUR NOTES

- Babylon destroyed Jerusalem in 607 BCE and exiled Judah, fulfilling Jeremiah’s warnings; Daniel lived in Babylon.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

History — “Babylonian Empire — Daniel's prophecy”. Explain the main idea in your own words.

Younger-student wording: History — “Babylonian Empire — Daniel's prophecy”. In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): Babylon destroyed Jerusalem in 607 BCE and exiled Judah, fulfilling Jeremiah’s warnings; Daniel lived in Babylon.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

History — “Babylonian Empire — Daniel's prophecy”. Give one example (from Scripture, the lesson, or daily life) and explain why it matters.

Younger-student wording: History: tell one example of “Babylonian Empire — Daniel's prophecy”.

TEACHER ANSWER KEY (do not read aloud): Any accurate example that fits the idea (Babylon destroyed Jerusalem in 607 BCE and exiled Judah, fulfilling Jeremiah’s warnings; Daniel lived in Babylon.); why it matters: History is HIS story — Jehovah has directed events from the beginning.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

WRITING — Sentence variety (Reader: Ashelyn)

About 1.2 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let’s begin with Rev 1:19 — Jehovah communicated His will through written words — writing is a sacred skill.

Today’s lesson is Sentence variety. Sentence variety: mix short, medium and long sentences and different beginnings.

Ask you: “State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans.” Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: “Remember — Sentence variety: mix short, medium and long sentences and different beginnings.”

WRITE IN YOUR NOTES

- Sentence variety: mix short, medium and long sentences and different beginnings.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Writing — “Sentence variety”. Explain the main idea in your own words.

Younger-student wording: Writing — “Sentence variety”. In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): Sentence variety: mix short, medium and long sentences and different beginnings.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Writing — “Sentence variety”. Give one example (from Scripture, the lesson, or daily life) and explain why it matters.

Younger-student wording: Writing: tell one example of “Sentence variety”.

TEACHER ANSWER KEY (do not read aloud): Any accurate example that fits the idea (Sentence variety: mix short, medium and long sentences and different beginnings.); why it matters: Jehovah communicated His will through written words — writing is a sacred skill.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

Day 13 — Thursday, October 22

BIBLE — Why True Worship Matters (Reader: Kayla)

About 3.5 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open your Bible to: Gen 5:21-24; Heb 11:5; Jude 14-15

HOOK

Say: 'Imagine being so close to Jehovah that He simply took you from this life without your seeing death. That is how the Bible describes one man.' **Ask them:** What do you think it means to ‘walk with God’?

TEACH

1. Enoch lived in a world turning away from Jehovah and still walked with Him. 2. Heb 11:5 — he had the witness that he pleased God. 3. Jude 14-15 — he boldly warned the ungodly. **Ask them:** Who around you walks with Jehovah every day, and what does it look like?

QUESTIONS

Mykah: What does it mean to ‘walk with Jehovah’? Name one thing you do each day to stay close to Him.

Ashelyn: Enoch spoke boldly about Jehovah’s judgment even though most people ignored him (Jude 14-15). What made it possible for him to keep walking with Jehovah in a corrupt world? Write 3 sentences.

Kayla: Heb 11:5 says Enoch ‘had the witness that he pleased God well.’ What actions could have given him that witness? Compare to Micah 6:8.

Ryan: Enoch’s prophecy in Jude 14-15 is not recorded in Genesis. What does this tell us about the reliability of Jude’s information, and how does it support the inspiration of the Bible (2 Tim 3:16)?

KEY

Mykah: Prayer, Bible reading, obeying parents – celebrate any sincere answer.

Ashelyn: He had faith, regular communication with Jehovah, and loyalty over popularity. Look for specific, reasoned answers.

Kayla: Faith, obedience, justice, loyalty, humility – any with scripture support.

Ryan: Jude was inspired by holy spirit and drew on accurate sources; the Bible's authors had access beyond Genesis.

SAY THIS TO REMIND THEM: "Remember — Enoch pleased Jehovah by faith and did not see death; he lived in harmony with Jehovah's will daily, and warned the ungodly (Jude 14-15). Walking with God means obeying, praying, and speaking up for what is right even when others do not."

WRITE IN YOUR NOTES

- Enoch pleased Jehovah by faith and did not see death; he lived in harmony with Jehovah's will daily, and warned the ungodly (Jude 14-15).
- Walking with God means obeying, praying, and speaking up for what is right even when others do not.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Genesis 5:21-24, Hebrews 11:5 and Jude 14-15: what do we learn about Enoch, and what does it mean to "walk with the true God"? Why did Enoch need courage to speak Jehovah's message to a wicked world?

Younger-student wording: Enoch is one of the few men in Genesis 5 who "walked with the true God." What did walking with God mean for Enoch? How can you do it today?

TEACHER ANSWER KEY (do not read aloud): Enoch pleased Jehovah by faith and did not see death; he lived in harmony with Jehovah's will daily, and warned the ungodly (Jude 14-15). Walking with God means obeying, praying, and speaking up for what is right even when others do not.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Which quality of Jehovah does this lesson show (theme: "Serving Jehovah Whole-Souled")? Give one detail from the account and one way you can imitate him this week.

Younger-student wording: What quality of Jehovah do you see in this lesson ("Serving Jehovah Whole-Souled")? How can you copy it this week?

TEACHER ANSWER KEY (do not read aloud): A quality such as love, justice, patience, faithfulness or wisdom — the lesson theme is "Serving Jehovah Whole-Souled", backed by one detail from John 4:23-24; Rom 12:1, and one specific way to imitate Jehovah.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

SCIENCE — Fossils — what do they prove? (Reader: Ashelyn)

About 1.6 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let's begin with Ps 19:1 — The heavens declare Jehovah's glory — science is the study of His handiwork.

Today's lesson is Fossils — what do they prove?. Fossils show that creatures appeared abruptly and remained largely unchanged within their kinds.

Ask you: "State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans." Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: "Remember — Fossils show that creatures appeared abruptly and remained largely unchanged within their kinds."

WRITE IN YOUR NOTES

- Fossils show that creatures appeared abruptly and remained largely unchanged within their kinds.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Science — Fossils: explain what a fossil is and what the fossil record shows about the appearance of living things. Why does this support the Bible's statement that creatures appear "according to their kinds"?

Younger-student wording: Science: A fossil is a clue left in rock from a plant or animal long ago. What do many fossils show about how living things looked in the past?

TEACHER ANSWER KEY (do not read aloud): Fossils are preserved remains/impressions. The record shows groups appearing abruptly and staying basically the same, with gaps between kinds, matching Gen 1:21-25.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Science — "Fossils — what do they prove?". Explain the main idea in your own words.

Younger-student wording: Science — "Fossils — what do they prove?". In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): Fossils show that creatures appeared abruptly and remained largely unchanged within their kinds.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

MATH — Factors and multiples (Reader: Ryan)

About 1.8 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let's begin with Prov 11:1. Jehovah is a God of order — numbers and patterns reflect His perfect design.

Quick recap of yesterday's idea (Factors and multiples): Factors are numbers that multiply to give a product; multiples are the products you get by multiplying by 1, 2, 3…

Let's try some together:

- List all the factors of 18. → 1, 2, 3, 6, 9, 18
- List all the factors of 24. → 1, 2, 3, 4, 6, 8, 12, 24

Ask you: "State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans." Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: "Remember — Factors are numbers that multiply to give a product; multiples are the products you get by multiplying by 1, 2, 3…"

WRITE IN YOUR NOTES

- Factors are numbers that multiply to give a product; multiples are the products you get by multiplying by 1, 2, 3…

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Math (Factors and multiples) — solve and show your steps: List all the factors of 30.

Younger-student wording: Math (Factors and multiples) — solve and show your steps: List all the factors of 20.

TEACHER ANSWER KEY (do not read aloud): 1, 2, 3, 5, 6, 10, 15, 30
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Math (Factors and multiples) — solve and show your steps: List all the factors of 72.

Younger-student wording: Math (Factors and multiples) — solve and show your steps: List all the factors of 60.

TEACHER ANSWER KEY (do not read aloud): 1, 2, 3, 4, 6, 8, 9, 12, 18, 24, 36, 72
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

LANGUAGE ARTS — Compound sentences — connecting ideas (Reader: Kayla)

About 1.6 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let's begin with Heb 4:12 — Jehovah authored the most important written communication in history.

Let's review Compound sentences — connecting ideas. A compound sentence joins two independent clauses with a comma and conjunction (for, and, nor, but, or, yet, so): 'Jehovah spoke, and the light appeared.'

Ask you: "State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans." Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: "Remember — A compound sentence joins two independent clauses with a comma and conjunction (for, and, nor, but, or, yet, so): 'Jehovah spoke, and the light appeared.'"

WRITE IN YOUR NOTES

- A compound sentence joins two independent clauses with a comma and conjunction (for, and, nor, but, or, yet, so): 'Jehovah spoke, and the light appeared.'

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Language arts — "Compound sentences — connecting ideas". Explain the main idea in your own words.

Younger-student wording: Language arts — "Compound sentences — connecting ideas". In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): A compound sentence joins two independent clauses with a comma and conjunction (for, and, nor, but, or, yet, so): 'Jehovah spoke, and the light appeared.'
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Language arts — "Compound sentences — connecting ideas". Give one example (from Scripture, the lesson, or daily life) and explain why it matters.

Younger-student wording: Language arts: tell one example of "Compound sentences — connecting ideas".

TEACHER ANSWER KEY (do not read aloud): Any accurate example that fits the idea (A compound sentence joins two independent clauses with a comma and conjunction (for, and, nor, but, or, yet, so): 'Jehovah spoke, and the light appeared.'); why it matters: Jehovah authored the most important written communication in history.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

HISTORY — Medo-Persian Empire — Cyrus (Reader: Ashelyn)

About 1.4 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let's begin with Isa 46:9-10 — History is HIS story — Jehovah has directed events from the beginning.

Today's lesson is Medo-Persian Empire — Cyrus. Medo-Persia under Cyrus took Babylon in 539 BCE, as Isaiah named Cyrus 200 years earlier (Isa 44:28; 45:1).

Ask you: "State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans." Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: "Remember — Medo-Persia under Cyrus took Babylon in 539 BCE, as Isaiah named Cyrus 200 years earlier (Isa 44:28; 45:1)."

WRITE IN YOUR NOTES

- Medo-Persia under Cyrus took Babylon in 539 BCE, as Isaiah named Cyrus 200 years earlier (Isa 44:28; 45:1).

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

History — “Medo-Persian Empire — Cyrus”. Explain the main idea in your own words.

Younger-student wording: History — “Medo-Persian Empire — Cyrus”. In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): Medo-Persia under Cyrus took Babylon in 539 BCE, as Isaiah named Cyrus 200 years earlier (Isa 44:28; 45:1).
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

History — “Medo-Persian Empire — Cyrus”. Give one example (from Scripture, the lesson, or daily life) and explain why it matters.

Younger-student wording: History: tell one example of “Medo-Persian Empire — Cyrus”.

TEACHER ANSWER KEY (do not read aloud): Any accurate example that fits the idea (Medo-Persia under Cyrus took Babylon in 539 BCE, as Isaiah named Cyrus 200 years earlier (Isa 44:28; 45:1).); why it matters: History is HIS story — Jehovah has directed events from the beginning.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

WRITING — Sentence variety (Reader: Ryan)

About 1.2 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let’s begin with Rev 1:19 — Jehovah communicated His will through written words — writing is a sacred skill.

Let’s review Sentence variety. Sentence variety: mix short, medium and long sentences and different beginnings.

Ask you: “State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans.” Look for depth, evidence and clear writing.

WRITE IN YOUR NOTES

- Sentence variety: mix short, medium and long sentences and different beginnings.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Writing — “Sentence variety”. Explain the main idea in your own words.

Younger-student wording: Writing — “Sentence variety”. In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): Sentence variety: mix short, medium and long sentences and different beginnings.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Writing — “Sentence variety”. Give one example (from Scripture, the lesson, or daily life) and explain why it matters.

Younger-student wording: Writing: tell one example of “Sentence variety”.

TEACHER ANSWER KEY (do not read aloud): Any accurate example that fits the idea (Sentence variety: mix short, medium and long sentences and different beginnings.); why it matters: Jehovah communicated His will through written words — writing is a sacred skill.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

Day 14 — Friday, October 23

BIBLE — From Adam to Noah — Early Chronology (Reader: Ashelyn)

About 2.9 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open your Bible to: Gen 6:1-8, 11-13; Matt 24:37-39

HOOK

Say: 'Imagine the whole earth being so filled with violence that Jehovah says: This must end.' Pause. 'But one man found favor.' **Ask them:** What do you think made Noah different?

TEACH

1. Rebel angels took human wives and produced violent Nephilim (Gen 6:1-4; Jude 6). 2. Every inclination of the heart was bad all day long (Gen 6:5). 3. Noah ‘walked with the true God’ (Gen 6:9). 4. Jesus compared our day to Noah’s (Matt 24:37-39). **Ask them:** What similarities do you see?

QUESTIONS

Mykah: Why was Jehovah sad about the earth in Noah’s day?

Ashelyn: Gen 6:5 says every inclination of man’s heart was bad all the time. What does this tell us about the importance of guarding our thoughts (Phil 4:8)? Give two practical ways.

Kayla: Matt 24:37-39 compares our time to Noah’s. List three similarities and explain what Jesus wants us to do.

Ryan: How do Jude 6 and 2 Pet 2:4 help explain the ‘sons of God’ in Gen 6:2? Why does this matter for understanding why the Flood was necessary?

KEY

Mykah: Violence and wickedness; Jehovah cares about what happens to people.

Ashelyn: Thoughts lead to actions; guard what we watch/listen to, fill mind with good things.

Kayla: Daily life going on, ignoring warnings, violence. Jesus wants us to ‘keep on the watch.’

Ryan: Angels who left their assigned place corrupted mankind, producing violence.

SAY THIS TO REMIND THEM: “Remember — Rebel angels, violent Nephilim, hearts bad all day (6:5). Jehovah saw the earth was ruined.”

WRITE IN YOUR NOTES

- Rebel angels, violent Nephilim, hearts bad all day (6:5).
- Jehovah saw the earth was ruined.
- Noah found favor and walked with God (6:9).

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Genesis 6:1-8, 11-13 and Matthew 24:37-39: describe the condition of the world before the Flood and why Jehovah acted. How did Noah stand out, and what is the warning for us in Jesus’ comparison?

Younger-student wording: Before the Flood, the earth became full of violence (Genesis 6). Why did Jehovah say it had to end? What made Noah different?

TEACHER ANSWER KEY (do not read aloud): Rebel angels, violent Nephilim, hearts bad all day (6:5). Jehovah saw the earth was ruined. Noah found favor and walked with God (6:9). Jesus said our day is like Noah’s — people ignored the warning, so we must stay alert and faithful.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Which quality of Jehovah does this lesson show (theme: “Daily Walking With Jehovah”)? Give one detail from the account and one way you can imitate him this week.

Younger-student wording: What quality of Jehovah do you see in this lesson (“Daily Walking With Jehovah”)? How can you copy it this week?

TEACHER ANSWER KEY (do not read aloud): A quality such as love, justice, patience, faithfulness or wisdom — the lesson theme is “Daily Walking With Jehovah”, backed by one detail from Gen 5:1-32; Heb 11:5, and one specific way to imitate Jehovah.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

SCIENCE — The Cambrian explosion (Reader: Ryan)

About 1.6 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let's begin with Ps 19:1 — The heavens declare Jehovah's glory — science is the study of His handiwork.

Today's lesson is The Cambrian explosion. The fossil record shows animal groups appearing suddenly and fully formed, matching creation 'according to their kinds' (Gen 1:21-25); see "Was Life Created?" on jw.org.

Ask you: "State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans." Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: "Remember — The fossil record shows animal groups appearing suddenly and fully formed, matching creation 'according to their kinds' (Gen 1:21-25); see "Was Life Created?" on jw.org."

WRITE IN YOUR NOTES

- The fossil record shows animal groups appearing suddenly and fully formed, matching creation 'according to their kinds' (Gen 1:21-25); see "Was Life Created?" on jw.org.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Science — "The Cambrian explosion". Explain the main idea in your own words.

Younger-student wording: Science — "The Cambrian explosion". In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): The fossil record shows animal groups appearing suddenly and fully formed, matching creation 'according to their kinds' (Gen 1:21-25); see "Was Life Created?" on jw.org.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Science — "The Cambrian explosion". Give one example (from Scripture, the lesson, or daily life) and explain why it matters.

Younger-student wording: Science: tell one example of "The Cambrian explosion".

TEACHER ANSWER KEY (do not read aloud): Any accurate example that fits the idea (The fossil record shows animal groups appearing suddenly and fully formed, matching creation ‘according to their kinds’ (Gen 1:21-25); see “Was Life Created?” on jw.org.); why it matters: The heavens declare Jehovah's glory — science is the study of His handiwork.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

MATH — Prime and composite numbers (Reader: Kayla)

About 1.9 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let’s begin with Prov 11:1. Jehovah is a God of order — numbers and patterns reflect His perfect design.

Today’s lesson is Prime and composite numbers. A prime number has exactly two factors (1 and itself); a composite number has more than two. 1 is neither.

Let’s try some together:

- Is 18 prime or composite? Explain. → 18 is composite — it is divisible by 2.
- Is 10 prime or composite? Explain. → 10 is composite — it is divisible by 2.

Ask you: “State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans.” Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: “Remember — A prime number has exactly two factors (1 and itself); a composite number has more than two. 1 is neither.”

WRITE IN YOUR NOTES

- A prime number has exactly two factors (1 and itself); a composite number has more than two. 1 is neither.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Math — Prime and composite numbers: classify 23, 35, 51 and 97 as prime or composite and show the factors that prove it. Then explain why 1 is neither.

Younger-student wording: Math: Is 23 prime or composite? Is 35? Tell how you know.

TEACHER ANSWER KEY (do not read aloud): 23 prime; 35 composite (5 × 7); 51 composite (3 × 17); 97 prime. 1 has only one factor so it is neither.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Math (Prime and composite numbers) — solve and show your steps: Is 7 prime or composite? Explain.

Younger-student wording: Math (Prime and composite numbers) — solve and show your steps: Is 21 prime or composite? Explain.

TEACHER ANSWER KEY (do not read aloud): 7 is prime — its only factors are 1 and 7.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

LANGUAGE ARTS — Complex sentences — subordinate clauses (Reader: Ashelyn)

About 1.6 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let's begin with Heb 4:12 — Jehovah authored the most important written communication in history.

Today's lesson is Complex sentences — subordinate clauses. A complex sentence has an independent clause plus a dependent clause beginning with a word like because, when or although: 'When Jehovah spoke, light appeared.'

Ask you: "State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans." Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: "Remember — A complex sentence has an independent clause plus a dependent clause beginning with a word like because, when or although: 'When Jehovah spoke, light appeared.'"

WRITE IN YOUR NOTES

- A complex sentence has an independent clause plus a dependent clause beginning with a word like because, when or although: 'When Jehovah spoke, light appeared.'

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Language arts — “Complex sentences — subordinate clauses”. Explain the main idea in your own words.

Younger-student wording: Language arts — “Complex sentences — subordinate clauses”. In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): A complex sentence has an independent clause plus a dependent clause beginning with a word like because, when or although: ‘When Jehovah spoke, light appeared.’
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Language arts — “Complex sentences — subordinate clauses”. Give one example (from Scripture, the lesson, or daily life) and explain why it matters.

Younger-student wording: Language arts: tell one example of “Complex sentences — subordinate clauses”.

TEACHER ANSWER KEY (do not read aloud): Any accurate example that fits the idea (A complex sentence has an independent clause plus a dependent clause beginning with a word like because, when or although: ‘When Jehovah spoke, light appeared.’); why it matters: Jehovah authored the most important written communication in history.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

HISTORY — Ancient Greece — Daniel 8 (Reader: Ryan)

About 1.5 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let’s begin with Isa 46:9-10 — History is HIS story — Jehovah has directed events from the beginning.

Today’s lesson is Ancient Greece — Daniel 8. Greece under Alexander the Great swiftly conquered the Persian Empire; Daniel 8 pictured the ram and the goat.

Ask you: “State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans.” Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: “Remember — Greece under Alexander the Great swiftly conquered the Persian Empire; Daniel 8 pictured

the ram and the goat.”

WRITE IN YOUR NOTES

- Greece under Alexander the Great swiftly conquered the Persian Empire; Daniel 8 pictured the ram and the goat.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

History — “Ancient Greece — Daniel 8”. Explain the main idea in your own words.

Younger-student wording: History — “Ancient Greece — Daniel 8”. In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): Greece under Alexander the Great swiftly conquered the Persian Empire; Daniel 8 pictured the ram and the goat.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

History — “Ancient Greece — Daniel 8”. Give one example (from Scripture, the lesson, or daily life) and explain why it matters.

Younger-student wording: History: tell one example of “Ancient Greece — Daniel 8”.

TEACHER ANSWER KEY (do not read aloud): Any accurate example that fits the idea (Greece under Alexander the Great swiftly conquered the Persian Empire; Daniel 8 pictured the ram and the goat.); why it matters: History is HIS story — Jehovah has directed events from the beginning.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

WRITING — Show don't tell — vivid language (Reader: Kayla)

About 1.5 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let’s begin with Rev 1:19 — Jehovah communicated His will through written words — writing is a sacred skill.

Today’s lesson is Show don't tell — vivid language. Show, don’t tell: use specific details and senses instead of general statements (‘The room smelled of fresh bread’).

Ask you: “State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans.” Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: “Remember — Show, don’t tell: use specific details and senses instead of general statements (‘The room smelled of fresh bread’).”

WRITE IN YOUR NOTES

- Show, don’t tell: use specific details and senses instead of general statements (‘The room smelled of fresh bread’).

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Writing — “Show don't tell — vivid language”. Explain the main idea in your own words.

Younger-student wording: Writing — “Show don't tell — vivid language”. In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): Show, don’t tell: use specific details and senses instead of general statements (‘The room smelled of fresh bread’).
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Writing — “Show don't tell — vivid language”. Give one example (from Scripture, the lesson, or daily life) and explain why it matters.

Younger-student wording: Writing: tell one example of “Show don't tell — vivid language”.

TEACHER ANSWER KEY (do not read aloud): Any accurate example that fits the idea (Show, don’t tell: use specific details and senses instead of general statements (‘The room smelled of fresh bread’).); why it matters: Jehovah communicated His will through written words — writing is a sacred skill.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

Day 15 — Monday, October 26

BIBLE — Week 3 Review + Chronology Project (Reader: Ryan)

About 2.9 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open your Bible to: Gen 6:9-22; Heb 11:7; 2 Pet 2:5

HOOK

Say: 'Imagine your dad telling you to build a ship on dry land, far from the sea, and the weather forecast says nothing.' **Ask them:** How would your neighbors react?

TEACH

1. The ark: about 450 feet long, three decks (Gen 6:14-16). 2. Noah ‘did according to all that God commanded’ (Gen 6:22). 3. He was ‘a preacher of righteousness’ (2 Pet 2:5). **Ask them:** Why was building AND preaching both part of his faith?

QUESTIONS

Mykah: Why did Noah build the ark?

Ashelyn: Heb 11:7 says Noah ‘condemned the world’ by his faith. How did his actions show the world’s wrong course? What could your actions show others?

Kayla: Noah followed the instructions ‘exactly’ (Gen 6:22). Why does Jehovah value detailed obedience? Give an example from your own life.

Ryan: Using Heb 11:7 and 2 Pet 2:5, outline Noah’s mission in three parts: warn, build, preserve. What does this teach about the Christian ministry today?

KEY

Mykah: To obey Jehovah and save his family and animals.

Ashelyn: Faith shows in works; by doing right when others don’t, we show a better way.

Kayla: Complete obedience shows love; Accept personal examples.

Ryan: Warn (preach), build (obey), preserve (family, animals). Today: preach, keep clean, preserve life by Jehovah’s direction.

SAY THIS TO REMIND THEM: “Remember — Noah did all exactly as God commanded (6:22), built for decades and preached as a “preacher of righteousness” (2 Pet 2:5). Faith is shown by works; Jehovah rewards those who obey even when others laugh.”

WRITE IN YOUR NOTES

- Noah did all exactly as God commanded (6:22), built for decades and preached as a “preacher of righteousness” (2 Pet 2:5).
- Faith is shown by works; Jehovah rewards those who obey even when others laugh.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Genesis 6:9-22, Hebrews 11:7 and 2 Peter 2:5: explain how Noah showed faith while building the ark. What made it hard, and what does his example teach us about obeying Jehovah when others do not listen?

Younger-student wording: Jehovah told Noah to build an ark (Genesis 6). What was hard about the job? How did Noah show faith?

TEACHER ANSWER KEY (do not read aloud): Noah did all exactly as God commanded (6:22), built for decades and preached as a “preacher of righteousness” (2 Pet 2:5). Faith is shown by works; Jehovah rewards those who obey even when others laugh.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Which quality of Jehovah does this lesson show (theme: “Child's Choice”)? Give one detail from the account and one way you can imitate him this week.

Younger-student wording: What quality of Jehovah do you see in this lesson (“Child's Choice”)? How can you copy it this week?

TEACHER ANSWER KEY (do not read aloud): A quality such as love, justice, patience, faithfulness or wisdom — the lesson theme is “Child's Choice”, backed by one detail from Gen 3-5, and one specific way to imitate Jehovah.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

SCIENCE — Bird migration — design and navigation (Reader: Kayla)

About 1.6 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let's begin with Ps 19:1 — The heavens declare Jehovah's glory — science is the study of His handiwork.

Today's lesson is Bird migration — design and navigation. Bird migration involves built-in navigation using sun, stars and magnetic fields (Jer 8:7).

Ask you: "State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans." Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: "Remember — Bird migration involves built-in navigation using sun, stars and magnetic fields (Jer 8:7)."

WRITE IN YOUR NOTES

- Bird migration involves built-in navigation using sun, stars and magnetic fields (Jer 8:7).

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Science — Bird migration: describe two ways migrating birds navigate and explain how Jeremiah 8:7 and the design in these birds point to a wise Designer.

Younger-student wording: Science: Some birds fly thousands of miles to a warm place and back again. How do you think they find their way? What does this show about the One who made them?

TEACHER ANSWER KEY (do not read aloud): Sun, stars, Earth's magnetic field, landmarks; built-in instinct. Jer 8:7 — the stork knows its appointed times. Design points to Creator.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Science — "Bird migration — design and navigation". Explain the main idea in your own words.

Younger-student wording: Science — "Bird migration — design and navigation". In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): Bird migration involves built-in navigation using sun, stars and magnetic fields (Jer 8:7).
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

MATH — Prime and composite numbers (Reader: Ashelyn)

About 1.9 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let's begin with Prov 11:1. Jehovah is a God of order — numbers and patterns reflect His perfect design.

Quick recap of yesterday's idea (Prime and composite numbers): A prime number has exactly two factors (1 and itself); a composite number has more than two. 1 is neither.

Let's try some together:

- Is 29 prime or composite? Explain. → 29 is prime — its only factors are 1 and 29.
- Is 13 prime or composite? Explain. → 13 is prime — its only factors are 1 and 13.

Ask you: "State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans." Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: "Remember — A prime number has exactly two factors (1 and itself); a composite number has more than two. 1 is neither."

WRITE IN YOUR NOTES

- A prime number has exactly two factors (1 and itself); a composite number has more than two. 1 is neither.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Math (Prime and composite numbers) — solve and show your steps: Is 49 prime or composite? Explain.

Younger-student wording: Math (Prime and composite numbers) — solve and show your steps: Is 37 prime or composite? Explain.

TEACHER ANSWER KEY (do not read aloud): 49 is composite — it is divisible by 7.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Math (Prime and composite numbers) — solve and show your steps: Is 3 prime or composite? Explain.

Younger-student wording: Math (Prime and composite numbers) — solve and show your steps: Is 11 prime or composite? Explain.

TEACHER ANSWER KEY (do not read aloud): 3 is prime — its only factors are 1 and 3.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

LANGUAGE ARTS — Complex sentences — subordinate clauses (Reader: Ryan)

About 1.6 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let's begin with Heb 4:12 — Jehovah authored the most important written communication in history.

Let's review Complex sentences — subordinate clauses. A complex sentence has an independent clause plus a dependent clause beginning with a word like because, when or although: 'When Jehovah spoke, light appeared.'

Ask you: "State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans." Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: "Remember — A complex sentence has an independent clause plus a dependent clause beginning with a word like because, when or although: 'When Jehovah spoke, light appeared.'"

WRITE IN YOUR NOTES

- A complex sentence has an independent clause plus a dependent clause beginning with a word like because, when or although: 'When Jehovah spoke, light appeared.'

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Language arts — “Complex sentences — subordinate clauses”. Explain the main idea in your own words.

Younger-student wording: Language arts — “Complex sentences — subordinate clauses”. In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): A complex sentence has an independent clause plus a dependent clause beginning with a word like because, when or although: ‘When Jehovah spoke, light appeared.’
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Language arts — “Complex sentences — subordinate clauses”. Give one example (from Scripture, the lesson, or daily life) and explain why it matters.

Younger-student wording: Language arts: tell one example of “Complex sentences — subordinate clauses”.

TEACHER ANSWER KEY (do not read aloud): Any accurate example that fits the idea (A complex sentence has an independent clause plus a dependent clause beginning with a word like because, when or although: ‘When Jehovah spoke, light appeared.’); why it matters: Jehovah authored the most important written communication in history.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

HISTORY — Ancient Greece — Daniel 8 (Reader: Kayla)

About 1.5 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let’s begin with Isa 46:9-10 — History is HIS story — Jehovah has directed events from the beginning.

Let’s review Ancient Greece — Daniel 8. Greece under Alexander the Great swiftly conquered the Persian Empire; Daniel 8 pictured the ram and the goat.

Ask you: “State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans.” Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: “Remember — Greece under Alexander the Great swiftly conquered the Persian Empire; Daniel 8 pictured the ram and the goat.”

WRITE IN YOUR NOTES

- Greece under Alexander the Great swiftly conquered the Persian Empire; Daniel 8 pictured the ram and the goat.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

History — “Ancient Greece — Daniel 8”. Explain the main idea in your own words.

Younger-student wording: History — “Ancient Greece — Daniel 8”. In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): Greece under Alexander the Great swiftly conquered the Persian Empire; Daniel 8 pictured the ram and the goat.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

History — “Ancient Greece — Daniel 8”. Give one example (from Scripture, the lesson, or daily life) and explain why it matters.

Younger-student wording: History: tell one example of “Ancient Greece — Daniel 8”.

TEACHER ANSWER KEY (do not read aloud): Any accurate example that fits the idea (Greece under Alexander the Great swiftly conquered the Persian Empire; Daniel 8 pictured the ram and the goat.); why it matters: History is HIS story — Jehovah has directed events from the beginning.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

WRITING — Show don't tell — vivid language (Reader: Ashelyn)

About 1.5 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let’s begin with Rev 1:19 — Jehovah communicated His will through written words — writing is a sacred skill.

Let’s review Show don't tell — vivid language. Show, don’t tell: use specific details and senses instead of general statements (‘The room smelled of fresh bread’).

Ask you: “State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans.” Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: “Remember — Show, don’t tell: use specific details and senses instead of general statements (‘The

room smelled of fresh bread’).”

WRITE IN YOUR NOTES

- Show, don’t tell: use specific details and senses instead of general statements (‘The room smelled of fresh bread’).

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Writing — “Show don't tell — vivid language”. Explain the main idea in your own words.

Younger-student wording: Writing — “Show don't tell — vivid language”. In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): Show, don’t tell: use specific details and senses instead of general statements (‘The room smelled of fresh bread’).
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Writing — “Show don't tell — vivid language”. Give one example (from Scripture, the lesson, or daily life) and explain why it matters.

Younger-student wording: Writing: tell one example of “Show don't tell — vivid language”.

TEACHER ANSWER KEY (do not read aloud): Any accurate example that fits the idea (Show, don’t tell: use specific details and senses instead of general statements (‘The room smelled of fresh bread’).); why it matters: Jehovah communicated His will through written words — writing is a sacred skill.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

Day 16 — Tuesday, October 27

BIBLE — Noah — Faith in Action (Reader: Kayla)

About 2.9 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open your Bible to: Gen 7:1-16; Matt 24:38-39

HOOK

Say: 'Imagine standing inside a giant ship hearing the animals walk in two by two. And then Jehovah Himself shuts the door.' **Ask them:** Who closed the door and why does that matter?

TEACH

1. Noah's family and the animals entered by Jehovah's command (Gen 7:1-9). 2. After seven days rain began (7:10-12). 3. 'Jehovah shut the door' (7:16) — protection and finality. **Ask them:** What does the closing of the door teach about timing?

QUESTIONS

Mykah: Who shut the door of the ark?

Ashelyn: The people kept eating, drinking and marrying until the Flood came (Matt 24:38-39). Why is ignoring warnings dangerous? Give a modern example.

Kayla: Jehovah gave seven days between the animals boarding and the rain (Gen 7:4,10). What does this tell us about His patience and the opportunity to change?

Ryan: Compare the closing of the ark's door with the 'shut door' in Matt 25:10-12. What lesson about preparedness is shared by both?

KEY

Mykah: Jehovah shut it.

Ashelyn: People had no excuse; we must take warnings seriously.

Kayla: Jehovah is patient (2 Pet 3:9), giving time to repent, but there is a limit.

Ryan: Both stress preparedness: act before the door closes.

SAY THIS TO REMIND THEM: "Remember — Jehovah closed the door (7:16) — he personally protected Noah's family, and the time to

enter had ended. People went on with ordinary life and took no notice (Matt 24:39), so we must act in time and trust Jehovah's protection."

WRITE IN YOUR NOTES

- Jehovah closed the door (7:16) — he personally protected Noah's family, and the time to enter had ended.
- People went on with ordinary life and took no notice (Matt 24:39), so we must act in time and trust Jehovah's protection.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Genesis 7:1-16 and Matthew 24:38-39: explain the meaning of Jehovah shutting the door of the ark, and what Jesus said about people who did not take notice until the Flood came.

Younger-student wording: Genesis 7 says Jehovah himself shut the door of the ark. What does that show about how Jehovah protects people who obey?

TEACHER ANSWER KEY (do not read aloud): Jehovah closed the door (7:16) — he personally protected Noah's family, and the time to enter had ended. People went on with ordinary life and took no notice (Matt 24:39), so we must act in time and trust Jehovah's protection.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Which quality of Jehovah does this lesson show (theme: "Jehovah Is Our Refuge")? Give one detail from the account and one way you can imitate him this week.

Younger-student wording: What quality of Jehovah do you see in this lesson ("Jehovah Is Our Refuge")? How can you copy it this week?

TEACHER ANSWER KEY (do not read aloud): A quality such as love, justice, patience, faithfulness or wisdom — the lesson theme is "Jehovah Is Our Refuge", backed by one detail from Gen 6:1-22; Heb 11:7, and one specific way to imitate Jehovah.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

SCIENCE — Bird migration — design and navigation (Reader: Ashelyn)

About 1.4 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let's begin with Ps 19:1 — The heavens declare Jehovah's glory — science is the study of His handiwork.

Let's review Bird migration — design and navigation. Bird migration involves built-in navigation using sun, stars and magnetic fields (Jer 8:7).

Ask you: "State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans." Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: "Remember — Bird migration involves built-in navigation using sun, stars and magnetic fields (Jer 8:7)."

WRITE IN YOUR NOTES

- Bird migration involves built-in navigation using sun, stars and magnetic fields (Jer 8:7).

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Science — "Bird migration — design and navigation". Explain the main idea in your own words.

Younger-student wording: Science — "Bird migration — design and navigation". In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): Bird migration involves built-in navigation using sun, stars and magnetic fields (Jer 8:7).
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Science — "Bird migration — design and navigation". Give one example (from Scripture, the lesson, or daily life) and explain why it matters.

Younger-student wording: Science: tell one example of "Bird migration — design and navigation".

TEACHER ANSWER KEY (do not read aloud): Any accurate example that fits the idea (Bird migration involves built-in navigation using sun, stars and magnetic fields (Jer 8:7).); why it matters: The heavens declare Jehovah's glory — science is the study of His handiwork.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

MATH — Greatest common factor (Reader: Ryan)

About 1.9 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let's begin with Prov 11:1. Jehovah is a God of order — numbers and patterns reflect His perfect design.

Today's lesson is Greatest common factor. The greatest common factor (GCF) is the largest number that divides evenly into two numbers; use factor lists or prime factorization.

Let's try some together:

- Find the GCF of 8 and 10. → 2
- Find the GCF of 20 and 25. → 5

Ask you: "State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans." Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: "Remember — The greatest common factor (GCF) is the largest number that divides evenly into two numbers; use factor lists or prime factorization."

WRITE IN YOUR NOTES

- The greatest common factor (GCF) is the largest number that divides evenly into two numbers; use factor lists or prime factorization.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Math — Greatest common factor: find the GCF of 24 and 36, and of 28 and 42. Show your list of factors or prime factorization, and explain one way GCF is useful (such as simplifying a fraction).

Younger-student wording: Math: What is the greatest common factor (GCF) of 12 and 18? Show how you found it.

TEACHER ANSWER KEY (do not read aloud): GCF(12,18)=6. GCF(24,36)=12; GCF(28,42)=14. Method: list factors or prime factors, pick the largest shared. Use: simplify fractions, share things into equal groups.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Math (Greatest common factor) — solve and show your steps: Find the GCF of 28 and 56.

Younger-student wording: Math (Greatest common factor) — solve and show your steps: Find the GCF of 21 and 24.

TEACHER ANSWER KEY (do not read aloud): 28
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

LANGUAGE ARTS — Reading comprehension — Proverbs passages (Reader: Kayla)

About 1.6 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let's begin with Heb 4:12 — Jehovah authored the most important written communication in history.

Today's lesson is Reading comprehension — Proverbs passages. Reading comprehension means finding what a passage says, what it means, and how to apply it; Proverbs often uses contrast (Prov 10:1).

Ask you: "State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans." Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: "Remember — Reading comprehension means finding what a passage says, what it means, and how to apply it; Proverbs often uses contrast (Prov 10:1)."

WRITE IN YOUR NOTES

- Reading comprehension means finding what a passage says, what it means, and how to apply it; Proverbs often uses contrast (Prov 10:1).

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Language arts — “Reading comprehension — Proverbs passages”. Explain the main idea in your own words.

Younger-student wording: Language arts — “Reading comprehension — Proverbs passages”. In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): Reading comprehension means finding what a passage says, what it means, and how to apply it; Proverbs often uses contrast (Prov 10:1).
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Language arts — “Reading comprehension — Proverbs passages”. Give one example (from Scripture, the lesson, or daily life) and explain why it matters.

Younger-student wording: Language arts: tell one example of “Reading comprehension — Proverbs passages”.

TEACHER ANSWER KEY (do not read aloud): Any accurate example that fits the idea (Reading comprehension means finding what a passage says, what it means, and how to apply it; Proverbs often uses contrast (Prov 10:1).); why it matters: Jehovah authored the most important written communication in history.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

HISTORY — Rome — the fourth world power (Reader: Ashelyn)

About 1.6 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let’s begin with Isa 46:9-10 — History is HIS story — Jehovah has directed events from the beginning.

Today’s lesson is Rome — the fourth world power. Rome rose as the sixth world power (Rev 17:10); Roman roads and law shaped the world of the first century.

Ask you: “State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans.” Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: “Remember — Rome rose as the sixth world power (Rev 17:10); Roman roads and law shaped the world of the first century.”

WRITE IN YOUR NOTES

- Rome rose as the sixth world power (Rev 17:10); Roman roads and law shaped the world of the first century.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

History — “Rome — the fourth world power”. Explain the main idea in your own words.

Younger-student wording: History — “Rome — the fourth world power”. In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): Rome rose as the sixth world power (Rev 17:10); Roman roads and law shaped the world of the first century.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

History — “Rome — the fourth world power”. Give one example (from Scripture, the lesson, or daily life) and explain why it matters.

Younger-student wording: History: tell one example of “Rome — the fourth world power”.

TEACHER ANSWER KEY (do not read aloud): Any accurate example that fits the idea (Rome rose as the sixth world power (Rev 17:10); Roman roads and law shaped the world of the first century.); why it matters: History is HIS story — Jehovah has directed events from the beginning.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

WRITING — Word choice — precision and clarity (Reader: Ryan)

About 1.4 minutes to read aloud — this lesson is short; add your own examples, scriptures and questions to stretch it to 5–10 minutes

Open: Let’s begin with Rev 1:19 — Jehovah communicated His will through written words — writing is a sacred skill.

Today’s lesson is Word choice — precision and clarity. Precise words are clearer than vague ones: ‘sprinted’ beats ‘went fast’.

Ask you: “State the concept precisely, evaluate its strengths and limits, and connect it to another subject or to your future plans.” Look for depth, evidence and clear writing.

SAY THIS TO REMIND THEM: “Remember — Precise words are clearer than vague ones: ‘sprinted’ beats ‘went fast’.”

WRITE IN YOUR NOTES

- Precise words are clearer than vague ones: ‘sprinted’ beats ‘went fast’.

QUIZ QUESTION — ask it out loud, or they answer it in the Google Form

QUESTION 1 of 2 — the same question is in the app and the Google Form

Writing — “Word choice — precision and clarity”. Explain the main idea in your own words.

Younger-student wording: Writing — “Word choice — precision and clarity”. In your own words, tell what you learned.

TEACHER ANSWER KEY (do not read aloud): Precise words are clearer than vague ones: ‘sprinted’ beats ‘went fast’.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

QUESTION 2 of 2

Writing — “Word choice — precision and clarity”. Give one example (from Scripture, the lesson, or daily life) and explain why it matters.

Younger-student wording: Writing: tell one example of “Word choice — precision and clarity”.

TEACHER ANSWER KEY (do not read aloud): Any accurate example that fits the idea (Precise words are clearer than vague ones: ‘sprinted’ beats ‘went fast’.); why it matters: Jehovah communicated His will through written words — writing is a sacred skill.
Look for: the main idea in their own words, one example, and a complete sentence or two. Younger children may draw it and tell you.

Researched Manuscript - Days 17-19

Each class lists its sources (VERIFIED = I opened the page; NOT OPENED = from memory or your document, please check; STANDARD KNOWLEDGE = common knowledge). Then the talk for each child or group, with the answer to say out loud in yellow, then the questions and the answer key at that level.

Day 17 — Wednesday, October 28

BIBLE - The Flood and Jehovah's Faithfulness (Genesis 7–8; 2 Peter 2:5)

SOURCES AND VERIFICATION

VERIFIED: Genesis 8:1, 15–16, 20–22 read in the American Standard Version (the one that uses "Jehovah").
Link: https://www.biblestudytools.com/asv/genesis/8.html

NOT OPENED: Genesis 7, Hebrews 11:7 and 2 Peter 2:5 are from my knowledge of the Bible; I could not open the New World Translation on wol.jw.org from here. Please read these three in your own NWT before class and tell me if any wording differs.

FOR RYAN AND KAYLA / ASHELYN — Ryan, Kayla and Ashelyn (about 776 words, 5.2 min aloud)

Open your Bibles to Genesis chapter 7. Last time we learned how bad the world had become. Violence filled the earth, and Jehovah told Noah to build an ark and warn the people. Today we see the end of that story, and I want you to listen for two things: how the Flood showed Jehovah's justice, and how it showed his faithfulness to people who obey him.

Chapter 7 tells us that Noah did exactly what Jehovah commanded. He went into the ark with his wife, his three sons and their three wives. That makes eight people. The apostle Peter agrees. At 2 Peter 2:5 he says that Jehovah did not hold back from punishing the ancient world, but he preserved Noah, a preacher of righteousness, along with seven others. Eight people in total. Write that down: eight people were preserved.

Now think about justice. Justice does not mean getting even. It means doing what is right and fair. For years Noah warned people, and they ignored him. The earth was ruined by violence, so ending that wickedness protected everything that was good. The animals were saved too, because Jehovah told Noah to bring them in. So the Flood destroyed the wicked, and it also kept safe those who listened. That is justice with mercy inside it.

Then the rain came. Genesis tells us the waters rose and covered the mountains, and everything outside the ark that breathed on dry land died. The ark floated. Jehovah himself shut the door. Imagine being inside, hearing the rain for days. Noah could have been afraid. But Hebrews 11:7 says that Noah,

because of faith, built the ark and saved his household. His obedience was not just a feeling; it was work, year after year.

Here is the part many people skip. Genesis 8 verse 1 says, in the version I read, “And God remembered Noah, and all the beasts, and all the cattle that were with him in the ark.” Does “remembered” mean Jehovah had forgotten? No. In the Bible, when God remembers someone, it means he acts for them. Jehovah sent a wind over the earth and the waters went down. After months, the ark came to rest. Noah sent out a raven and then a dove. The dove came back with an olive leaf, and Noah knew the water was going away. He waited until Jehovah said, “Go forth from the ark” (verse 16). Noah did not leave on his own. He waited for Jehovah’s word. Notice that: he obeyed going in and he obeyed coming out.

ANSWER 1 TO SAY OUT LOUD: Stop and put the first answer into words. The Flood showed Jehovah’s justice because he ended the violence and wickedness that was ruining the earth. It showed his faithfulness because he kept Noah and his family of eight safe, and he remembered them, which means he acted for them, until the water was gone.

Now the question about Noah’s heart. What was the very first thing Noah did when his feet touched dry ground? Genesis 8 verse 20 says Noah built an altar to Jehovah and offered burnt sacrifices of clean animals. He did not build a house. He did not look for food first. He thanked Jehovah. His first act was worship and gratitude.

Verse 21 says Jehovah smelled the pleasing aroma and said in his heart that he would never again curse the ground or strike down everything living the way he had done. Jehovah noticed Noah’s thankful heart and answered with a promise. Verse 22 says that as long as the earth remains, seedtime and harvest, cold and heat, summer and winter, day and night will not stop. So the seasons you enjoy are a reminder of that promise. Every harvest we eat is a small proof that Jehovah keeps his word.

ANSWER 2 TO SAY OUT LOUD: So here is the answer to the second part. Noah’s first act, building the altar, shows that his heart was thankful and that putting Jehovah first mattered more to him than

comfort. He took time to thank Jehovah before he did anything for himself.

Let’s bring it home. Which quality of Jehovah did you hear in this lesson? Faithfulness. He did what he said he would do. And justice. He stopped what was ruining the earth. A quality you can copy this week is faithfulness: keeping a promise you made, even a small one, even when it is inconvenient. Another is gratitude: before you start your day’s fun, take a moment to say thank you to Jehovah in prayer, like Noah did at the altar. When you write your answers, say what happened, what it shows about Jehovah, and one thing you will do.

Question 1 (Ryan and Kayla / Ashelyn): Genesis 7–8 and 2 Peter 2:5: explain how the Flood showed Jehovah’s justice and his faithfulness to those who obeyed. What does Noah’s first act after the Flood (Gen 8:20) show about his heart?

TEACHER ANSWER KEY: Justice: Jehovah ended the violence and wickedness that ruined the earth. Faithfulness: he preserved Noah and seven others (eight people, 2 Pet 2:5) and “remembered” them (8:1), acting until the water was gone. Gen 8:20: Noah built an altar and offered sacrifice first, showing a thankful heart that put worship before comfort.
Look for: their own words and the key points above. Do not require my exact wording.

Question 2 (Ryan and Kayla / Ashelyn): Name one thing Noah did that showed faith (Heb 11:7; Gen 7:5; 8:15–16), and one specific way you can copy Noah or imitate Jehovah this week.

TEACHER ANSWER KEY: Accept any: built the ark / warned people / entered when told / waited for Jehovah’s word before leaving. Then a specific action the child names (for example keeping a promise, or thanking Jehovah in prayer first thing).
Look for: their own words and the key points above. Do not require my exact wording.

MULTIPLE CHOICE (circle one) — Ryan and Kayla / Ashelyn

How many people did Jehovah preserve through the Flood, according to 2 Peter 2:5?

A. 2
B. 4
C. 8
D. 12

TEACHER ANSWER KEY: C. Noah and seven others: eight people (2 Peter 2:5; Genesis 7). Check the verse in your NWT.

FLAG: 2 Peter 2:5 and Hebrews 11:7 not opened in NWT. Wording above is my paraphrase. Check before class.

FLAG: “God remembered” meaning “acted for” is a standard Bible-dictionary explanation but I did not open a JW source for it. If you want it sourced, look up “Remember” in the Insight book on wol.jw.org.

FLAG: Mykah’s simple version of this lesson has not been written yet; the Mykah quiz uses the older general questions.

SCIENCE - Echolocation: how bats and dolphins “see” with sound

SOURCES AND VERIFICATION

VERIFIED: Physics Today, “Echolocation in dolphins and bats”: dolphin clicks (40–70 microseconds), bat calls (10–150 kHz), echo delay gives distance, dolphin signals carry far more energy and sound is absorbed far more in air than in water.
Link: https://physicstoday.aip.org/features/echolocation-in-dolphins-and-bats

NOT OPENED: I did NOT find or open a source showing engineers directly copied bats or dolphins to invent sonar and radar. The old question said they did. I changed the question below. The “design points to a Designer” conclusion is a faith conclusion, not something that article says.

FOR RYAN AND KAYLA / ASHELYN — Ryan, Kayla and Ashelyn (about 862 words, 5.7 min aloud)

Today’s science lesson is about a sense you do not have but some animals do. Close your eyes for a second. Now imagine finding your way through a dark cave at full speed without touching a wall. Bats do that, and dolphins do something similar underwater. The word is echolocation. Echo, like the sound that bounces back. Location, finding where something is. Write down: echolocation means finding things by listening to echoes.

Here is the basic idea. The animal makes a sound. The sound travels out, hits something, and part of it bounces back. The animal listens for that echo. Two things tell it a lot. First, how long the echo took to come back. A short wait means the object is near; a longer wait means it is far away. Second, what the echo sounds like. Different shapes and sizes bounce sound differently, so the echo carries information about the object.

Let’s start with bats. A bat makes its calls in its throat, in the larynx, and sends them out through its mouth or nose. The calls are very high-pitched, so high that people cannot hear most of them. Depending on the species, bats use sounds from about 10 kilohertz up to about 150 kilohertz. For comparison, most adults hear up to about 15 or 20 kilohertz at best. A big brown bat’s call

sweeps from a higher pitch to a lower one, from about 55 kilohertz down to 22, like a slide whistle going down. When a bat is searching, it makes about five to ten calls every second. When it closes in on an insect, the calls get shorter and faster, the way you look more carefully when you are close to something.

How good are they? In tests, big brown bats could notice a ball smaller than a pea, about 5 millimeters across, at a distance of a few meters, and they could tell apart objects whose surface depth differed by about six tenths of one millimeter. That is thinner than a pencil lead.

Now dolphins. A dolphin makes short clicks, each lasting only a fraction of a thousandth of a second. The clicks are produced by air moving past special lips near the blowhole, and a fatty lump in the forehead called the melon helps aim the sound into a narrow beam, like a flashlight for sound. Dolphin clicks can be extremely loud and very high-pitched, over 100 kilohertz.

Here is something interesting. The dolphin’s beam is narrow and strong. A bat’s beam is wide, from about 30 degrees to as much as 120 degrees. So the dolphin is like a flashlight, and the bat is like a lantern.

ANSWER 1 TO SAY OUT LOUD: Let me say the main answer clearly so you can write it. Bats and dolphins send out pulses of sound and listen to the echoes. The time the echo takes tells them the distance. The sound of the echo tells them about size, shape and movement. People use the same basic idea in sonar for ships and in radar, which sends radio waves instead of sound. Careful, though: I want you to say it exactly this way. Sonar and radar use the same principle. I am not telling you that engineers copied the animals, because I could not confirm that in the source I checked.

Now a question people ask. Why can a dolphin sense things so much farther away than a bat can? Think about it. Sound in air gets soaked up much faster than sound in water. The research says air absorbs sound about a hundred times more than water at these pitches. And dolphin clicks carry far more energy than bat calls. So the dolphin’s sound travels a long way underwater. The bat has less range, but it makes up for it by flying fast and calling many times a second.

ANSWER 2 TO SAY OUT LOUD: So the answer to the second question: a dolphin can detect things farther away because sound travels much farther in water than in air, since air absorbs it far more, and because dolphin clicks are much more powerful.

Let's talk about what this means. Nobody here is born able to do echolocation. It takes a body built with a special voice, special ears, and a brain that can instantly work out distance and shape. Many scientists describe these as examples of design. Some say the similar sonar in bats and dolphins evolved separately in each. Here is how we think about it as a family. We look at the evidence together. The evidence is that this system is complex, it works precisely, and it solves a real problem. A system that complex, with the parts needed all together, is the kind of thing we ordinarily say someone designed. That is our conclusion, and it is a conclusion we reach from reasoning, not something the article itself says. When you write, keep those separate: first say what the facts are, then say what you think they suggest.

To finish, tell me in a sentence: how does a bat find a mosquito in the dark? It sends a sound, listens for the echo, and the timing and sound of the echo tell where the insect is.

Question 1 (Ryan and Kayla / Ashelyn): Echolocation: explain how bats and dolphins use sound to find objects. What do people use the same idea for? What do you think this suggests, and why?

TEACHER ANSWER KEY: They send out sound pulses and listen to the echo. Echo delay gives distance; echo quality gives size, shape and movement. The same principle is used in sonar and radar. (Do not require "engineers copied animals.") Opinion part: the design is complex and precise, which suggests a designer. Accept a reasoned answer; the child should separate facts from conclusion.
Look for: their own words and the key points above. Do not require my exact wording.

Question 2 (Ryan and Kayla / Ashelyn): Why can a dolphin sense objects farther away than a bat can?

TEACHER ANSWER KEY: Sound loses much less energy in water than in air (air absorbs it far more), and dolphin clicks are far more powerful than bat calls.
Look for: their own words and the key points above. Do not require my exact wording.

FLAG: Changed the old question: it said engineers copy this design. I could not find a source for that.

FLAG: Numbers come from Physics Today (published by the American Institute of Physics). The “about a hundred times” figure is from that article (“about two orders of magnitude”).

FLAG: Evolution vs. design: the article treats echolocation as evolved. Our lesson’s conclusion is a belief. The script labels it that way. You decide whether to keep that section.

FLAG: Mykah’s simple version of this lesson has not been written yet; the Mykah quiz uses the older general questions.

MATH - Greatest common factor (GCF)

SOURCES AND VERIFICATION

STANDARD KNOWLEDGE: This is arithmetic. I checked every answer with a computer (Python’s gcd). Sources I tried: the Virtual Nerd page only gives the definition and keeps the steps in a video I could not open, so I did not rely on it.
Link: https://virtualnerd.com/common-core/grade-6/6_NS-number-system/B/4/greatest-common-factor-two-numbers-example

FOR RYAN AND KAYLA / ASHELYN — Ryan, Kayla and Ashelyn (about 515 words, 3.4 min aloud)

A factor is a number that divides another number with nothing left over. The factors of 12 are 1, 2, 3, 4, 6 and 12. Say it with me: a factor goes into the number evenly.

Today we find the greatest common factor, the GCF. Break it into three words. Factor: it divides evenly. Common: it works for both numbers. Greatest: it is the biggest one that works for both. So the GCF is the biggest number that divides evenly into both numbers.

Why would anyone need this? Say you have 30 cookies and 20 granola bars and want to make identical snack bags with nothing left over. The most bags you can make is the GCF. The GCF also helps simplify fractions, which you will do constantly.

Method one: list the factors. Let’s do 12 and 18. Factors of 12: 1, 2, 3, 4, 6, 12. Factors of 18: 1, 2, 3, 6, 9, 18. Circle the ones in both lists: 1, 2, 3 and 6. The greatest is 6. So the GCF of 12 and 18 is 6. Check it: 12 divided by 6 is 2, and 18 divided by 6 is 3. Both come out even. And nothing bigger than 6 works for both.

Method two, for bigger numbers: prime factors. Take 24 and 36. 24 is 2 times 2 times 2 times 3. 36 is 2 times 2 times 3 times 3. What do they share? Two 2s and one 3. Multiply what they share: 2 times 2 times 3 is 12. So the GCF of 24 and 36 is 12. I checked these with a computer: 12 and 18 gives 6, and 24 and 36 gives 12.

Now do our two questions with me. Number one: the GCF of 30 and 20. Factors of 30: 1, 2, 3, 5, 6, 10, 15, 30. Factors of 20: 1, 2, 4, 5, 10, 20. They share 1, 2, 5 and 10. The greatest is 10.

ANSWER 1 TO SAY OUT LOUD: The answer to the first question is 10. Prime check: 30 is 2 times 3 times 5. 20 is 2 times 2 times 5. They share a 2 and a 5. 2 times 5 is 10. Same answer, so we trust it.

Number two: the GCF of 9 and 15. Factors of 9: 1, 3, 9. Factors of 15: 1, 3, 5, 15. They share 1 and 3.

ANSWER 2 TO SAY OUT LOUD: The answer is 3. Prime check: 9 is 3 times 3, 15 is 3 times 5, they share one 3.

Common mistakes. One: finding a common multiple instead of a factor. Factors are small; multiples get big. The GCF can never be larger than the smaller number. Two: stopping at the first common factor. 1 is always common, but it is rarely the greatest. Three: forgetting that a number is a factor of itself. For 9 and 18 the GCF is 9, because 9 goes into itself and into 18.

When you write your answers, show the lists or the prime factors, circle what they share, and write the final number. Showing the steps is what earns the points.

Question 1 (Ryan and Kayla / Ashelyn): Math (Greatest common factor): find the GCF of 30 and 20. Show your steps.

TEACHER ANSWER KEY: 10 (factors 1,2,5,10 shared; or 2×5)
Look for: their own words and the key points above. Do not require my exact wording.

Question 2 (Ryan and Kayla / Ashelyn): Math (Greatest common factor): find the GCF of 9 and 15. Show your steps.

TEACHER ANSWER KEY: 3 (shared factors 1 and 3)
Look for: their own words and the key points above. Do not require my exact wording.

FLAG: Answers computed by program: gcd(30,20)=10; gcd(9,15)=3; examples gcd(12,18)=6, gcd(24,36)=12.

FLAG: Mykah's simple version of this lesson has not been written yet; the Mykah quiz uses the older general questions.

LANGUAGE ARTS - Reading comprehension with Proverbs

SOURCES AND VERIFICATION

STANDARD KNOWLEDGE: Contrast in Proverbs (a "wise" line set against a "foolish" line) is a standard feature of Hebrew poetry. I did not open a source for it. Proverbs 10:1 and 15:1 wording below is my paraphrase; read them from your own Bible.
Link: https://biblicalhebrew.org/hebrew-parallelism-synonymous-antithetical-and-synthetic-structures-in-biblical-poetry.aspx

FOR RYAN AND KAYLA / ASHELYN — Ryan, Kayla and Ashelyn (about 473 words, 3.2 min aloud)

Reading comprehension means understanding what you read, not only saying the words. A short passage can hold a lot, and Proverbs is perfect for practicing because each saying is short and packed.

Use three questions every time. One: what does it say? Put it in your own words. Two: what does it mean? Why would it be true? Three: how can I use it? Today's two questions follow that pattern.

First, a trick for Proverbs. Many proverbs are built as a contrast. The first half says one thing, then a little word like "but" turns it around to say the opposite. When you see "but," stop and ask: what two things are being compared? Wise against foolish. Kind against harsh. Hardworking against lazy.

Open to Proverbs 10, verse 1. In most Bibles it says something like: a wise son makes a father rejoice, but a foolish son is a grief to his mother. Read it from your own Bible. Now ask question one. What does it say? Wise children bring joy; foolish children bring sorrow. What two things are compared? A wise son and a foolish son, and the result is rejoicing against grief.

Question two. What does it mean? Our choices affect the people who love us. When you act wisely, your parents feel joy. When you act foolishly, they feel pain. Question three. How can I use it? Pick one choice this week that will make your parents glad, like finishing your work without being reminded.

ANSWER 1 TO SAY OUT LOUD: So for the first question, the answer: the passage compares a wise son and a foolish son. It means our wise or foolish choices bring joy or sorrow to our parents, and I can apply it by making one wise choice this week.

Next, Proverbs 15, verse 1. A mild answer turns away rage, but a harsh word stirs up anger. What does it say? A gentle reply calms a person down; a harsh one makes the anger worse. The contrast is mild against harsh, calming against stirring up.

What does it mean? The tone of your answer can change a whole argument. Picture a brother yelling, “Give that back!” You can shout back, and now there is a fight. Or you can say calmly, “I’m almost done, you can have it in two minutes.” Same disagreement, different ending.

ANSWER 2 TO SAY OUT LOUD: So the second answer: Proverbs 15:1 shows that a gentle reply can calm anger, while a harsh reply makes it grow. A real example is answering a frustrated sibling calmly instead of yelling.

One last skill: find the main idea, then support it. A good answer sentence names the verse, says the idea, and gives an example. For instance: “Proverbs 15:1 teaches that a gentle answer calms anger. For example, when my sister was upset, I spoke quietly and she calmed down.” Write yours like that.

Question 1 (Ryan and Kayla / Ashelyn): Read Proverbs 10:1 in your Bible. What two things are being compared, and what does the saying mean? How can you apply it this week?

TEACHER ANSWER KEY: Wise son vs foolish son; joy vs grief to parents. Our choices affect those who love us. Any specific wise choice as the application.
Look for: their own words and the key points above. Do not require my exact wording.

Question 2 (Ryan and Kayla / Ashelyn): Read Proverbs 15:1. Explain what it teaches and give a real example of when it would help.

TEACHER ANSWER KEY: A gentle (mild) answer turns away anger; a harsh word stirs it up. Example: answering a frustrated person calmly instead of arguing back.
Look for: their own words and the key points above. Do not require my exact wording.

FLAG: Proverbs wording is paraphrased. Read 10:1 and 15:1 from your NWT before class; the NWT wording may use different words, but the ideas are the same.

FLAG: Mykah's simple version of this lesson has not been written yet; the Mykah quiz uses the older general questions.

HISTORY - The Roman Empire and the spread of early Christianity

SOURCES AND VERIFICATION

VERIFIED: The Watchtower (study edition), February 15, 2015, "Preparing the Nations for 'the Teaching of Jehovah'," pp. 19–23: Roman roads (over 50,000 miles), rivers and sea routes, safe travel under Roman rule, Koine Greek and the Septuagint, Roman law protecting citizens like Paul, Sergius Paulus (Acts 13:6–12), the good news preached "in all creation under heaven" (Col 1:23).

Link: https://wol.jw.org/en/wol/d/r1/lp-e/2015127

FOR RYAN AND KAYLA / ASHELYN — Ryan, Kayla and Ashelyn (about 614 words, 4.1 min aloud)

Today we answer a big question: how did a small group of disciples from one corner of the Roman Empire reach people in many countries within a single lifetime? We have a good source for this: The Watchtower, February 15, 2015, in the article "Preparing the Nations for 'the Teaching of Jehovah.'" Listen for the reasons.

Reason one: roads. The Romans built roads to move soldiers fast. The article says the empire had over 50,000 miles of roads linking nearly every province. There were also about 17,000 miles of rivers and canals Romans used, and hundreds of sea routes between ports. In those days nobody needed a passport or a visa to travel inside the empire. So a Christian could walk or sail from one city to another.

Reason two: peace and safety. For a long stretch of time the empire was relatively peaceful, often called the Pax Romana, meaning "Roman peace." The article explains that Rome punished outlaws and had navies that kept the sea lanes safer. Travel was much safer than before. Think of Paul's journeys. He crossed seas and walked road after road, preaching in city after city.

Reason three: a common language. Alexander the Great's conquests spread Greek across the region, so a simple everyday form called Koine Greek was understood almost everywhere. Because of this, the disciples could talk to many kinds of people without needing a translator, and the New Testament itself was written in that Greek. There was also a Greek translation of the

Hebrew Scriptures called the Septuagint, which many people already knew. The early Christians quoted it often. Greek also had a rich vocabulary that helped explain spiritual matters.

Reason four: law. Roman law protected citizens. Paul, a Roman citizen, could appeal to Caesar and be treated according to the law. Also, Jewish communities lived in many cities, so many non-Jews already knew something of the Hebrew Scriptures.

ANSWER 1 TO SAY OUT LOUD: Let me say the answer to the first question so you can write it. The Roman Empire helped the early Christians spread the good news through its roads and sea routes, its relative peace and safe travel, its common Greek language, and its laws that protected citizens. All of these made it easier for the disciples to travel and be understood.

Now an example from Scripture. Turn to Acts 13, verses 6 to 12. Paul and Barnabas were on the island of Cyprus. They met the Roman proconsul, Sergius Paulus, an intelligent man, who wanted to hear the word of God. Paul preached, a false prophet tried to interfere, and the proconsul became a believer. Notice this: a Roman official, with all the power of Rome behind him, accepted the message. Rome was not trying to spread Christianity, but its system made the work reachable.

Another Scripture: Colossians 1, verse 23. About thirty years after Jesus' death, Paul wrote that the good news had been preached in all creation under heaven. That does not mean every single person had heard, but it shows how widely the message had spread in one generation.

ANSWER 2 TO SAY OUT LOUD: So the Bible example: in Acts 13:6–12 Paul preached on Cyprus and the Roman proconsul Sergius Paulus became a believer. And Colossians 1:23 shows the good news had been preached widely, "in all creation under heaven," within about thirty years.

We should be honest about what the article claims. It says these conditions helped, and it credits Jehovah's guidance. It is not saying the Romans meant to help Christians. In fact, Rome also persecuted them. So this is a lesson in how Jehovah can direct history. As you write your answer, give the reasons, then

give the scripture, then say why it matters to you.

Question 1 (Ryan and Kayla / Ashelyn): History: Roman Empire and early Christianity. Name at least three things about the Roman Empire that helped the early Christians spread the good news, and explain how each helped.

TEACHER ANSWER KEY: Any three of: roads and sea routes (50,000+ miles of roads); relative peace and safe travel (Pax Romana); common Koine Greek (and the Septuagint); Roman law protecting citizens like Paul; Jewish communities everywhere. Each paired with how it helped (travel, safety, communication, protection, familiarity with Scriptures).
Look for: their own words and the key points above. Do not require my exact wording.

Question 2 (Ryan and Kayla / Ashelyn): Give one Bible example of the good news reaching someone in the Roman world (Acts 13:6–12) and say how far it spread by Paul's day (Col 1:23).

TEACHER ANSWER KEY: Sergius Paulus, Roman proconsul on Cyprus, became a believer after hearing Paul. Col 1:23: the good news had been preached "in all creation under heaven" within about 30 years.
Look for: their own words and the key points above. Do not require my exact wording.

FLAG: Everything in the Reasons section comes from the Feb 15, 2015 Watchtower page I opened. "Pax Romana" named there; the page spelled it "Pax Roman," which looks like a typo in my summary tool, so I used the standard spelling.

FLAG: Acts 13:6–12 and Col 1:23 verses themselves were not opened in NWT. I used the article's summary. Check in your Bible.

FLAG: Mykah's simple version of this lesson has not been written yet; the Mykah quiz uses the older general questions.

WRITING - Word choice: precision and clarity

SOURCES AND VERIFICATION

STANDARD KNOWLEDGE: This is standard writing instruction (choose the specific word over a vague one). I searched for a source and found pages from Purdue OWL and StudyPug but did not open them, so I am not citing any as verified.
Link: https://owl.purdue.edu/owl/general_writing/academic_writing/conciseness/

FOR RYAN AND KAYLA / ASHELYN — Ryan, Kayla and Ashelyn (about 465 words, 3.1 min aloud)

Today's lesson is word choice. When you write, every word is a choice. Some words are vague: they fit a hundred situations, so they tell the reader almost nothing. Others are precise: they fit one situation exactly. Vague words are like a blurry photo. Precise words are like a sharp one.

Here is a quick test. “The dog went fast.” What picture do you see? Not much, right? Now: “The dog sprinted across the yard.” You can see it. “Went” is vague. “Sprinted” is precise. Write this on your page: precise words are clearer than vague ones.

Let’s try more. “Said” can be improved: whispered, shouted, muttered, announced, explained. Each tells you how the person felt. “Big” can become enormous, towering, massive. “Good” can become delicious, honest, thrilling, generous. “Walk” can become stroll, march, tiptoe, stagger.

But precise does not always mean fancy. A common mistake is to grab a big word when a simple one works better. The rule is to choose the word that says exactly what you mean. If “walked” is accurate, use it. If the person tiptoed because the baby was sleeping, then “tiptoed” tells more.

Another tool: concrete over abstract. Instead of “The food was good,” write “The soup was hot and tasted of garlic and thyme.” Details help the reader see, smell or hear what you experienced.

Also watch for words that add nothing, like “very,” “really,” “a lot,” “things,” “stuff.” “Very tired” can be “exhausted.” “Really happy” can be “thrilled.” “A lot of people” can be “a crowd.” Cut the filler and the sentence gets stronger.

ANSWER 1 TO SAY OUT LOUD: So here is the answer to the first question. Precise words tell the reader exactly what you mean, while vague words leave them guessing. For example, “sprinted” is clearer than “went fast.”

Let me model a rewrite. Original: “The man looked at the thing and said it was bad.” Revised: “The mechanic studied the cracked engine block and muttered that it was ruined.” Notice what changed: “man” became “mechanic,” “looked” became “studied,” “thing” became “cracked engine block,” “said” became “muttered,” “bad” became “ruined.” Five changes, and now we see a scene.

Your turn, in your answer. You will take a plain sentence and improve it by replacing at least two vague words with precise ones. Then you will say why the new words are better. Remember the Bible connection: Jehovah’s Word is written in careful, clear words so we can understand it. Careful word choice is a

way to be clear and kind to our readers.

ANSWER 2 TO SAY OUT LOUD: For the second question, the model answer: “The dog went fast” becomes “The dog sprinted across the yard.” “Went fast” was vague; “sprinted” tells exactly how it moved. Any accurate pair of improvements works, as long as the child says why the new words are better.

Question 1 (Ryan and Kayla / Ashelyn): Writing (word choice): explain the difference between a precise word and a vague word. Give an example pair.

TEACHER ANSWER KEY: Precise words say exactly what you mean and create a clear picture; vague words are general. Example: “sprinted” vs “went fast”; “muttered” vs “said.”
Look for: their own words and the key points above. Do not require my exact wording.

Question 2 (Ryan and Kayla / Ashelyn): Improve this sentence by changing at least two words, then say why your words are better: “The dog went fast.”

TEACHER ANSWER KEY: Any: “The dog sprinted/dashed/bolted across the yard.” Explanation: the new words are more specific and let the reader see it. Accept reasonable answers.
Look for: their own words and the key points above. Do not require my exact wording.

FLAG: No source verified for this lesson; it is standard writing instruction.

FLAG: Mykah’s simple version of this lesson has not been written yet; the Mykah quiz uses the older general questions.

Day 18 — Thursday, October 29

BIBLE - After the Flood: a new beginning (Genesis 9:1–17; Acts 17:26)

SOURCES AND VERIFICATION

NOT OPENED: Genesis 9 and Acts 17:26 are from my knowledge of the Bible. I could not open the New World Translation. Please read both in your NWT before class.

VERIFIED: Genesis 8:20–22 (Jehovah's promise about the seasons) was checked in the American Standard Version on Day 17.
Link: https://www.biblestudytools.com/asv/genesis/8.html

FOR RYAN AND KAYLA / ASHELYN — Ryan, Kayla and Ashelyn (about 708 words, 4.7 min aloud)

Open your Bibles to Genesis chapter 9. Picture the scene: the ark is empty, the ground is dry, and eight people are standing on a cleaned-off earth. Everything is new. Today we listen for two things. First, what promise did Jehovah make, and what sign did he give? Second, what does Acts 17:26 teach us about every person on earth?

Jehovah's first words to Noah and his sons in chapter 9 are a blessing: be fruitful, become many, and fill the earth. Notice that this is the same instruction Jehovah gave Adam and Eve at the beginning. Jehovah's purpose had not changed. Humans were to spread out and fill the earth. Remember that, because it matters tomorrow when we study Babel.

Jehovah also set some rules for this new start. He allowed people to eat animal meat, but he forbade eating blood, because blood stands for life, and life belongs to him. He also said that human life is sacred: anyone who murders another person owes a life for a life. These instructions show us that Jehovah cares about life, and he expects us to respect it.

Now to the promise. Jehovah told Noah and his sons that he was making a covenant, a solemn agreement, with them, with their descendants, and with every living creature that came out of the ark. The promise is that never again will all flesh be cut off by the waters of a flood, and there will never again be a flood to ruin the earth.

Why did Jehovah make this promise? Think about how Noah and his family may have felt. They had just lived through the destruction of the whole old world.

Every time clouds gathered, they might have wondered, is it going to happen again? Jehovah gave them a promise so they could live without fear. That shows us something about Jehovah's love. He does not only protect us; he also reassures us.

Then Jehovah gave a sign: the rainbow. He said that when he brought clouds over the earth and a bow appeared in the clouds, he would remember his covenant. The rainbow was not the covenant itself; it was the reminder. Think of a wedding ring: it is not the marriage, but it is a visible sign of a promise. Next time you see a rainbow, remember Jehovah's promise. Rain and sun together make it, and it is a picture of a storm that ends.

ANSWER 1 TO SAY OUT LOUD: Say the first answer together. Jehovah promised Noah, his descendants and every living creature that he would never again destroy all flesh with a flood. The rainbow in the clouds is the sign that reminds us of that promise.

Now Acts 17:26. The apostle Paul was speaking in Athens, a city full of people who believed their nation was better than others. He said that God made from one man every nation of men to dwell on the whole face of the earth. Let that sink in. The Bible says every nation came from one man.

Connect it to Genesis. After the Flood, all people on earth came from Noah and his three sons and their wives. Go back far enough and the Bible traces everyone to Adam, the first man. Different skin colors, languages and cultures all come from that one family. It means no race or nation is closer to God or better than another.

Here is the practical lesson. If we all come from one man, we are one human family. Prejudice, the idea that one group is superior, has no basis in the Bible. Jehovah himself shows no partiality, and Acts 10:34 says the same about him. So we treat everyone with kindness and respect, whatever their background.

ANSWER 2 TO SAY OUT LOUD: So here is the second answer. Acts 17:26 teaches that all nations came from one man, so we are one human family. That is a reason to treat all people kindly and not to look down on anyone.

Let’s apply it. Name someone at the store, at the Kingdom Hall, or in our neighborhood who is different from you. How could you show them kindness this week? When you write, include what Jehovah promised, what the sign was, and one way you will show kindness to someone different from you.

Question 1 (Ryan and Kayla / Ashelyn): Genesis 9:1–17: what promise did Jehovah make to Noah, and what is the sign of the promise?

TEACHER ANSWER KEY: Jehovah promised never again to destroy all flesh with a flood. The sign is the rainbow in the clouds.
Look for: their own words and the key points above. Do not require my exact wording.

Question 2 (Ryan and Kayla / Ashelyn): Acts 17:26 says all nations came from one man. Explain what that means and why it is a reason to treat all people kindly.

TEACHER ANSWER KEY: All people descend from Adam through Noah’s family, so we are one human family. No race or nation is better, so we should show everyone kindness and respect; no basis for prejudice.
Look for: their own words and the key points above. Do not require my exact wording.

FLAG: Acts 10:34 (“God is not partial”) is mentioned from memory; not opened.

FLAG: The JW Watchtower article I opened on Babel (March 15, 1998) does not discuss Acts 17:26, so this lesson’s use of that verse rests only on the Bible text itself.

FLAG: Mykah’s simple version of this lesson has not been written yet; the Mykah quiz uses the older general questions.

SCIENCE - The immune system: the body’s defense

SOURCES AND VERIFICATION

VERIFIED: Merck Manual (Consumer Version), “Overview of the Immune System”: white blood cells, antibodies (each targets one antigen), thymus/spleen/bone marrow/lymph, how an immune response works, memory, allergy and autoimmune problems.
Link: https://merckmanuals.com/home/quick-facts-immune-disorders/biology-of-the-immune-system/overview-of-the-immune-system

NOT OPENED: Psalm 139:14 (“fearfully and wonderfully made”) is quoted from memory; check your NWT.

FOR RYAN AND KAYLA / ASHELYN — Ryan, Kayla and Ashelyn (about 648 words, 4.3 min aloud)

Right now, as you sit here, your body is fighting a battle you cannot feel. Every breath brings in germs. Every scrape lets in bacteria. And almost all the time, you stay well, because you have an immune system. Our question today: what is it, and how does it work?

The immune system is not one organ. It is a team made of cells, chemicals and organs. Write this down: the immune system recognizes things that do not belong in the body and fights them.

The key players. First, white blood cells, also called leukocytes. They travel through your blood looking for trouble. Think of them as patrol officers moving through every street of your body. Second, antibodies. Antibodies are chemicals made by certain white blood cells. Each antibody fits one specific invader, like a key that fits only one lock. If the body meets a new invader, it can make a new antibody. Third, the organs and vessels. Your bone marrow and thymus make white blood cells. The spleen, tonsils and appendix help trap germs. A network of lymph vessels and lymph nodes drains fluid and filters out dead germs and cells, which is why your glands can feel swollen when you are sick.

What does the system look for? The medical word is antigen. An antigen is something that does not belong in your body. It might be on a germ. It might be a cancer cell. Sometimes it is even harmless, like pollen or a food molecule. The immune system has the huge job of telling what belongs from what does not.

Here is how a response unfolds, according to the Merck Manual. One, the system recognizes the invader. Two, it signals immune cells to come to that spot. Three, they attack and clear it away. Four, the system turns itself off when the job is done. That last step matters. A defense that never stops can hurt you.

ANSWER 1 TO SAY OUT LOUD: Let me give you the main idea to write. The immune system recognizes invaders and fights them using white blood cells and antibodies. The white blood cells patrol and attack, the antibodies target one specific invader, and then the system stops once the invader is gone.

There is a remarkable extra: memory. After white blood cells destroy an invader, they usually remember it. If the same germ returns, your body responds faster, often before you feel sick. That is why you rarely get some illnesses twice, and it is the idea behind vaccines.

Now let’s be honest about when the system goes wrong, because the source lists three problems. In an autoimmune disease, the immune system attacks the body’s own tissues. With immunodeficiency, it cannot fight germs well. With an allergy, it overreacts to something harmless like pollen, which is why some people sneeze at flowers. Even the swelling, redness and warmth around a cut come from immune chemicals at work.

So in a real example: you scrape your knee. Germs get in. White blood cells arrive, and the area swells and turns red and warm. Within days the invaders are cleared, and the scrape heals.

ANSWER 2 TO SAY OUT LOUD: A second answer you could give is that example: when I scraped my knee, white blood cells rushed to the spot and fought the germs, causing redness and swelling, and the cut healed. It matters because without the immune system, ordinary germs could make us seriously ill.

Let’s think about what to make of all this. The immune system has to be able to recognize millions of different invaders, remember them, and stop at the right time. Many people look at a system like this and see great wisdom behind it. The Bible says at Psalm 139:14 that we are made in an awe-inspiring and wonderful way. As you write your answers, first state the facts, then you may add what you think it shows. Keep those two parts separate.

Question 1 (Ryan and Kayla / Ashelyn): The immune system: explain the main idea in your own words. What do white blood cells and antibodies each do?

TEACHER ANSWER KEY: The immune system recognizes invaders and fights them. White blood cells patrol and attack; antibodies are chemicals that each target one specific antigen. It stops when the invader is gone.
Look for: their own words and the key points above. Do not require my exact wording.

Question 2 (Ryan and Kayla / Ashelyn): Give one real-life example of your immune system at work and explain why the immune system matters.

TEACHER ANSWER KEY: Any accurate example (a scraped knee, a cold, a vaccine memory). Matters because it protects us from germs; it remembers invaders and responds faster next time.
Look for: their own words and the key points above. Do not require my exact wording.

FLAG: The Merck page did not describe types of white blood cells or “innate vs adaptive” immunity, so I kept to what it covered.

FLAG: The statement that vaccines work by this memory is general knowledge, not from the Merck page text I read.

FLAG: Psalm 139:14 wording from memory.

FLAG: Mykah's simple version of this lesson has not been written yet; the Mykah quiz uses the older general questions.

MATH - Least common multiple (LCM)

SOURCES AND VERIFICATION

STANDARD KNOWLEDGE: Arithmetic. I verified every answer by computer (lcm(8,12)=24, lcm(9,24)=72, lcm(8,7)=56, lcm(4,6)=12). No outside source opened.

FOR RYAN AND KAYLA / ASHELYN — Ryan, Kayla and Ashelyn (about 537 words, 3.6 min aloud)

A multiple is what you get when you count by a number. The multiples of 4 are 4, 8, 12, 16, 20, and so on. Today we find the least common multiple, the LCM. Break it into three words. Multiple: counting by a number. Common: both numbers share it. Least: the smallest one. So the LCM is the smallest number that both numbers divide into evenly.

Last week we did the greatest common factor. Notice the difference. Factors are small and divide into the number. Multiples are big and the number divides into them. The GCF can never be larger than the smaller number; the LCM can never be smaller than the larger number.

Where do you use this? Suppose one bus comes every 4 minutes and another every 6 minutes, and both just left together. When will they leave together again? That is the LCM of 4 and 6. Count the multiples of 4: 4, 8, 12, 16. Multiples of 6: 6, 12, 18. The first number in both lists is 12. So the buses leave together again in 12 minutes. The LCM of 4 and 6 is 12.

You also use LCM to add fractions with different bottoms. One half plus one third needs a common denominator, and the best one is the LCM of 2 and 3, which is 6.

Method one: list the multiples. For 8 and 12. Multiples of 8: 8, 16, 24, 32. Multiples of 12: 12, 24, 36. The first match is 24. So the LCM of 8 and 12 is 24. Check: 8 goes into 24 three times, 12 goes into 24 two times.

Method two, for bigger numbers: prime factors. Take 9 and 24. 9 is 3 times 3. 24 is 2 times 2 times 2 times 3. Now build the smallest number that has everything each one needs. You need three 2s from the 24. You need two 3s, because 9 has two. So multiply 2 times 2 times 2 times 3 times 3, which is 72. So the LCM of 9 and 24 is 72. Listing would take a long time, so this method saves time.

ANSWER 1 TO SAY OUT LOUD: So, for the first question: the LCM of 8 and 12 is 24, and the LCM of 9 and 24 is 72. You can use an LCM when events repeat, like buses leaving together, or when adding fractions with different denominators.

A shortcut: if the two numbers share nothing but 1, the LCM is just the two numbers multiplied. Take 8 and 7. They share no factor except 1. So 8 times 7 is 56. The LCM of 8 and 7 is 56.

ANSWER 2 TO SAY OUT LOUD: The answer to the second question is 56.

Mistakes to avoid. One: mixing up GCF and LCM. If the answer is smaller than a number, it is not a multiple. Two: stopping at a common multiple that is not the least. 48 is a common multiple of 8 and 12, but 24 is smaller. Three: forgetting that if one number divides into the other, the larger is the LCM. For 6 and 12 the LCM is 12.

When you answer, write the multiples or the prime factors, circle the first match, and write a clear final answer.

Question 1 (Ryan and Kayla / Ashelyn): Least common multiple: find the LCM of 8 and 12, and of 9 and 24. Show your method and describe a real-life time you would need an LCM.

TEACHER ANSWER KEY: LCM(8,12)=24; LCM(9,24)=72. Uses: repeating schedules (buses), adding fractions with unlike denominators.
Look for: their own words and the key points above. Do not require my exact wording.

Question 2 (Ryan and Kayla / Ashelyn): Math (Least common multiple): find the LCM of 8 and 7. Show your steps.

TEACHER ANSWER KEY: 56 (they share no factor but 1, so multiply)
Look for: their own words and the key points above. Do not require my exact wording.

FLAG: Answers computed by program.

FLAG: Mykah's simple version of this lesson has not been written yet; the Mykah quiz uses the older general questions.

LANGUAGE ARTS - Vocabulary building: learning new words from reading

SOURCES AND VERIFICATION

STANDARD KNOWLEDGE: Context clues and keeping a word list are standard reading strategies. I did not open a source. The idea that JW publications use words such as "integrity," "loyalty" and "discernment" comes from the app's lesson text, and I did not verify it against a particular publication.

FOR RYAN AND KAYLA / ASHELYN — Ryan, Kayla and Ashelyn (about 458 words, 3.1 min aloud)

Words are tools. The more words you know, the more clearly you can think, speak and understand the Bible. Today we learn how to build your vocabulary, not by memorizing a list, but by learning words from what you read.

Strategy one: context clues. The sentences around a new word usually give hints. Read this: "The judge showed great integrity; he refused a bribe even though no one would ever find out." You may not know "integrity," but the sentence says he refused a bribe when no one was watching. So integrity must mean being honest and doing right even when nobody sees. Always ask: what clues do the nearby words give?

Strategy two: word parts. Many words have a root, a prefix and a suffix. Dis- means not, so "disloyal" means not loyal. The suffix -less means without, so "fearless" means without fear.

Strategy three: keep a word list. When you meet a new word, write it, write what you think it means, check the dictionary, and write your own sentence. Review the list often. A word you use three times is a word you own.

Strategy four: use it. Say the word out loud in a conversation within the day.

Now three words we meet often in our reading. Integrity means being honest and having strong moral principles that you keep in all situations. Loyalty means staying faithful to a person or a cause, especially when it is hard. Discernment means the ability to see the difference between things and to judge well, for example telling what is wise from what is foolish. Notice they are not simple words, but we can understand each from how it is used.

ANSWER 1 TO SAY OUT LOUD: So the main idea is this. We build vocabulary by reading, using context clues to guess a word's meaning, checking the meaning, and keeping a word list. Words like integrity, loyalty and discernment are examples.

Here is an example sentence for each. Integrity: Noah showed integrity by doing exactly what Jehovah commanded. Loyalty: Ruth stayed loyal to Naomi when she could have gone home. Discernment: Because Solomon asked for discernment, he could tell which woman was the real mother of the child.

ANSWER 2 TO SAY OUT LOUD: So for the second question, you choose one word, say what it means, and give an example that fits, like Ruth showing loyalty to Naomi. Explain why it matters: knowing the word helps you understand what you read and describe good qualities.

Your challenge today: pick one word from a Bible reading this week that you did not know. Use a context clue to guess it, check the meaning, and write a sentence of your own. The meanings above are the usual dictionary meanings, so check your own dictionary if you want the exact wording.

Question 1 (Ryan and Kayla / Ashelyn): Vocabulary building: explain the main idea. How do you figure out and remember a new word?

TEACHER ANSWER KEY: Use context clues, word parts, check the dictionary, keep a word list, and use the word. Words like integrity, loyalty and discernment are examples. **Look for:** their own words and the key points above. Do not require my exact wording.

Question 2 (Ryan and Kayla / Ashelyn): Choose integrity, loyalty or discernment: give its meaning, an example, and say why knowing it matters.

TEACHER ANSWER KEY: Integrity = honesty and keeping moral principles; loyalty = staying faithful even when hard; discernment = good judgment, telling things apart. Any accurate example. Matters: understanding reading and describing good qualities. **Look for:** their own words and the key points above. Do not require my exact wording.

FLAG: Bible examples (Ruth and Naomi, Solomon's judgment, Noah) are from memory; not opened.

FLAG: Mykah's simple version of this lesson has not been written yet; the Mykah quiz uses the older general questions.

HISTORY - Rome and the early Christians: law, travel and understanding

SOURCES AND VERIFICATION

VERIFIED: The Watchtower, February 15, 2015 (study edition), “Preparing the Nations for ‘the Teaching of Jehovah’,” pp. 19–23 (opened on Day 17): roads, sea routes, Koine Greek, Roman law protecting citizens such as Paul.
Link: https://wol.jw.org/en/wol/d/r1/lp-e/2015127

NOT OPENED: Acts 22:25–29 (Paul tells the commander he is a Roman citizen) is from memory; I did not open it. Please read it in your NWT.

FOR RYAN AND KAYLA / ASHELYN — Ryan, Kayla and Ashelyn (about 578 words, 3.9 min aloud)

Yesterday we learned four conditions in the Roman world that helped the early Christians: roads, relative peace, a common language and Roman law. Today we practice using that knowledge. I will give you two exercises: one about law, one about how the conditions connect.

Start with a quick review so everyone is on the same page. Write four words: roads, peace, Greek, law. The Watchtower article we are using, from February 15, 2015, lists these. The Roman Empire had over 50,000 miles of roads and hundreds of sea routes, travel was relatively safe, Greek was widely understood, and Roman law protected citizens.

Exercise one: Roman law and the apostle Paul. Turn to Acts 22. A mob in Jerusalem had grabbed Paul. A Roman commander arrested him and ordered him to be questioned by scourging, that is, whipped. As the soldiers stretched him out, Paul asked the officer standing nearby: is it lawful for you to scourge a Roman who has not been condemned? The officer went straight to the commander and warned him. The commander came and asked Paul if he was a Roman. Paul said yes. The commander said he had paid a large sum for his citizenship, and Paul said, but I was born with it. Immediately the men who were about to question him backed away, and the commander himself was afraid, because he had bound a Roman citizen.

Think about what happened. Paul did not use his citizenship to avoid his duty or to live comfortably. He used it to protect himself so he could keep preaching. Roman law gave citizens certain protections, and the article says this helped Christians like Paul.

ANSWER 1 TO SAY OUT LOUD: Say the first answer in a sentence. Roman law protected citizens, so when the soldiers were about to

whip Paul, he said he was a Roman citizen and they stopped. This protected him and allowed him to continue preaching.

Exercise two: match the condition to the result. Condition one: roads and sea routes. Result: disciples could travel from city to city to preach. Condition two: Greek was widely spoken. Result: they could talk to many kinds of people and the Scriptures could be written in a language people knew. Condition three: relative peace and safer travel. Result: they could make long journeys without as much danger from bandits or pirates. Condition four: Jewish communities already in many cities. Result: many people already knew something about the Hebrew Scriptures.

Let me connect it back to Jehovah. The article says these conditions helped the disciples' work and credits Jehovah's help. The conditions did not create the message; the message came from Jesus. But Jehovah, who can direct history, allowed the world to be ready when the good news went out.

We should be honest about the limits. The Romans did not build their roads for Christians. The same empire persecuted Christians at times. So we say conditions helped, we do not say Rome was on their side.

ANSWER 2 TO SAY OUT LOUD: The second answer, then: roads and sea routes let the disciples travel; the common Greek language let them be understood; relative peace made travel safer; Jewish communities gave a background in the Scriptures. Each condition helped the good news spread.

To write your answer, name the condition, say what it allowed the disciples to do, and then write one sentence about why it matters to you today. For example: the ability to read the Bible in a language I understand is one result of this same pattern.

Question 1 (Ryan and Kayla / Ashelyn): History: how did Roman law help the apostle Paul (Acts 22:25–29), and how did that help the preaching work?

TEACHER ANSWER KEY: Roman law protected citizens. Paul said he was a Roman citizen and the soldiers stopped; it protected him from being whipped and he could keep preaching.
Look for: their own words and the key points above. Do not require my exact wording.

Question 2 (Ryan and Kayla / Ashelyn): Match each condition to its result: roads, Greek language, peace, Jewish communities.

TEACHER ANSWER KEY: Roads/sea routes → travel to many cities; Greek → understood by many, Scriptures in known language; peace → safer journeys; Jewish communities → people already knew the Hebrew Scriptures.
Look for: their own words and the key points above. Do not require my exact wording.

FLAG: Acts 22 details from memory. The old quiz said "Rome persecuted Christians but the good news grew"; I did not verify the persecution claim in a source, so I only mention it briefly as a limit.

FLAG: Mykah's simple version of this lesson has not been written yet; the Mykah quiz uses the older general questions.

WRITING - Proofreading and editing

SOURCES AND VERIFICATION

VERIFIED: Purdue OWL, "Proofreading Suggestions": read your paper aloud and revise awkward parts; examine your paragraphs (length, support, topic sentence); keep a list of your frequent errors.
Link: https://owl.purdue.edu/owl/general_writing/the_writing_process/proofreading/proofreading_suggestions.html

NOT OPENED: The tip to "read backward" is a common proofreading tip, but it is NOT on the Purdue page I opened. I list it as a classroom tip, not a sourced fact.

FOR RYAN AND KAYLA / ASHELYN — Ryan, Kayla and Ashelyn (about 546 words, 3.6 min aloud)

You wrote something and you think it is finished. It is not. Almost every good writer has a last step before sharing: proofreading and editing. Proofreading means checking for mistakes in spelling, grammar, capital letters and punctuation. Editing is a bit bigger: improving the wording, the order and the clarity.

Think of washing your hands before dinner. You might have been fine, but a quick check makes it right. Proofreading is a quick check that makes your writing right.

Purdue University's Online Writing Lab gives three suggestions. One: read your writing aloud. If a sentence is awkward, or you stumble, or you run out of breath, your reader will have trouble too. Your ears catch problems your eyes skip over. Two: look at each paragraph. Does it have a topic sentence? Does it have enough supporting sentences? A short paragraph with no support may

mean the idea is not fully developed. Three: keep a list of your frequent mistakes. If you always mix up “their” and “there,” write that down and check for it every time.

Another tip teachers often share is to read your paper backward, last sentence first. That breaks the flow so you notice spelling and punctuation instead of the meaning. I want to be honest: that tip was not on the Purdue page, so I am giving it as a classroom suggestion, and you can test whether it works for you.

Now a checklist. Check these one type at a time, instead of everything at once. Spelling: circle any word you are unsure of and check it. Capital letters: the first word of every sentence, the word “I,” and names. Punctuation: a period, question mark or exclamation point at the end of every sentence, apostrophes in the right places. Grammar: do the subject and verb match, is the tense consistent? “He go” should be “he goes.” Sense: does every sentence make sense?

ANSWER 1 TO SAY OUT LOUD: Here is the first answer to write. Proofreading checks spelling, grammar, capitalization and punctuation, and it helps by catching mistakes so the reader can understand. Two strategies are reading it aloud and keeping a list of your frequent errors.

Let’s practice on a sentence: “i went to the store and buyed three apple’s.” What do you notice? The first word “i” should be capital, and so should the sentence start. “Buyed” should be “bought.” “Apple’s” has an apostrophe it does not need; the plural is just “apples.” Corrected: “I went to the store and bought three apples.” That is three errors, found by checking one type at a time.

Notice also what editing could add. “I went to the store and bought three red apples for the pie” gives the reader more. That is editing, not just proofreading.

ANSWER 2 TO SAY OUT LOUD: So the model for the second question: find each error, fix it, and name the kind of error, whether it was spelling, capitalization or punctuation. Naming the type helps you remember it next time.

One more principle that connects to our family worship. When we write letters, answers or comments, careful writing is a way of respecting the reader. Proverbs 15:28 says the heart of the righteous one meditates before answering. Taking time to check our writing is a similar habit. That reference is from memory, so check it in your Bible.

Question 1 (Ryan and Kayla / Ashelyn): Proofreading and editing: what is proofreading, and what are two things you can do to catch mistakes?

TEACHER ANSWER KEY: Proofreading checks spelling, grammar, capitalization and punctuation. Strategies: read aloud, check paragraphs, keep a list of frequent errors, check one type at a time, (classroom tip) read backward.
Look for: their own words and the key points above. Do not require my exact wording.

Question 2 (Ryan and Kayla / Ashelyn): Proofread and rewrite correctly: “i went to the store and buyed three apple’s.” Name each mistake.

TEACHER ANSWER KEY: “I went to the store and bought three apples.” Mistakes: lowercase “i” (capitalization); “buyed” (wrong verb form, should be bought); “apple’s” (unneeded apostrophe, should be apples).
Look for: their own words and the key points above. Do not require my exact wording.

FLAG: Proverbs 15:28 reference from memory; not opened.

FLAG: “Read backward” is not on the Purdue page.

FLAG: Mykah’s simple version of this lesson has not been written yet; the Mykah quiz uses the older general questions.

Day 19 — Friday, October 30

BIBLE - The Tower of Babel: one language divided (Genesis 11:1–9; Acts 17:26)

SOURCES AND VERIFICATION

VERIFIED: The Watchtower, March 15, 1998, “They Did Not Make a Celebrated Name for Themselves,” pp. 24–25: Babel about 200 years after the Flood; Nimrod as likely ringleader; the group wanted a celebrated name instead of filling the earth; Jehovah confused their language and scattered them.
Link: https://wol.jw.org/en/wol/d/r1/lp-e/1998203

NOT OPENED: Genesis 11:1–9 and Acts 17:26 are from my knowledge; I did not open them in NWT. Read them in your Bible before class.

FOR RYAN AND KAYLA / ASHELYN — Ryan, Kayla and Ashelyn (about 735 words, 4.9 min aloud)

Open to Genesis chapter 11. Yesterday we saw Jehovah tell Noah’s family to fill the earth. Today we see what happened when some people decided not to. Keep two questions in mind: what were the builders after, and how did Jehovah stop them?

Genesis 11 begins by saying the whole earth had one language and one set of words. For a while after the Flood, everyone spoke the same way. The Watchtower of March 15, 1998 says this was about 200 years after the Flood. A group moved east and found a plain in the land of Shinar, which is in the area of ancient Babylon.

Then they said to one another, in effect: come, let us build a city and a tower with its top in the heavens, and let us make a name for ourselves, so that we are not scattered over all the earth. Hold on to those last words, because they tell us what the builders wanted. They wanted to make a name for themselves, and they did not want to be scattered. But scattering was exactly what Jehovah had told them to do. He had said, fill the earth.

So their project was not just construction. It was rebellion. It was people deciding that they knew better than Jehovah. The article says the Bible does not name the builders, but it points to Nimrod as the likely ringleader. Nimrod is described in Genesis 10 as a mighty hunter in opposition to Jehovah. The article gives some background: he was probably the first human ruler after the Flood, and Babel was one of the cities of his kingdom. The article also mentions

that some scholars think “Nimrod” could be a nickname connected to the Hebrew word for rebel. Notice: the article presents Nimrod as likely, not proven. We do the same.

ANSWER 1 TO SAY OUT LOUD: That gives us the first answer. The builders’ motives were pride and independence: they wanted to make a celebrated name for themselves, and they did not want to spread out over the earth as Jehovah had commanded. Their plan went against Jehovah’s direction.

How did Jehovah respond? Genesis tells us he came down, so to speak, to look at the city and tower. Jehovah did not need to climb up to see it; the expression shows that he examined what they were doing. Then he confused their language. Suddenly one person said a word and the next person heard noise. Imagine trying to pass a brick when no one understands you. The work stopped. And then Jehovah scattered them over the whole earth. That was the very thing they were trying to avoid. The place was called Babel, which is connected to the Hebrew word for confuse.

Notice how Jehovah acted. He did not destroy them with a flood. He used a simple, firm solution: confused speech. And in the end his purpose was fulfilled, because people spread out over the earth.

Now Acts 17:26. Paul said that God made from one man every nation of men to live on the face of the earth. Babel helps explain how one family became many nations, each with its own language. People who spoke the same language stayed together, and groups moved apart. So today’s many nations and languages trace back to one family, and the scattering at Babel is a reason why. Be careful about one thing: the article I opened does not discuss Acts 17:26 itself, so the link between Babel and the nations of today is our reasoning from Genesis 10 and 11, not a sentence from the article.

ANSWER 2 TO SAY OUT LOUD: So the second answer: Jehovah confused the language so the builders could not understand one another, and then he scattered them. That helps explain why we have many nations and languages today, even though all people come from one man, as Acts 17:26 says.

Now bring it into your life. What quality of Jehovah do you see? His justice: he stopped a rebellious plan. His wisdom: he solved it simply. And his determination: his purpose could not be blocked. A quality you can imitate this week is humility. The builders wanted to make a name for themselves. You can do the opposite. Next time you are tempted to boast or insist on your own way, stop and ask what Jehovah would want. When you answer, tell what the builders wanted, what Jehovah did, and one way you will show humility.

Question 1 (Ryan and Kayla / Ashelyn): Genesis 11:1–9: explain the motives of the builders of Babel and how Jehovah stopped them. How do Acts 17:26 and the confusion of languages help explain the nations we see today?

TEACHER ANSWER KEY: Motives: make a celebrated name for themselves and not spread over the earth as commanded (Gen 9:1). Jehovah confused their language and scattered them. Acts 17:26: all nations from one man; Babel helps explain many languages and nations.
Look for: their own words and the key points above. Do not require my exact wording.

Question 2 (Ryan and Kayla / Ashelyn): Which quality of Jehovah does the Babel account show? Give one detail from the account and one way you can imitate it this week.

TEACHER ANSWER KEY: Justice, wisdom or determination, with one detail (confused language, scattered them, work stopped), and a specific act of humility or obedience the child names.
Look for: their own words and the key points above. Do not require my exact wording.

FLAG: The Watchtower article says the Bible does not name the builders and presents Nimrod as likely, so teach it that way.

FLAG: The article does not discuss Acts 17:26 or the origin of today's nations. The link in the talk is labeled as our own reasoning.

FLAG: Mykah's simple version of this lesson has not been written yet; the Mykah quiz uses the older general questions.

SCIENCE - Photosynthesis: how plants feed the world

SOURCES AND VERIFICATION

VERIFIED: Science News Explores, "Explainer: How photosynthesis works": inputs (CO_2, water, light) and outputs (glucose, oxygen, water); happens in chloroplasts; chlorophyll absorbs mainly red and blue light; oxygen released in light reactions; glucose becomes starch and cellulose.
Link: https://www.snexplores.org/article/explainer-how-photosynthesis-works

NOT OPENED: The statement that this shows "Jehovah's provision" is a belief, not something the article says. Psalm 104:14 is from memory.

FOR RYAN AND KAYLA / ASHELYN — Ryan, Kayla and Ashelyn (about 521 words, 3.5 min aloud)

Think about your last meal. Where did the energy in it come from? If you trace any food back far enough, whether bread, an apple, or even a hamburger, you arrive at a plant. And where does the plant get its energy? From the sun. Photosynthesis is the process that turns sunlight into food. The word means putting together with light: photo, light, and synthesis, putting together.

Write the sentence from the source we are using, Science News Explores: carbon dioxide, water and light go in; glucose, water and oxygen come out.

Let's look at each part. Inputs. Carbon dioxide is a gas in the air; it enters through tiny openings in the leaves. Water comes up from the roots. Light energy comes from the sun. Outputs. Glucose is a simple sugar, the plant's food. Oxygen is released into the air. The equation in short form: carbon dioxide plus water plus light makes glucose plus oxygen.

Where does this happen? Inside the cells of the plant are small parts called chloroplasts. Inside the chloroplasts are stacks of membranes that hold chlorophyll, the green pigment. Chlorophyll absorbs light, mainly red and blue light. It reflects green light, which is why leaves look green.

Think of a chloroplast as a tiny kitchen. The sunlight is the stove's heat, chlorophyll catches it, and the plant mixes air and water into sugar. In the first stage, called the light reactions, the plant uses light energy, and oxygen is released. In the second stage, in the fluid around the membranes, the plant builds glucose from carbon dioxide.

ANSWER 1 TO SAY OUT LOUD: Here is the first answer, written out. The inputs of photosynthesis are sunlight, water and carbon dioxide. The outputs are sugar, called glucose, and oxygen. It happens in the chloroplasts, which contain chlorophyll.

What does the plant do with the glucose? Some it uses right away for energy. Some it stores as starch, like in potatoes and grains. And some it builds into cellulose, the tough material in cell walls that makes stems and leaves strong. So the plant makes both its fuel and its building material.

Now think about us. We breathe the oxygen that plants release. We eat the plants, or we eat animals that ate plants. Grains, potatoes, fruit and vegetables are our main source of energy. Every living animal depends on photosynthesis for food, and most depend on it for oxygen too.

ANSWER 2 TO SAY OUT LOUD: So the second answer: photosynthesis provides food and oxygen for animals and people, because plants make sugar that we eat and release the oxygen we breathe.

What does this show? The source describes how it works, and it does not say who designed it. We look at the evidence this way: the system needs sunlight, water, air and chlorophyll all working together, and it supports nearly all life. Psalm 104 speaks of Jehovah causing grass to sprout for the animals and plants for mankind to use. That verse is from memory, so check your Bible. We believe the system shows Jehovah's provision for us. When you write, separate what the science says from what we believe it shows, and thank Jehovah for it.

Question 1 (Ryan and Kayla / Ashelyn): Photosynthesis: write the inputs and outputs, where in the plant it happens, and how it provides for living things.

TEACHER ANSWER KEY: Inputs: sunlight, water, carbon dioxide. Outputs: glucose (sugar) and oxygen. Where: chloroplasts (chlorophyll). Plants make food and oxygen for animals and people.
Look for: their own words and the key points above. Do not require my exact wording.

Question 2 (Ryan and Kayla / Ashelyn): Explain what chlorophyll does and why leaves look green.

TEACHER ANSWER KEY: Chlorophyll absorbs light energy (mainly red and blue) for photosynthesis and reflects green light, so leaves look green.
Look for: their own words and the key points above. Do not require my exact wording.

FLAG: The "Jehovah's provision" conclusion is a belief; the article is a science explainer.

FLAG: The original "main idea" question was too general; I replaced it with a chlorophyll question that the source directly answers.

FLAG: Mykah's simple version of this lesson has not been written yet; the Mykah quiz uses the older general questions.

MATH - Least common multiple: practice

SOURCES AND VERIFICATION

STANDARD KNOWLEDGE: Arithmetic. Checked by computer: lcm(11,12)=132, lcm(11,3)=33, lcm(6,8)=24, lcm(5,10)=10.

FOR RYAN AND KAYLA / ASHELYN — Ryan, Kayla and Ashelyn (about 387 words, 2.6 min aloud)

Today is practice day for least common multiples. Quick review: the LCM is the smallest number that both numbers divide into evenly. It is never smaller than the larger of the two numbers.

Three tools. Tool one: list multiples until you find the first match. Tool two: the prime factor method for bigger numbers. Tool three: a shortcut. If the two numbers share no factor except 1, multiply them together. If the bigger number is a multiple of the smaller, the LCM is the bigger one.

Warm-up together. The LCM of 6 and 8. Multiples of 8: 8, 16, 24. Does 6 go into 8? No. 16? No. 24? Yes, four times. So the LCM is 24. Next, the LCM of 5 and 10. 10 is a multiple of 5, so the LCM is 10.

Now our questions. Number one: the LCM of 11 and 12. Eleven is a prime number. Twelve is 2 times 2 times 3. They share nothing, so multiply: 11 times 12. Let me do it carefully. 11 times 10 is 110, and 11 times 2 is 22, and 110 plus 22 is 132.

ANSWER 1 TO SAY OUT LOUD: The LCM of 11 and 12 is 132. Check: 132 divided by 11 is 12, and 132 divided by 12 is 11. Both are whole numbers.

Number two: the LCM of 11 and 3. Eleven is prime and three is prime. They share nothing, so multiply: 11 times 3 is 33.

ANSWER 2 TO SAY OUT LOUD: The LCM of 11 and 3 is 33. Check: 33 divided by 11 is 3, and 33 divided by 3 is 11.

A word problem to show why it matters. Two lights blink. One blinks every 3 seconds and the other every 11 seconds. They just blinked together. When will they next blink together? That is the LCM of 3 and 11, which is 33 seconds. Say the sentence: they blink together again after 33 seconds.

Another one for fractions. To add one third and one eleventh, the common denominator is 33. One third is eleven thirty-thirds. One eleventh is three thirty-thirds. Together: fourteen thirty-thirds.

Last reminder before you write. Show your work: list the multiples or write the prime factors. Check your answer by dividing it by each number. If both divisions come out even, you are right. Then write the final answer in a complete sentence.

Question 1 (Ryan and Kayla / Ashelyn): Math (Least common multiple): find the LCM of 11 and 12. Show your steps.

TEACHER ANSWER KEY: 132 (11 and 12 share no factor; 11 × 12)
Look for: their own words and the key points above. Do not require my exact wording.

Question 2 (Ryan and Kayla / Ashelyn): Math (Least common multiple): find the LCM of 11 and 3. Show your steps.

TEACHER ANSWER KEY: 33
Look for: their own words and the key points above. Do not require my exact wording.

FLAG: Answers computed by program.

FLAG: Mykah's simple version of this lesson has not been written yet; the Mykah quiz uses the older general questions.

LANGUAGE ARTS - Vocabulary building: practice

SOURCES AND VERIFICATION

STANDARD KNOWLEDGE: Same as Day 18: standard context-clue strategies; no outside source opened.

FOR RYAN AND KAYLA / ASHELYN — Ryan, Kayla and Ashelyn (about 436 words, 2.9 min aloud)

Yesterday we learned strategies for building vocabulary: context clues, word parts, a word list, and using the word. Today we practice on real sentences. Remember the key question: what do the nearby words tell me?

Practice one. "The brothers showed loyalty to one another; even when they argued, they never walked away from the family." What does loyalty mean? The clue is "never walked away." Loyalty is staying faithful, sticking by someone. Practice two. "A person with discernment looks at two choices and sees which one is wiser." The clue is "sees which one is wiser." Discernment is good judgment, the ability to tell things apart. Practice three. "The cashier had integrity; she returned the extra twenty dollars when she noticed the mistake." The clue is returning money when she could have kept it. Integrity is honesty and doing right when it costs you.

ANSWER 1 TO SAY OUT LOUD: Let me say the main idea in a complete answer. We build strong vocabulary by reading, using context clues to guess meanings, checking them in a dictionary and keeping a word list. For example, in the sentence about the cashier, returning the money shows the meaning of integrity.

Now word parts. “Unfaithful.” The prefix un- means not, and the root is faithful, so unfaithful means not faithful. “Discernment” comes from a root meaning to separate or sort out, which fits the idea of telling things apart. Knowing parts helps with words you have never seen.

Next, using a new word in your own sentence. A good sentence shows the meaning, so a reader could guess the word. Weak: “She had integrity.” Strong: “She had integrity, so she told the truth even when lying would have saved her from trouble.” The second sentence teaches the reader what the word means.

Let me model with the word loyalty. Meaning: staying faithful to a person or cause, especially when it is hard. Example: Ruth stayed with Naomi and said, your people will be my people, and your God my God. Why it matters: loyalty is a quality Jehovah values, and it helps us keep friendships and serve him faithfully. The Ruth example is from memory, so check Ruth chapter 1.

ANSWER 2 TO SAY OUT LOUD: For the second question you do the same with one word you pick. You give the meaning, a strong example sentence that shows the meaning, and one sentence about why it matters.

One last challenge for the week. When you read your Bible reading or a magazine, pick one word you are unsure about. Write the sentence it appeared in, guess the meaning from the clues, then check it. Add it to your word list.

Question 1 (Ryan and Kayla / Ashelyn): Vocabulary building: use a context clue to work out the meaning of “integrity” in this sentence: “The cashier had integrity; she returned the extra twenty dollars.” Then explain the strategy.

TEACHER ANSWER KEY: Integrity = honesty, doing right even when it costs you. Strategy: look at nearby words for clues, check in a dictionary, add to a word list.
Look for: their own words and the key points above. Do not require my exact wording.

Question 2 (Ryan and Kayla / Ashelyn): Pick loyalty, discernment or integrity. Write its meaning, a strong example sentence, and why it matters.

TEACHER ANSWER KEY: Accurate meaning (loyalty = faithfulness; discernment = good judgment; integrity = honesty/principles), a sentence that shows the meaning, and a reason it matters.
Look for: their own words and the key points above. Do not require my exact wording.

FLAG: Ruth 1 example from memory.

FLAG: Mykah's simple version of this lesson has not been written yet; the Mykah quiz uses the older general questions.

HISTORY - The fall of Rome in 476 CE

SOURCES AND VERIFICATION

VERIFIED: Britannica, "Romulus Augustulus": Orestes put his young son Romulus on the Western throne (Oct 31, 475); Odoacer executed Orestes on Aug 28, 476, spared Romulus because of his youth, and sent him to live in Campania on a pension; the Eastern emperor never recognized Romulus.
Link: https://www.britannica.com/print/article/509048

NOT OPENED: The page does not give the final removal date of Romulus (often given as September 476) or explain wider causes of Rome's decline. I will not state those as verified. I also have not verified a Bible-prophecy link for the fall of Rome, so the lesson stays with the historical facts and our reasoning.

FOR RYAN AND KAYLA / ASHELYN — Ryan, Kayla and Ashelyn (about 499 words, 3.3 min aloud)

We have studied the Roman Empire for three days. Today we ask: how did the Western part of it end? A famous date is 476 in the Common Era. We have a source for the details, the Encyclopaedia Britannica article about the last Western emperor, whose name was Romulus Augustulus.

Start with the name, because it is a bit funny. Romulus was the legendary founder of Rome, and Augustus was its first emperor. The last Western emperor had both names, and Augustulus means little Augustus. He was only a boy.

Now the story, step by step. By the 470s the Western Empire was weak, and real power sat with its military commanders. A general named Orestes drove the Western emperor, Julius Nepos, out of Italy. On October 31 of the year 475, Orestes put his own young son, Romulus, on the throne. Orestes ruled in his son's name.

About a year later, Orestes' own soldiers mutinied. They wanted land in Italy, and they chose a German warrior named Odoacer as their leader. On August 28, 476, Odoacer's forces captured and executed Orestes.

What about the boy emperor? Odoacer spared him because he was so young. He gave him a pension and sent him to live with relatives in Campania in Italy. Britannica says the Eastern emperor did not recognize Romulus as a legitimate ruler, calling him a usurper.

ANSWER 1 TO SAY OUT LOUD: Say the answer. In 476, the general Orestes' soldiers turned on him and executed him under the leadership of Odoacer. The boy emperor Romulus Augustulus lost power; Odoacer spared him, gave him a pension and sent him to Campania.

Be careful about one thing. We say the Western Roman Empire ended in 476, but nothing on that day looked like the end of the world. The Eastern half, with its capital at Constantinople, kept going for nearly a thousand years. Historians often use 476 as a convenient marker. The page I opened does not give wider causes, so I will not guess at them, but we can say the Western Empire had been unstable and was held up by military leaders rather than strong emperors.

What does this teach us? Empires that seem permanent can end. Rome built roads that lasted 2,000 years, and its law influences nations today, and yet its Western government ended with a boy on a throne and a pension. Human governments rise and fall. The Bible says at Daniel 2:44 that Jehovah's Kingdom will never be destroyed. That verse is from memory, so check it in your Bible.

ANSWER 2 TO SAY OUT LOUD: The second answer: this shows that even the greatest human empire ended. Human governments rise and decline, while the Bible says God's Kingdom will last. Notice that this is a conclusion we draw; Britannica gives the history only.

Before you write, check your facts. Who was the boy emperor? Romulus Augustulus. Who removed power from his father? Odoacer. What year? 476. What happened to Romulus? He got a pension and went to Campania. Then add why it matters.

Question 1 (Ryan and Kayla / Ashelyn): History: Fall of Rome. Tell who, when and what happened in 476.

TEACHER ANSWER KEY: Orestes put his son Romulus Augustulus on the Western throne in 475; in 476 Odoacer's forces executed Orestes; Odoacer spared Romulus (pension, Campania). The Western Empire is said to end in 476; the East continued.
Look for: their own words and the key points above. Do not require my exact wording.

Question 2 (Ryan and Kayla / Ashelyn): Give one lesson from the fall of Rome and explain why it matters.

TEACHER ANSWER KEY: Human empires rise and fall; the Bible says God's Kingdom will last (Dan 2:44). Accept a reasoned lesson; separate history from belief.
Look for: their own words and the key points above. Do not require my exact wording.

FLAG: Old quiz answer said "Rome fell in 476 CE" without detail; this version stays within the Britannica page.

FLAG: Daniel 2:44 from memory.

FLAG: Mykah's simple version of this lesson has not been written yet; the Mykah quiz uses the older general questions.

WRITING - Proofreading and editing: practice

SOURCES AND VERIFICATION

VERIFIED: Purdue OWL, "Proofreading Suggestions" (same page as Day 18): read aloud; examine paragraphs; keep a list of frequent errors.
Link: https://owl.purdue.edu/owl/general_writing/the_writing_process/proofreading/proofreading_suggestions.html

FOR RYAN AND KAYLA / ASHELYN — Ryan, Kayla and Ashelyn (about 412 words, 2.7 min aloud)

Today is practice day for proofreading. We use the three strategies from Purdue University's writing lab: read it aloud, look at each paragraph, and keep a list of your frequent errors. Plus our own classroom habit: check one type of mistake at a time.

Here is a short paragraph full of errors. Listen as I read it exactly as written: "me and my brother goes to the park everyday. We play bals and then we eats lunch." Do you hear anything wrong? Reading aloud already helps: "my brother goes" sounds wrong, and "we eats" sounds wrong.

Let's fix it one type at a time. Capital letters: the sentence begins with "me," which should be capitalized, but the real fix is the order and the pronoun. In

English we put the other person first and use “I,” not “me,” as the subject. “My brother and I.” Verbs: “my brother and I” takes “go,” not “goes.” And “we eats” should be “we eat.” Spelling: “everyday” as one word is an adjective, as in everyday life. When we mean each day, it is two words: “every day.” And “bals” should be “balls,” though in the sentence “play ball” works better, so “We play ball.” Punctuation: both sentences end with periods, which is correct.

The corrected paragraph: “My brother and I go to the park every day. We play ball and then we eat lunch.”

ANSWER 1 TO SAY OUT LOUD: So the first answer is a good plan for proofreading. Read it aloud, check one type of error at a time, such as spelling, capitals, punctuation and grammar, and keep a list of your frequent mistakes so you can watch for them.

ANSWER 2 TO SAY OUT LOUD: And the second answer is the corrected paragraph, with each mistake named: “me” changed to “My brother and I” (pronoun/order); “goes” changed to “go” and “eats” to “eat” (subject-verb agreement); “everyday” changed to “every day” (spelling); “bals” changed to “ball” or “balls” (spelling).

Now your own writing. Take the paragraph you wrote this week. Read it aloud once. Find at least two things to change and name what kind of mistake each was. Write one sentence on what you will watch for next time. Your frequent error list is the most powerful tool, because it is made of your own habits.

A closing thought. Careful writing is respectful of the reader. When we write a thank-you note, a letter to a relative, or a comment for a meeting, a few minutes of checking can make it clearer and kinder.

Question 1 (Ryan and Kayla / Ashelyn): Proofreading and editing: describe a plan for proofreading a paragraph in three steps.

TEACHER ANSWER KEY: Read it aloud; check one kind of error at a time (spelling, capitals, punctuation, grammar); keep a list of frequent errors; look at paragraph structure (topic sentence, support).
Look for: their own words and the key points above. Do not require my exact wording.

Question 2 (Ryan and Kayla / Ashelyn): Proofread: “me and my brother goes to the park everyday. We play bals and then we eats lunch.” Rewrite it correctly and name each mistake.

TEACHER ANSWER KEY: “My brother and I go to the park every day. We play ball (balls) and then we eat lunch.” Mistakes: pronoun/order (me and my brother → my brother and I); agreement (goes→go, eats→eat); everyday→every day; bals→ball/balls. **Look for:** their own words and the key points above. Do not require my exact wording.

FLAG: Everything about the Purdue tips is from the page opened. “Check one type at a time” is a classroom habit, not from the page.

FLAG: Mykah’s simple version of this lesson has not been written yet; the Mykah quiz uses the older general questions.
